

Lichfield District Council
Site Allocations
Sustainability Appraisal Scoring Matrix: Settlement Alrewas
Main Modifications 2018

Sustainability Objective	Site Specific Question	Site Reference	Comment
		974	Alrewas
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	N	There is a protected species present (Bat Roost) this has been recognised and compensated within the existing Planning Permission. Surveys undertaken as part of the Planning Application process.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	Previously developed land.
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	Site close to the Trent and Mersey Canal.
2 To promote and enhance the rich diversity of the natural archaeological/geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	N	No Landscape Character listed
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District Character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	Single + (?)	Within National Forest not in CRI or Forest of Mercia. Potential for improvements to NF.
	6 Will it result in the loss of historic landscape features?	N	None on or near to site
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to the site. No non-designated areas of archaeological interest on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	Single -	No listed buildings on site or adjacent to the site. However Locally Listed building, the Navigation Inn is located on the site .
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	Single -	Location within Alrewas Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safe guard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	+	The large majority of the site is located within the settlement boundary of Alrewas the western boundary of the site is located outside the settlement boundary of Alrewas.
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	++	These key services are located within the village centre of Alrewas, the majority of the site is located within the settlement boundary
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	++	Brownfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	Single + (?)	Buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	+	
	2 Will it reduce the overall impact on traffic sensitive areas?	++	Less than 25 dwellings
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	?	unclear whether route appropriate for on road cycle route
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	+	Brownfield
	3 Will it reduce the proportion of waste sent to landfill?	+	Brownfield
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	N	Not in SPZ
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA

Sustainability Objective	Site Specific Question	Site Reference	Comment
		974	Alrewas
	4 Will it result in the loss of quality agricultural land?	+	Grade 3 Brownfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	N	Flood Zone 1, Brownfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	N	Approx Yield 8
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	N	Approx Yield 8
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	Alrewas village is served through an existing GP Surgery located in the centre of the village. CCG have expressed that there is existing capacity.
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more area of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Outside LC and B
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	++	Within Alrewas Settlement Boundary in easy access of services located there.
	3 Will it support and protect existing neighbourhood centres serving the local needs of our communities?	N	No Neighbourhood Shopping Centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
		751 Airewas	
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	N	Surveys undertaken as part of planning application process. No protected species issues identified. However site is utilised by Badgers and Hedgehogs for foraging. Any impacts compensated for within existing planning permission.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Single -	Surveys undertaken as part of planning application process. Species poor semi-improved grassland.
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N (?)	Site adjacent to the Trent and Mersey Canal. Potential to impact.
2 To promote and enhance the rich diversity of the natural archaeological/geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	N	No Landscape Character listed
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District Character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	Single + (?)	Within National Forest not in CRI or Forest of Mercia. Potential for improvements to NF.
	6 Will it result in the loss of historic landscape features?	N	Site adjacent to the Trent and Mersey Canal
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to the site. No non-designated areas of archaeological interest on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on site or adjacent to the site. Locally listed building adjacent to site: 28A Kings Bromley Road - former PH.
	2 Will it improve and broaden access to, and understanding of, local heritage, historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	Single -	Eastern half of site within Airewas Conservation Area, Western end of site outside Conservation Areas. Southern boundary of site adjacent to Trent and Mersey Canal Conservation Area.
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	Single -	Site is outside historic boundary of settlement and joins it to A513.
	3 Does it safe guard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	+	The site is located adjacent to the settlement boundary of Airewas
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	These services are located within the village centre of Airewas the site is located adjacent to the settlement within access to those services via existing highway infrastructure.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	+	
	2 Will it reduce the overall impact on traffic sensitive areas?	++	Less than 25 dwellings
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	?	unclear whether route appropriate for on road cycle route
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	N	Not in SPZ
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA

1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	N	Unlikely to be used by protected species at this time due to overgrazing.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Single -	Semi-improved Grassland, over grazed.
	3 Will it protect statutory designated sites?	N	Not in SAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	Not located close to established corridors or watercourses.
2 To promote and enhance the rich diversity of the natural archaeological/geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	Trent Valley Washlands Riparian Alluvial Lowlands - Landscape maintenance
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District Character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	Double -	Within a Mineral Consultation Area Sand and gravel drift
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	Single + (?)	Within the National Forest, Within Central Rivers Initiative. Not within Forest of Mercia. Potential for improvements in two identified improvement systems as part of the development.
	6 Will it result in the loss of historic landscape features?	N	None on or near to site
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site. The following non-designated sites of archaeological interest are on site: Enclosure Linear Features, Round Barrow and cursus. Development of the site would result in the loss of these features.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on site or adjacent to the site. No non-designated built heritage assets on site.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safe guard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	Double -	The site is located away from a main or key settlement , access to the nearest key settlement Alrewas is restricted through the location of the A38.
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	Single-	Access to key services is restricted due to the location of the A38.
5 Maximise the use of previously developed land/buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Double - ?	
	2 Will it reduce the overall impact on traffic sensitive areas?	++	Less than 25 dwellings
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	N	unclear how a connection could be made to existing local communities
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption

	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	Airewas village is served through an existing GP Surgery located in the centre of the village. CCG have expressed that there is existing capacity.
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	Single -	Is within 480m of one area of accessible open space. Access is significantly restricted by the A38.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Outside LC and B
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	There is a clear gap between the settlement and the site, separation is increased through the location of the A38
	3 Will it support and protect existing neighbourhood centres serving the local needs of our communities?	N	No Neighbourhood Shopping Centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
			28 Alrewas
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Double -	Surveys undertaken as part of planning application. Significant current use of site by a number of protected and priority species.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Double -	Mature hedegrows old orchards, semi-improved grassland and areas of flood plain meadow at time of survey. Note majority of grassland areas now converted to cereal fields.
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC Part of the site is in the SAC (Western end)
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N (?)	Site is adjacent to the Trent and Mersey Canal. Potential to impact on both green corridors and watercourses.
2 To promote and enhance the rich diversity of the natural archaeological/geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	Trent Valley Washlands Riparian Alluvial Lowlands - Landscape maintenance
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District Character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	Double -	Within a Mineral Consultation Area Sand and Gravel Drift
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	Single + (?)	Within the National Forest, Within Central Rivers Initiative. Not within Forest of Mercia. Potential for improvements in two identified improvement systems as part of the development.
	6 Will it result in the loss of historic landscape features?	N	None on or near to site
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	Single-	No Scheduled Ancient Monuments on or near to site. The following non-designated areas of archaeological interest are on site: Trackway enclosure field boundary, ridge and furrow field system enclosure. Development of the site would lead to the loss of this feature.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	Single -	Site is adjacent to the listed Building Dark Lane Reference 12467.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	Single -	Western section of the site is located within the Alrewas Conservation Area.
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	Single -	Expands village north of historic boundary and closer to settlement of Wychnor.
	3 Does it safe guard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	+	The site is located adjacent to the settlement boundary of Alrewas
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	These services are located within the village centre of Alrewas, the site is located adjacent to the settlement within access to those services via existing highway infrastructure.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	+	
	2 Will it reduce the overall impact on traffic sensitive areas?	?	Unable to determine without comments from HE
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	N	no rail but can't be improved
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	N	Not in SPZ
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA

Sustainability Objective	Site Specific Question	Site Reference	Comment
	4 Will it result in the loss of quality agricultural land?	Double -	28 Alrewas Majority Grade 2 remaining Grade 4 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Eastern edge of site falls within Flood Zone 1. Majority of site is Flood Zone 1, South East of site is Flood Zone 2 (8%)
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx Yield 121
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx Yield 121
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	Alrewas village is served through an existing GP Surgery located in the centre of the village. CCG have expressed that there is existing capacity.
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more area of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Outside LC and B
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	++	Adjacent to the settlement boundary, location is easy access to existing infrastructure to link site with services.
	3 Will it support and protect existing neighbourhood centres serving the local needs of our communities?	N	No Neighbourhood Shopping Centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Armitage with Handsacre Through planning application survey data, no protected or priority species present.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Adjacent to Tuppenhurst Lane SBI. Potential indirect impact.
	3 Will it protect statutory designated sites?	Not in SAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	Adjacent to a watercourse potential for negative impact.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the District	1 Does it respect and protect existing landscape character?	The site is within the following Landscape Character areas: Trent Valley Washlands, Terrace, Alluvial Lowlands. Landscape enhancement
	2 Will it protect sites of geological importance?	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	See assumption
	4 Will it lead to the sterilisation of mineral resources?	Within a Mineral Consultation Area, Sand and Gravel Drift
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	Not within Forest of Mercia, CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	The site does not contain or is not adjacent to any historic Landscape features.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	The Scheduled Ancient Monument of Moated Site of Handsacre Hall is located within the Key Rural Settlement of Armitage with Handsacre. The site is surrounded by previous phases of residential expansion. No non-designated areas of archaeological interest on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting.	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	No listed buildings on the site or adjacent to the site
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	Not in a Conservation Area. The site is adjacent to Trent and Mersey Canal Brindley Bank to Woodend Lock Kings Bromley.
	4 Will it offer opportunities to bring heritage assets back into active use?	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	The site is adjacent to the Key Rural Settlement of Armitage and Handsacre.
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc)?	The site lines adjacent to the settlement boundary and within easy access of services located within the settlement. Note the site is located on the Handsacre side of the existing railway line.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	See assumption
	3 Does the site allow for the re-use of existing buildings?	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	
	2 Will it reduce the overall impact on traffic sensitive areas?	
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	no rail but can't be improved
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	See assumption
	2 Will it encourage prudent use of energy?	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	See assumption
8 To minimise waste and the increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	See assumption
	2 Will it increase waste recovery and recycling?	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	See assumption
9 Seek to improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Not in a SPZ
	2 Does the site fall within the River Mease SAC?	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	Not in a AQMA
	4 Will it result in the loss of quality agricultural land?	Grade 3 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Flood Zone 1 Greenfield
	2 Will there be an opportunity for flood risk reduction?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	Approx yield 200
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	Approx yield 200
	4 Will it meet the needs of the travelling community and show people?	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	Site is located within 480m of one or more areas of accessible open space. This does not include sites within 480m where access to these is restricted due to the West Coast Mainline. Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
	3 Will it provide new accessible green space?	

Sustainability Objective	Site Specific Question	Comment
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	See assumption
	2 Will it contribute to a safe built environment?	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	Outside LC and B
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	Adjacent to the settlement boundary. It is very likely that residents will use existing services located within Armitage and Handsacre.
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	No Neighbourhood Shopping Centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	See assumption

Sustainability Objective	Site Specific Question	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Armitage with Handsacre Protected and priority species unlikely to be present.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Site is active allotments.
	3 Will it protect statutory designated sites?	Not in SAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	Adjacent to water course potential for negative impact.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the District	1 Does it respect and protect existing landscape character?	No Landscape Character
	2 Will it protect sites of geological importance?	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	See assumption
	4 Will it lead to the sterilisation of mineral resources?	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	Not within Forest of Mercia, CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	The site is adjacent to the following historic Landscape feature : Armitage Lodge Park (Rugeley Road between them)
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	The Scheduled Ancient Monument of Moated Site of Handsacre Hall is located within the Key Rural Settlement of Armitage with Handsacre. The site is surrounded by previous phases of residential expansion. No non-designated areas of archaeological interest on site.
3 To protect and enhance buildings, features and areas of archeological, cultural and historic value and their setting.	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	No listed buildings on the site or adjacent to the site
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	The site is adjacent to the Conservation Area Trent and Mersey Canal
	4 Will it offer opportunities to bring heritage assets back into active use?	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	The site is adjacent to the Key Rural Settlement of Armitage and Handsacre.
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc)?	The site lines adjacent to the settlement boundary and within easy access of services located within the settlement. Note the site lines on the Armitage side of the railway line.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	See assumption
	3 Does the site allow for the re-use of existing buildings?	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	
	2 Will it reduce the overall impact on traffic sensitive areas?	
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	difficult to deliver cycle improvements
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	See assumption
	2 Will it encourage prudent use of energy?	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	See assumption
8 To minimise waste and the increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	See assumption
	2 Will it increase waste recovery and recycling?	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	See assumption
9 Seek to improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Not in a SPZ
	2 Does the site fall within the River Mease SAC?	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	Not in a AQMA
	4 Will it result in the loss of quality agricultural land?	Grade 3 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Flood Zone 1 Greenfield
	2 Will there be an opportunity for flood risk reduction?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	Approx yield 37
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	Approx yield 37
	4 Will it meet the needs of the travelling community and show people?	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	Site is located within 480m of one or more areas of accessible open space. Site currently used for allotments. Would result in the loss of area of accessible open space identified in Open Space Assessment. Provision of open space and play facilities are included on the Regulation 123 List. Potential for minor negative due to loss of existing open space currently located within site.
	3 Will it provide new accessible green space?	

Sustainability Objective	Site Specific Question	Comment
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	See assumption
	2 Will it contribute to a safe built environment?	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	Outside LC and B
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	There is a clear gap between the site and the settlement boundary it is very likely that the residents will use the existing services located within Armitage and Handsacre.
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	No Neighbourhood Shopping Centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	See assumption

Sustainability Objective	Site Specific Question	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Armitage with Handsacre There is a potential for protect and priority species to be present BAS adjacent to site St John the Baptist Church Yard.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Site appears to be improved grassland and rudral
	3 Will it protect statutory designated sites?	Not in SAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	Adjacent to water course potential for negative impact.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the District	1 Does it respect and protect existing landscape character?	No Landscape Character
	2 Will it protect sites of geological importance?	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	See assumption
	4 Will it lead to the sterilisation of mineral resources?	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	Not within Forest of Mercia, CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	The site is adjacent to the following Historic Landscape Features: Church Farm Armitage and also adjacent (Rugley Road between) Armitage Lodge Park - Landscape Park.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	The Scheduled Ancient Monument of Moated Site of Handsacre Hall is located within the Key Rural Settlement of Armitage with Handsacre. The site is surrounded by previous phases of residential expansion. No non-designated areas of archaeological interest on site.
3 To protect and enhance buildings, features and areas of archeological, cultural and historic value and their setting.	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	Adjacent to (Rugeley Road between) Lodge Cottage Grade 2
	2 Will it improve and broaden access to, and understanding of, local heritage, historic sites, areas and buildings?	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	The site is adjacent to the Conservation Area Trent and Mersey Canal
	4 Will it offer opportunities to bring heritage assets back into active use?	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	The site is adjacent to the Key Rural Settlement of Armitage and Handsacre.
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc)?	The site lines adjacent to the settlement boundary and within easy access of services located within the settlement. Note the site lies on the Armitage side of the railway line.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	See assumption
	3 Does the site allow for the re-use of existing buildings?	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	
	2 Will it reduce the overall impact on traffic sensitive areas?	Less than 25 dwellings
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	difficult to deliver cycle improvements
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	See assumption
	2 Will it encourage prudent use of energy?	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	See assumption
8 To minimise waste and the increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	See assumption
	2 Will it increase waste recovery and recycling?	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	See assumption
9 Seek to improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Not in a SPZ
	2 Does the site fall within the River Mease SAC?	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	Not in a AQMA
	4 Will it result in the loss of quality agricultural land?	Grade 3 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Flood Zone 1 Greenfield
	2 Will there be an opportunity for flood risk reduction?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	Approx yield 20
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	Approx yield 20
	4 Will it meet the needs of the travelling community and show people?	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	Site is located within 480m of one or more areas of accessible open space. Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
	3 Will it provide new accessible green space?

Sustainability Objective	Site Specific Question	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Armitage with Handsacre There is potential for protected and priority species to be present (Bats).
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Site is majority hard standing or buildings
	3 Will it protect statutory designated sites?	Not in SAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	No impact on watercourse or green corridors.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the District	1 Does it respect and protect existing landscape character?	No Landscape Character
	2 Will it protect sites of geological importance?	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	See assumption
	4 Will it lead to the sterilisation of mineral resources?	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	Not within Forest of Mercia, CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	No Historic Landscape features on site
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	The Scheduled Ancient Monument of Moated Site of Handsacre Hall is located within the Key Rural Settlement of Armitage with Handsacre. The site is surrounded by previous phases of residential expansion. No non-designated areas of archaeological interest on site.
3 To protect and enhance buildings, features and areas of archeological, cultural and historic value and their setting.	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	No listed buildings on the site or adjacent to the site
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	Not in or adjacent to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	The site is within the Key Rural Settlement of Armitage and Handsacre.
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc)?	The site is within the Key Rural Settlement of Armitage and Handsacre. Note the site lines on the Armitage side of the railway line.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Mainly brownfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	See assumption
	3 Does the site allow for the re-use of existing buildings?	Buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	
	2 Will it reduce the overall impact on traffic sensitive areas?	
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	no rail but can't be improved
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	See assumption
	2 Will it encourage prudent use of energy?	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	See assumption
8 To minimise waste and the increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	See assumption
	2 Will it increase waste recovery and recycling?	Brownfield
	3 Will it reduce the proportion of waste sent to landfill?	Brownfield
9 Seek to improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Not in a SPZ
	2 Does the site fall within the River Mease SAC?	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	Not in a AQMA
	4 Will it result in the loss of quality agricultural land?	Grade 3 Mainly Brownfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Flood Zone 1 Brownfield
	2 Will there be an opportunity for flood risk reduction?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	Approx yield 40
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	Approx yield 40
	4 Will it meet the needs of the travelling community and show people?	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	Site is located within 480m of one or more areas of accessible open space. This does not include sites within 480m where access to these is restricted due to the West Coast Mainline.
	3 Will it provide new accessible green space?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.

Sustainability Objective	Site Specific Question	Comment
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	See assumption
	2 Will it contribute to a safe built environment?	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	The site is currently an Existing Industrial Area.
	2 Will it encourage new employment that is consistent with local needs?	The site is currently an Existing Industrial Area.
	3 Will it encourage growth of existing businesses?	The site is currently an Existing Industrial Area.
	4 Will it encourage small businesses to grow?	The site is currently an Existing Industrial Area.
15 To enhance the vitality and viability of existing city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	Outside LC and B
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	The site is within the settlement boundary of Armitage and Handsacre. It is very likely that residents will use existing services located within Armitage and Handsacre.
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	No Neighbourhood Shopping Centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	See assumption

2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the District	1 Does it respect and protect existing landscape character?	Double -
	2 Will it protect sites of geological importance?	N
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N
	4 Will it lead to the sterilisation of mineral resources?	N
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N
	6 Will it result in the loss of historic landscape features?	Single -
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N
3 To protect and enhance buildings, features and areas of archeological, cultural and historic value and their setting.	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	Double -
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N
	3 Will it preserve and enhance conservation areas including their setting?	Single -
	4 Will it offer opportunities to bring heritage assets back into active use?	N
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N
	3 Does it safeguard historic views and valuable skylines of settlements?	N
	4 Is the site within a main settlement or a key rural settlement?	+
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc)?	Single + (?)
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N
	3 Does the site allow for the re-use of existing buildings?	N
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	+
	2 Will it reduce the overall impact on traffic sensitive areas?	+?
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	+
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N
	2 Will it encourage prudent use of energy?	N
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N
8 To minimise waste and the increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N
	2 Will it increase waste recovery and recycling?	N
	3 Will it reduce the proportion of waste sent to landfill?	N
9 Seek to improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	N
	2 Does the site fall within the River Mease SAC?	N
	3 Is the site within or directly connected by road to an AQMA?	N
	4 Will it result in the loss of quality agricultural land?	Double -
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -
	2 Will there be an opportunity for flood risk reduction?	?
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++
	2 Will it increase the range and affordability of housing for all social groups?	++
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++
	4 Will it meet the needs of the travelling community and show people?	N
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+?)
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++
	3 Will it provide new accessible green space?	(+?)

Sustainability Objective	Site Specific Question	Site Reference
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N
	2 Will it contribute to a safe built environment?	N
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N
	2 Will it encourage new employment that is consistent with local needs?	N
	3 Will it encourage growth of existing businesses?	N
	4 Will it encourage small businesses to grow?	N
15 To enhance the vitality and viability of existing city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	++
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N

Sustainability Objective	Site Specific Question	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Armitage with Handsacre Survey data 2016, no protected or priority species present on site at this time.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Survey date 2015/16, semi improved grassland priority habitat and refunct hedegrows.
	3 Will it protect statutory designated sites?	Not in SAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	Adjacent to water course potential for negative impact.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the District	1 Does it respect and protect existing landscape character?	The site is within the following Landscape Chacter Areas: Trent Valley Washlands, Riparian Alluvial Lowlands, Landscape Maintenance
	2 Will it protect sites of geological importance?	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	See assumption
	4 Will it lead to the sterilisation of mineral resources?	Not in a Mineral Consultation Area (northern boundary adjacent to sand and gravel drift)
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	Not within Forest of Mercia, CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	The site is adjacent to the following Historic Landscape Feature: Marsh Barn Farm Armitage.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	The Scheduled Ancient Monument of Moated Site of Handsacre Hall is located within the Key Rural Settlement of Armitage with Handsacre. The site is surrounded by previous phases of residential expansion. No non-designated areas of archaeological interest on site.
3 To protect and enhance buildings, features and areas of archeological, cultural and historic value and their setting.	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	The site is adjacent to March Barn Farmhouse Grade 2
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	The site is adjacent to the Conservation Area Trent and Mersey Canal
	4 Will it offer opportunities to bring heritage assets back into active use?	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	The site is adjacent to the Key Rural Settlement of Armitage and Handsacre.
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc)?	Whilst the site is located adjacent to the settlement boundary it should be noted that the location of the canal could act as a barrier to accessibility. Note the site lies on the Handsacre side of the railway line.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	See assumption
	3 Does the site allow for the re-use of existing buildings?	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	
	2 Will it reduce the overall impact on traffic sensitive areas?	
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	potential to provide access to a bus service
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	See assumption
	2 Will it encourage prudent use of energy?	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	See assumption
8 To minimise waste and the increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	See assumption
	2 Will it increase waste recovery and recycling?	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	See assumption
9 Seek to improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Not in a SPZ
	2 Does the site fall within the River Mease SAC?	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	Not in a AQMA
	4 Will it result in the loss of quality agricultural land?	Majority Grade 3 Northern, Corner Grade 2. Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Flood Zone 1 Greenfield
	2 Will there be an opportunity for flood risk reduction?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	Approx yield 88
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	Approx yield 88
	4 Will it meet the needs of the travelling community and show people?	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.

Sustainability Objective	Site Specific Question	Comment
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	See assumption
	2 Will it contribute to a safe built environment?	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	Outside LC and B
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	The site is adjacent to the settlement boundary, the canal does act as a barriers to the access to services however it is very likely that the residents will use the existing services located within Armitage and Handsacre.
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	No Neighbourhood Shopping Centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	See assumption

Sustainability Objective	Site Specific Question	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Armitage with Handsacre Protected and priority species unlikely to be present.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Site is an arable field.
	3 Will it protect statutory designated sites?	Not in SAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	No impact on watercourse or green corridors.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the District	1 Does it respect and protect existing landscape character?	The site is within the following Landscape Character areas: Trent Valley Washlands Terrace Alluvial Lowlands. Landscape enhancement
	2 Will it protect sites of geological importance?	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	See assumption
	4 Will it lead to the sterilisation of mineral resources?	Within a Mineral Consultation Area Sand and Gravel Drift
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	Not within Forest of Mercia, CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	No Historic Landscape feature on or adjacent to site
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	The Scheduled Ancient Monument of Moated Site of Handsacre Hall is located within the Key Rural Settlement of Armitage with Handsacre. The site is surrounded by previous phases of residential expansion.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting.	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	No listed buildings on the site or adjacent to the site
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	Not in a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	The site is adjacent to the Key Rural Settlement of Armitage with Handsacre.
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc)?	The site lines are adjacent to the settlement boundary and within easy access of services located within the settlement. Note the site lies on the Armitage side of the railway line.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	See assumption
	3 Does the site allow for the re-use of existing buildings?	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	
	2 Will it reduce the overall impact on traffic sensitive areas?	
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	Potential to provide walk and bus improvements
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	See assumption
	2 Will it encourage prudent use of energy?	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	See assumption
8 To minimise waste and the increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	See assumption
	2 Will it increase waste recovery and recycling?	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	See assumption
9 Seek to improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Not in a SPZ
	2 Does the site fall within the River Mease SAC?	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	Not in a AQMA
	4 Will it result in the loss of quality agricultural land?	Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Flood Zone 3 runs through the centre of the site in a North South direction. Brownfield
	2 Will there be an opportunity for flood risk reduction?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	Approx yield 123
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	Approx yield 123
	4 Will it meet the needs of the travelling community and show people?	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.

	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N

Sustainability Objective	Site Specific Question	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Armitage with Handsacre Protected and priority species unlikely to be present.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Site is a combination of improved grassland (majority) allotment and a small area of hard standing.
	3 Will it protect statutory designated sites?	Not in SAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	No impact on watercourse or green corridors.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the District	1 Does it respect and protect existing landscape character?	The site is within the following Landscape Character areas: Trent Valley Washlands Terrace Alluvial Lowlands. Landscape enhancement
	2 Will it protect sites of geological importance?	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	See assumption
	4 Will it lead to the sterilisation of mineral resources?	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	Not within Forest of Mercia, CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	The site is adjacent to the following Historic Landscape Feature: Handsacre Hall Fishponds.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	The Scheduled Ancient Monument of Moated Site of Handsacre Hall is located within the Key Rural Settlement of Armitage with Handsacre. The site is surrounded by previous phases of residential expansion.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting.	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	No listed buildings on the site or adjacent to the site
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	Not in a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	The site is adjacent to the Key Rural Settlement of Armitage and Handsacre.
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc)?	The site lies adjacent to the settlement boundary and within easy access of services located within the settlement. Note the site lies on the Armitage side of the railway line.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	See assumption
	3 Does the site allow for the re-use of existing buildings?	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	
	2 Will it reduce the overall impact on traffic sensitive areas?	
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	Third party land uses would prevent delivery of cycle route beyond site
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	See assumption
	2 Will it encourage prudent use of energy?	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	See assumption
8 To minimise waste and the increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	See assumption
	2 Will it increase waste recovery and recycling?	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	See assumption
9 Seek to improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Not in a SPZ
	2 Does the site fall within the River Mease SAC?	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	Not in an AQMA
	4 Will it result in the loss of quality agricultural land?	Grade 3 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Flood Zone 3 runs through the centre of the site in a North South direction Greenfield
	2 Will there be an opportunity for flood risk reduction?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	Approx yield 250
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	Approx yield 250
	4 Will it meet the needs of the travelling community and show people?	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.

Sustainability Objective	Site Specific Question	Comment
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	See assumption
	2 Will it contribute to a safe built environment?	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	Outside LC and B
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	Adjacent to the settlement boundary. It is very likely that residents will use existing services located within Armitage and Handsacre.
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	No Neighbourhood Shopping Centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	See assumption

Sustainability Objective	Site Specific Question	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Armitage with Handsacre Potential for protected and priority species considering habitats present.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Partial survey data 2009 site appears to be a combination of semi-improved grassland, improved grassland, marsh grass land and park land. Western boundary of site is formed by Hood Lane hedgerows SBI.
	3 Will it protect statutory designated sites?	Not in SAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	There is a watercourse that runs adjacent to site Eastern boundary potential for negative impact. Impact on green corridors due to the site removing large areas of semi improved grass land Western boundary of site adjacent to a large network of semi-improved grassland.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the District	1 Does it respect and protect existing landscape character?	The site is within the following Landscape Character Area: Cannock Chase and Cankwood Settled Farmlands Landscape maintenance
	2 Will it protect sites of geological importance?	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	See assumption
	4 Will it lead to the sterilisation of mineral resources?	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	Not within Forest of Mercia, CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	The site is adjacent to the following Historic Landscape Feature Cruick Cottage Farm Armitage and has within the site the following Historic Landscape Feature Handsacre Hall Fishponds.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	The Scheduled Ancient Monument of Moated Site of Handsacre Hall is located within the Key Rural Settlement of Armitage with Handsacre. The site is surrounded by previous phases of residential expansion. The following Historic Landscape Feature Handsacre Hall Fishponds is within the site.
3 To protect and enhance buildings, features and areas of archeological, cultural and historic value and their setting.	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	The site is adjacent to Hood Lane Former Farm House Grade 2.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	Not in a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	The site is adjacent to the Key Rural Settlement of Armitage and Handsacre.
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc)?	The site lines adjacent to the settlement boundary and within easy access of services located within the settlement. Note the site lies on the Armitage side of the railway line.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	See assumption
	3 Does the site allow for the re-use of existing buildings?	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	
	2 Will it reduce the overall impact on traffic sensitive areas?	Unable to determine without transport evidence
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	Potential to provide access by bus, walk improvements unclear
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	See assumption
	2 Will it encourage prudent use of energy?	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	See assumption
8 To minimise waste and the increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	See assumption
	2 Will it increase waste recovery and recycling?	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	See assumption

Sustainability Objective	Site Specific Question	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Armitage with Handsacre Potential for protected and priority species considering habitats present (Bats).
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Partial survey data 2009: Semi Improved Grassland, Improved Grassland, the site also includes a network of farm buildings. Western boundary of the site is formed by SBI Hood Land Hedgerow.
	3 Will it protect statutory designated sites?	Not in SAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	Impact on green corridors due to the site removing large areas of semi-improved grassland Western boundary of site adjacent to a large network of semi-improved grassland.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the District	1 Does it respect and protect existing landscape character?	The site is within the following Landscape Character Area: Cannock Chase and Cankwood Settled Farmlands Landscape maintenance
	2 Will it protect sites of geological importance?	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	See assumption
	4 Will it lead to the sterilisation of mineral resources?	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	Not within Forest of Mercia, CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	No Historic Landscape features within or adjacent to site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	The Scheduled Ancient Monument of Moated Site of Handsacre Hall is located within the Key Rural Settlement of Armitage with Handsacre. The site is surrounded by previous phases of residential expansion.
3 To protect and enhance buildings, features and areas of archeological, cultural and historic value and their setting.	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	No listed buildings on the site or adjacent to the site
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	Not in a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	The site is adjacent to the Key Rural Settlement of Armitage with Handsacre.
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc)?	The site lines adjacent to the settlement boundary and within easy access of services located within the settlement. Note the site lies on the Armitage side of the railway line.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Element of development
	2 Is the site capable of supporting higher density development and/or a mix of uses?	See assumption
	3 Does the site allow for the re-use of existing buildings?	Buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	
	2 Will it reduce the overall impact on traffic sensitive areas?	
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	unable to deliver pedestrian improvements beyond site boundary
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	See assumption
	2 Will it encourage prudent use of energy?	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	See assumption
8 To minimise waste and the increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	See assumption
	2 Will it increase waste recovery and recycling?	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	See assumption
9 Seek to improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Not in a SPZ
	2 Does the site fall within the River Mease SAC?	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	Not in a AQMA
	4 Will it result in the loss of quality agricultural land?	Grade 3 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Flood Zone 1 majority Greenfield
	2 Will there be an opportunity for flood risk reduction?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	Approx yield 108
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	Approx yield 108
	4 Will it meet the needs of the travelling community and show people?	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.

Sustainability Objective	Site Specific Question	Comment
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	See assumption
	2 Will it contribute to a safe built environment?	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	Outside LC and B
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	Adjacent to the settlement boundary. It is very likely that residents will use existing services located within Armitage and Handsacre.
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	No Neighbourhood Shopping Centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	See assumption

		747
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Single -
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Double -
	3 Will it protect statutory designated sites?	N
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	Double -
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the District	1 Does it respect and protect existing landscape character?	Double -
	2 Will it protect sites of geological importance?	N
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N
	4 Will it lead to the sterilisation of mineral resources?	N
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N
	6 Will it result in the loss of historic landscape features?	Single -
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	Single -
3 To protect and enhance buildings, features and areas of archeological, cultural and historic value and their setting.	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	Double -
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N
	3 Will it preserve and enhance conservation areas including their setting?	N
	4 Will it offer opportunities to bring heritage assets back into active use?	N
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N
	3 Does it safeguard historic views and valuable skylines of settlements?	N
	4 Is the site within a main settlement or a key rural settlement?	+
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc)?	+
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N
	3 Does the site allow for the re-use of existing buildings?	N
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Single -
	2 Will it reduce the overall impact on traffic sensitive areas?	+?
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	+?
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N
	2 Will it encourage prudent use of energy?	N
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N
8 To minimise waste and the increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N
	2 Will it increase waste recovery and recycling?	N
	3 Will it reduce the proportion of waste sent to landfill?	N
9 Seek to improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	N
	2 Does the site fall within the River Mease SAC?	N
	3 Is the site within or directly connected by road to an AQMA?	N
	4 Will it result in the loss of quality agricultural land?	Double -
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -
	2 Will there be an opportunity for flood risk reduction?	?
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++
	2 Will it increase the range and affordability of housing for all social groups?	++
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++
	4 Will it meet the needs of the travelling community and show people?	N
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+?)
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++
	3 Will it provide new accessible green space?	(+?)

	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N

Sustainability Objective	Site Specific Question	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Armitage with Handsacre Potential for protected and priority species considering habitats present.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Partial survey data 2009: Semi-improved grassland Eastern boundary is formed by SBI (hood Lane hedgerow) and Western Boundary formed by SBI Bardy Lane Hedgerow.
	3 Will it protect statutory designated sites?	Not in SAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	Impact on green corridors due to the site removing large areas of semi-improved grassland Western boundary of site adjacent to a large network of semi-improved grassland. Watercourse within site potential for impact.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the District	1 Does it respect and protect existing landscape character?	The site is within the following Landscape Character Area: Cannock Chase and Cankwood Settled Farmlands Landscape maintenance
	2 Will it protect sites of geological importance?	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	See assumption
	4 Will it lead to the sterilisation of mineral resources?	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	Not within Forest of Mercia, CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	The site includes to the following Historic Landscape Features: Birchen Fields Farm Armitage.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	The Scheduled Ancient Monument of Moated Site of Handsacre Hall is located within the Key Rural Settlement of Armitage with Handsacre. The site is surrounded by previous phases of residential expansion. The site includes Birchen Fields Farm, Armitage
3 To protect and enhance buildings, features and areas of archeological, cultural and historic value and their setting.	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	The site includes Birchen Fields Farmhouse Grade 2.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	Not in a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	The site is adjacent to the Key Rural Settlement of Armitage and Handsacre.
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc)?	The site lines adjacent to the settlement boundary and within easy access of services located within the settlement. Note the site lies on the Armitage side of the railway line.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	See assumption
	3 Does the site allow for the re-use of existing buildings?	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	
	2 Will it reduce the overall impact on traffic sensitive areas?	
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	Potential to provide access by bus, walk improvements unclear
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	See assumption
	2 Will it encourage prudent use of energy?	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	See assumption
8 To minimise waste and the increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	See assumption
	2 Will it increase waste recovery and recycling?	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	See assumption
9 Seek to improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Not in a SPZ
	2 Does the site fall within the River Mease SAC?	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	Not in a AQMA
	4 Will it result in the loss of quality agricultural land?	Grade 3 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Flood Zone 1 Greenfield
	2 Will there be an opportunity for flood risk reduction?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	Approx yield 290
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	Approx yield 290
	4 Will it meet the needs of the travelling community and show people?	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	907- 1123 Single -	There are protected and priority species within the area as indicated in the Staffordshire Ecological record that the development could impact on. Badgers and Bats and Hedgehogs.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Double -	Priority habitat semi-improved grassland, however currently overgrazed. In addition site is adjacent to a Biodiversity Alert site which is Camsey Lane (Hedge 10).
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	Double -	The site is a priority habitat connected to established network of other priority habitats (Only potential for negative).
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Single -	Cannock Chase and Cankwood, Sandstone Estates. Landscape restoration
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	Single + (?)	Within Forest of Mercia Not in CRI or National Forest. Potential for improvements to FOM.
	6 Will it result in the loss of historic landscape features?	N	North Eastern Boundary with Historic Environment Area: Burntwood Asylum Park.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site. Site wraps round the following areas of archaeological interest Historic Environment Areas - Farmstead Coulter Lane Burntwood. Southern Boundary Historic Environment Areas - Mortuary Chapel.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on the site or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage, local heritage, historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in a Conservation Area or near to one.
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm, sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	Single -	The site has two Historic Environment Points on its boundary. Coulter Lane Farmstead and Hospital for infectious disease. Both traditionally would have been isolated sites. The site will, if developed will result in the joining of two distinct settlements and will also result in a significant change in character of the areas. Only single because a meaningful gap between St Matthews and Burntwood would still remain following development.
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	Single -	Site on the edge of St Matthews which is currently separated from the main settlement of Burntwood
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	There is a sport ground in the adjacent residential area of St Matthews. Other services would be accessed at Burntwood. Single plus due to the separation between site and Burntwood.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Double -	
	2 Will it reduce the overall impact on traffic sensitive areas?	+	no insurmountable traffic constraints in Burntwood, no traffic evidence
	3 Will it help develop walking, cycling rail and bus networks to enable residents access to employment, services and facilities?	Single - ?	potential to provide access to a bus service, may require third party land to connect to existing pedestrian facilities
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	SP23

Sustainability Objective	Site Specific Question	Site Reference	Comment
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Grade 3 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Flood Zone 1 Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx. yield 80
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx. yield 80
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+?)	Healthcare improvements to support the need within Burntwood and the surrounding area forms part of Transformation Funding Bid and LEP.
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	Single - ?	Site currently used for allotments. Would result in the loss of area of accessible open space identified in Open Space Assessment. Provision of open space and play facilities are included on the Regulation 123 List. Potential for minor negative due to loss of existing open space currently located within site.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	++	The site is located on the edge of the settlement of Burntwood and in close proximity to services within the settlement.
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Located outside a key rural settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our communities?	++	Four individual Neighbourhood Shopping Centres area located within the settlement of Burntwood.
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	964	
		N	Unlikely to support protected or priority species.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Double -	Semi-improved grass land (priority habitat). Site is in close proximity to Gentleshaw Common SSSI highly likely to result in indirect impacts to designated site.
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	Double -	The site is a priority habitat connected to established network of other priority habitats (Only potential for negative).
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	Cannock Chase and Cankwood. Landscape Coalfields Farmlands. Landscape restoration would generate a single - score however, this site is in close proximity to Cannock Chase AONB hence double -
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	Single + (?)	Within Forest of Mercia Not in CRI or National Forest. Potential for improvements to FOM.
	6 Will it result in the loss of historic landscape features?	N	Doesn't have a boundary with but is in close proximity to Historic Environment - Coney Mill Pond which leads on to Earth Banks Gentleshaw Common
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site. No non-designated areas of archaeological interest on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	Single -	No listed buildings on the site. Grade II listed 32 and 34 Rake Hill, Burntwood and Grade II listed Rake Croft, Rake Hill, Burntwood are near to the site. No non-designated built heritage assets on or near to site.
	2 Will it improve and broaden access to, and understanding of, local heritage, historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in a Conservation Area or near to one.
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm, sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	Double +	Boundary with settlement - Burntwood
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	Edge of settlement location means that services located in Burntwood can be easily accessed.
5 Maximise the use of previously developed land/buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	+	
	2 Will it reduce the overall impact on traffic sensitive areas?	+?	no insurmountable traffic constraints in Burntwood, no traffic evidence
	3 Will it help develop walking, cycling rail and bus networks to enable residents access to employment, services and facilities?	N	no rail but can't be improved
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	SP23

Sustainability Objective	Site Specific Question	Site Reference	Comment
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Grade 3 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Flood Zone 1 greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx. yield 51

	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	958 Single -	Site has the potential to support protected and priority spaces.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Double -	The site is directly adjacent to Chasewater Heaths and South Staffordshire Coalfields SSSI. The site is comprised of semi-improved grassland, acid grassland, and woodland plantation.
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	Double -	The site is a priority habitat connected to established network of other priority habitats (Only potential for negative).
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	Cannock Chase and Cankwood. Landscape Coalfields Farmlands. Landscape restoration score single - this site is in close proximity to Cannock Chase AONB Double - score.
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	Single + (?)	Within Forest of Mercia Not in CRI or National Forest. Potential for improvements to FOM.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site. No non-designated areas of archaeological interest on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on the site or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage, historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in a Conservation Area or near to one.
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm, sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	Double +	Boundary with settlement - Burntwood
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	Edge of settlement location means that services located in Burntwood can be easily accessed.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Double -	
	2 Will it reduce the overall impact on traffic sensitive areas?	+	no insurmountable traffic constraints in Burntwood, no traffic evidence
	3 Will it help develop walking, cycling rail and bus networks to enable residents access to employment, services and facilities?	++ ?	potential to provide access to a bus service and cycle infrastructure
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	N	Not in SPZ

Sustainability Objective	Site Specific Question	Site Reference	Comment
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Single -	Grade 4 and Non Agricultural Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Flood Zone 1 Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx. yield 120
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx. yield 120
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+?)	Healthcare improvements to support the need within Burntwood and the surrounding area forms part of Transformation Funding Bid and LEP.
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	(+?)	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	++	The site is located on the edge of the settlement of Burntwood and in close proximity to services within the settlement.
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Located outside a key rural settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our communities?	++	Four individual Neighbourhood Shopping Centres area located within the settlement of Burntwood.
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

102			
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Single -	Site has the potential to support protected and priority spaces.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Double -	The site comprises of lowland heathland, semi-improved /acid grassland and arable. Crane Brook runs through the Eastern part of the site.
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	Double -	The site contains priority habitats connected to established network of other priority habitats. A water course (Crane Brook) also runs through the site (Only potential for negative).
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Single -	The site is within the following Landscape character area; Cannock Chase and Cankwood , Sandstone estate land. Landscape re-creation
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	Double -	Mineral Consultations Areas: Sand and Gravel Solid
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	Single + (?)	Within Forest of Mercia Not in CRI or National Forest. Potential for improvements to FOM.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site. No non-designated areas of archaeological interest on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on the site or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage , local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in a Conservation Area or near to one.
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site

Sustainability Objective	Site Specific Question	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	The site has the potential to support protected and priority species.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Semi-improved grassland. Priority habitat
	3 Will it protect statutory designated sites?	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	The site is a priority habitat connected to established network of other priority habitats (Only potential for negative).
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	The site is within the following Landscape character area; Cannock Chase and Cankwood , Sandstone estate land. Landscape reformation
	2 Will it protect sites of geological importance?	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	See assumption
	4 Will it lead to the sterilisation of mineral resources?	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	Within Forest of Mercia Not in CRI or National Forest. Potential for improvements to FOM.
	6 Will it result in the loss of historic landscape features?	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	No Scheduled Ancient Monuments on or near to site. Southern Boundary in close proximity to Historic Environment Area - Appletree Farm
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	No listed buildings on the site or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	Not in a Conservation Area or near to one.
	4 Will it offer opportunities to bring heritage assets back into active use?	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm, sensitive to the locality? See assumption	
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	Development would erode the gap between the settlements of Burntwood and Hammerwich. This is single - as a gap would still remain.
	3 Does it safeguard historic views and valuable skylines of settlements?	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	Boundary with settlement - Burntwood
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	Edge of settlement location means that services located in Burntwood can be easily accessed.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	See assumption
	3 Does the site allow for the re-use of existing buildings?	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	
	2 Will it reduce the overall impact on traffic sensitive areas?	no insurmountable traffic constraints in Burntwood, no traffic evidence
	3 Will it help develop walking, cycling rail and bus networks to enable residents access to employment, services and facilities but can't be improved	
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	See assumption
	2 Will it encourage prudent use of energy?	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	See assumption
	2 Will it increase waste recovery and recycling?	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	SPZ 3

Sustainability Objective	Site Specific Question	Comment
	2 Does the site fall within the River Mease SAC?	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Urban Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Flood Zone 1 Greenfield
	2 Will there be an opportunity for flood risk reduction?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	Approx. yield 71
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	Approx. yield 71
	4 Will it meet the needs of the travelling community and show people?	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	Healthcare improvements to support the need within Burntwood and the surrounding area forms part of Transformation Funding Bid and LEP.
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	See assumption
	2 Will it contribute to a safe built environment?	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	The site is located on the edge of the settlement of Burntwood and in close proximity to services within the settlement.
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	Located outside a key rural settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our communities?	Four individual Neighbourhood Shopping Centres area located within the settlement of Burntwood.
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
		483	
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Single -	The site has the potential to support protected and priority species.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Double -	Semi-improved grassland priority habitat
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	Double -	The site is a priority habitat connected to established network of other priority habitats (Only potential for negative).
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Single -	The site is within the following Landscape character area; Cannock Chase and Cankwood, Sandstone estate land. Landscape restoration
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	Single + (?)	Within Forest of Mercia. Not in CRI or National Forest. Potential for improvements to FOM.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site. Southern Boundary in close proximity to Historic Environment Area - Appletree Farm
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on the site or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage , local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in a Conservation Area or near to one.
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	477 Burntwood	
		N	The site is unlikely to support priority and protected species
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Single -	The site is arable and pastoral land however there is potential for indirect impact on Chasewater Heaths and Southern Coalfields SSSI and Sevens Road SBI.
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or water course.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	The site is within the following Landscape Character Area: Cannock Chase and Cankwood , Coalfields Farmlands. Landscape reformation would score single - however this site is in close proximity to Channock Chase AONB Double - score.
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	Single + (?)	Within Forest of Mercia. Not in CRI or National Forest. Potential for improvements to FOM.
	6 Will it result in the loss of historic landscape features?	N	The north eastern tip of the site is adjacent to Historic Environment Earth Banks, Gentleshaw Common.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	Single -	No Scheduled Ancient Monuments on or near to site. The following Historic Environment Area is on site - Mineral railway, Chasetown to Hednesford runs through the centre of the site in a North, South direction.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on the site or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage , local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in a Conservation Area or near to one.
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm, sensitive to the locality? 	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	++	The site is located on the edge of the settlement of Burntwood and in close proximity to services within the settlement
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Located outside a key rural settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our communities?	++	Four individual Neighbourhood Shopping Centres area located within the settlement of Burntwood.
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	93 Burntwood Single -	Protected and priority species likely to be using the site. Badgers Bats Hedgerows and Great Crested newts ponds on site. No Site survey data.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Double -	Habitat semi-improved grassland, 2009 survey data. Destruction of priority habitat and a network of hedgerows.
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC. SSSI Gentle Shaw Common Closest point as CF 310 metres likelihood significant negative impacts to site caused by increased visitor numbers for leisure and recreational activities.
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	Double -	The site is a priority habitat connected to established network of other priority habitats (Only potential for negative).
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	Regional Character Cannock Chase and Cankwood. Landscape Settled plateau Farmland slopes. Landscape enhancement. The North tip of the site is in close proximity to Cannock Chase AONB.
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	Single + (?)	Within Forest of Mercia. Not in CRI or National Forest. Potential for improvements to FOM.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site. No non-designated areas of archaeological interest on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	Double -	32 and 34 Rake Hill, Burntwood. Grade II listed buildings is on the site and Rake Croft, Rake Hill, Burntwood also Grade II is adjacent to the site. Development would affect the setting of both of these.
	2 Will it improve and broaden access to, and understanding of, local heritage, local heritage, historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in a Conservation Area or near to one.
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm, sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	Double +	Boundary with settlement - Burntwood
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	Edge of settlement location means that services located in Burntwood can be easily accessed.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	Single + (?)	Element of built form on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Single -	
	2 Will it reduce the overall impact on traffic sensitive areas?	+?	no insurmountable traffic constraints in Burntwood, no traffic evidence
	3 Will it help develop walking, cycling rail and bus networks to enable residents access to employment, services and facilities?	+?	potential to provide access to a bus service
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	SPZ 3

Sustainability Objective	Site Specific Question	Site Reference	Comment
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Grade 3 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Majority of the site Flood Zone 1, small section located in the eastern corner of the site falls in Flood Zone 2 and 3. Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx. yield 445
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx. yield 445
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+?)	Healthcare improvements to support the need within Burntwood and the surrounding area forms part of Transformation Funding Bid and LEP.
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	++	The site is located on the edge of the settlement of Burntwood and in close proximity to services within the settlement
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Located outside a key rural settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our communities?	++	Four individual Neighbourhood Shopping Centres area located within the settlement of Burntwood.
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	494 Burntwood Single -	Potential to impact on priority protected species evident on Staffordshire Ecological record which appear on neighbouring site SHLAA 404
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Single -	Intensive agricultural use including poly tunnels. Made up of a number of fields majority arable it should be noted one field is semi-improved grassland which is a priority habitat.
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	-	The site is partial priority habitat which is isolated. There is water course which runs through the centre of the site.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	Regional Character Cannock Chase and Cankwood. Landscape Settled plateau Farmland slopes. Landscape enhancement
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	Single + (?)	Within Forest of Mercia. Not in CRI or National Forest. Potential for improvements to FOM.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	Single -	No Scheduled Ancient Monuments on or near to site. No non-designated areas of archaeological interest on site however site is near to Historic Environment Areas: Farmstead, Coulter Lane, Burntwood, Peggs Row, Coulter Lane, Burntwood, Mortuary Chapel, Burntwood, Hospital for Infectious Diseases, Coulter Lane, Burntwood, School, Coulter Lane, Burntwood and Fulfen House Farm, Burntwood.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	Double -	No listed buildings on site. However the site is adjacent to the following Grade 2 Listed 57 Church Road and Grade 2 listed Christchurch, development will affect the setting of these designated heritage assets. Also near to Grade II listed Fulfen Farm.
	2 Will it improve and broaden access to, and understanding of, local heritage, historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in a Conservation Area or near to one.
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm, sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	Double -	The site if developed, will result in the joining of two distinct settlements and will also result in a significant change in character of the areas.
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	Double -	Gap between Burntwood and also a gap between St Matthews which is outside of the main settlement.
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+ (?)	There is a clear gap between the settlement of Burntwood and the site which means that services located in Burntwood may be more difficult to access.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Single -	
	2 Will it reduce the overall impact on traffic sensitive areas?	+?	no insurmountable traffic constraints in Burntwood, no traffic evidence
	3 Will it help develop walking, cycling rail and bus networks to enable residents access to employment, services and facilities?	+?	potential to provide access to a bus service
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	SPZ 3

Sustainability Objective	Site Specific Question	Site Reference	Comment
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Part Grade 3 Part Grade 2 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Majority of site Flood Zone 1. Small section located at the Northern tip of the site falls in Flood Zone 2 and 3 Greenfield.
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx. yield 440
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx. yield 440
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+?)	Healthcare improvements to support the need within Burntwood and the surrounding area forms part of Transformation Funding Bid and LEP.
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	++	The site is located on the edge of the settlement of Burntwood and in close proximity to services within the settlement
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Located outside a key rural settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our communities?	++	Four individual Neighbourhood Shopping Centres area located within the settlement of Burntwood.
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	632 Burntwood N	No evidence to priority species evident in addition, habitat unlikely to support protected or priority species.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	No survey data. Does not appear to contain priority habitat. Arable fields
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or watercourses present
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Single -	The site falls within the following Landscape Character Areas: Cannock Chase and Cankwood, Sandstone estate lands. Landscape restoration
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	Single + (?)	Within Forest of Mercia. Not in CRI or National Forest. Potential for improvements to FOM.
	6 Will it result in the loss of historic landscape features?	N	Site is opposite Historic Landscape Park: Burntwood Asylum Park
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site. No non-designated areas of archaeological interest on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on the site or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage, local heritage, historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in a Conservation Area or near to one.
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm, sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	No significant impact, well designed development will ensure local distinctive character could be maintained.
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	Double -	Gap between Burntwood and also a gap between St Matthews which is outside of the main settlement.
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+ (?)	There is a clear gap between the settlement of Burntwood and the site which means that services located in Burntwood may be more difficult to access.

12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+?)	Healthcare improvements to support the need within Burntwood and the surrounding area forms part of Transformation Funding Bid and LEP.
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	++	The site is located on the edge of the settlement of Burntwood and in close proximity to services within the settlement
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Located outside a key rural settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our communities?	++	Four individual Neighbourhood Shopping Centres area located within the settlement of Burntwood.
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	482 Burntwood	
		N	Habitat present not suitable to support priority or protected species.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Single -	Biodiversity Alert Site forms the north boundary of the site (Hedge - Woodhouse lane - BAS) Woodhouse Hedge 6. Site consists of a network of cereal field. Potential for indirect impact on BAS.
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or watercourses present
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Single -	The site falls within the following Landscape Character Areas: Cannock Chase and Cankwood, Sandstone estate lands. Landscape restoration
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	Single + (?)	Within Forest of Mercia. Not in CRI or National Forest. Potential for improvements to FOM.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site. No non-designated areas of archaeological interest on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	Double -	No listed buildings on site. However site adjacent to Grade 2 Listed Building Edial House. Development will affect the setting of this heritage asset.
	2 Will it improve and broaden access to, and understanding of, local heritage, historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in a Conservation Area or near to one.
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm, sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	Double -	Development would join a currently relatively isolated site of Edial House Farm (Grade II) with the rest of Burntwood as such it is possible that development would result in a loss of rural character.
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	Double -	Gap between Burntwood and also a gap between St Matthews which is outside of the main settlement.
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+ (?)	There is a clear gap between the settlement of Burntwood and the site which means that services located in Burntwood may be more difficult to access.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	+	
	2 Will it reduce the overall impact on traffic sensitive areas?	+?	no insurmountable traffic constraints in Burntwood, no traffic evidence
	3 Will it help develop walking, cycling rail and bus networks to enable residents access to employment, services and facilities?	N	no rail but can't be improved
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	SPZ 3

Sustainability Objective	Site Specific Question	Site Reference	Comment
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Grade 2 not previously Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	No flood Zone. Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx. yield 377
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx. yield 377
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+?)	Healthcare improvements to support the need within Burntwood and the surrounding area forms part of Transformation Funding Bid and LEP.
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	++	The site is located on the edge of the settlement of Burntwood and in close proximity to services within the settlement
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Located outside a key rural settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our communities?	++	Four individual Neighbourhood Shopping Centres area located within the settlement of Burntwood.
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	69 Burntwood	
		N	The site is unlikely to support protected and priority species
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	The site comprises of arable land.
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or watercourses present
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Single -	The site falls within the following Landscape Character Areas: Cannock Chase and Cankwood, Sandstone Estate Lands. Landscape restoration
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	Double -	Part of site falls within Planning Mineral Consultation Areas: Sand and Gravel Solid
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	Single + (?)	Within Forest of Mercia. Not in CRI or National Forest. Potential for improvements to FOM.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to the site. The following Historic Environment Area is adjacent to the site: Overton Farm, Hammerwich and Copy Nook Farm, Hammerwich
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	Single -	No listed Buildings on or near to site. Boundary is adjacent to Copy Nook Farm and Overton Farm, Hammerwich both of which retain a rural, isolated setting.
	2 Will it improve and broaden access to, and understanding of, local heritage , local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in a Conservation Area or near to one.
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm, sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	Single -	Development of this site will partially close the gap between Burntwood and Hammerwich. It is a single negative as there will still be some gap and provision of POS to the NE of the site could increase this.
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	Double +	Boundary with settlement - Burntwood
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	Edge of settlement location means that services located in Burntwood can be easily accessed.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Single -	
	2 Will it reduce the overall impact on traffic sensitive areas?	+?	no insurmountable traffic constraints in Burntwood, no traffic evidence
	3 Will it help develop walking, cycling rail and bus networks to enable residents access to employment, services and facilities?	+?	potential to provide access to a bus service
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	SPZ 3

Sustainability Objective	Site Specific Question	Site Reference	Comment
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Majority Grade 3, Eastern boundary Grade 2, Western tip urban. Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Double -	South West boundary of site lies within Flood Zone 2 and 3. Northern Section of site lies within Flood Zone 2 and 3. Middle section of the site from the Eastern Boundary of site lies within Flood Zone 2 and 3. Remainder of the site no Flood Zone. Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx. yield 313
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx. yield 313
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+?)	Healthcare improvements to support the need within Burntwood and the surrounding area forms part of Transformation Funding Bid and LEP.
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.

16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	654 Burntwood Single -	There is potential for the site to support protected and priority species (BATS house).
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	The site comprises of improved grassland (garden) hard standing and built form
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or watercourses present
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Single -	The site falls within the following Landscape Character Areas: Cannock Chase and Cankwood, Sandstone Estate Lands. Landscape restoration
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	Single + (?)	Within Forest of Mercia. Not in CRI or National Forest. Potential for improvements to FOM.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to the site. The following Historic Environment Area is adjacent to the site: Copsy Nook Farm, Hammerwich
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed Buildings on or near to site. Site is near the undesignated site of Copsy Nook Farm, Hammerwich.
	2 Will it improve and broaden access to, and understanding of, local heritage, historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in a Conservation Area or near to one.
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm, sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	Double -	Outside Burntwood, outside Hammerwich located between the two settlements
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+ (?)	There is a clear gap between the settlement of Burntwood and the site which means that services located in Burntwood may be more difficult to access.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	Single + (?)	Element of built form on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Double -	
	2 Will it reduce the overall impact on traffic sensitive areas?	++	Less than 25
	3 Will it help develop walking, cycling rail and bus networks to enable residents access to employment, services and facilities?	Double - ?	viability and third party land may prevent improvements
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	?	Partial Brownfield
	3 Will it reduce the proportion of waste sent to landfill?	?	Partial Brownfield
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	SP2 3

Sustainability Objective	Site Specific Question	Site Reference	Comment
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Grade 3 majority Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Part of the site falls within Flood Zone 2 and the Southern tip of the site falls in Flood Zone 3. Combination of Greenfield and Brownfield - majority Greenfield.
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx. yield 12
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx. yield 12
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+?)	Healthcare improvements to support the need within Burntwood and the surrounding area forms part of Transformation Funding Bid and LEP.
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	(+?)	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	++	The site is located on the edge of the settlement of Burntwood and in close proximity to services within the settlement
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Located outside a key rural settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our communities?	++	Four individual Neighbourhood Shopping Centres area located within the settlement of Burntwood.
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	655 Burntwood Single -	There is potential for the site to support protected and priority species (BATS house).
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	The site comprises of improved grassland (garden) hard standing and built form
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or watercourses present
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Single -	The site falls within the following Landscape Character Areas: Cannock Chase and Cankwood, Sandstone Estate Lands. Landscape restoration
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	Single + (?)	Within Forest of Mercia. Not in CRI or National Forest. Potential for improvements to FOM.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to the site. The following Historic Environment Area is adjacent to the site: Copsy Nook Farm, Hammerwich
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed Buildings on or near to site. Site is near the undesignated site of Copsy Nook Farm, Hammerwich.
	2 Will it improve and broaden access to, and understanding of, local heritage , local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in a Conservation Area or near to one.
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm, sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	Double -	Outside Burntwood, outside Hammerwich located between the two settlements
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+ (?)	There is a clear gap between the settlement of Burntwood and the site which means that services located in Burntwood may be more difficult to access.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	Single + (?)	Element of built form on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Double -	
	2 Will it reduce the overall impact on traffic sensitive areas?	++	Less than 25
	3 Will it help develop walking, cycling rail and bus networks to enable residents access to employment, services and facilities?	Double - ?	viability and third party land may prevent improvements
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	SPZ 3

	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+ (?)	There is a clear gap between the settlement of Burntwood and the site which means that services located in Burntwood may be more difficult to access.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	Single + (?)	Element of built form on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	+	
	2 Will it reduce the overall impact on traffic sensitive areas?	+?	no insurmountable traffic constraints in Burntwood, no traffic evidence
	3 Will it help develop walking, cycling rail and bus networks to enable residents access to employment, services and facilities?	N	no rail but can't be improved
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	?	Partial Brownfield
	3 Will it reduce the proportion of waste sent to landfill?	?	Partial Brownfield
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	SPZ 3

Sustainability Objective	Site Specific Question	Site Reference	Comment
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Majority Grade 2, Northern tip urban. Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Double -	Flood Zone 2 and 3 Combination of Greenfield and Brownfield - majority Greenfield.
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx. yield 12
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx. yield 12
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+?)	Healthcare improvements to support the need within Burntwood and the surrounding area forms part of Transformation Funding Bid and LEP.
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	(+?)	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	++	The site is located on the edge of the settlement of Burntwood and in close proximity to services within the settlement
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Located outside a key rural settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our communities?	++	Four individual Neighbourhood Shopping Centres area located within the settlement of Burntwood.
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	1005 Burntwood	
		N	There is no potential for the site to support priority and protected species
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	Hardstanding
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or watercourses present
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	N	No Landscape Character
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	Single + (?)	Within Forest of Mercia. Not in CRI or National Forest. Potential for improvements to FOM.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site and no non-designated areas of archaeological importance on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on the site or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage, local heritage, historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in a Conservation Area or near to one.
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm, sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	Double +	Within Burntwood
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	Double +	Within Burntwood
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double +	Brownfield

	3 Does the site allow for the re-use of existing buildings?	N	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N (?)	Could be seen as DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	+	
	2 Will it reduce the overall impact on traffic sensitive areas?	++	Less than 25
	3 Will it help develop walking, cycling rail and bus networks to enable residents access to employment, services and facilities?	Single - ?	potentially insufficient space to accommodate cycle facilities
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	SPZ 3

Sustainability Objective	Site Specific Question	Site Reference	Comment
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	+	Urban Brownfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	N	Flood Zone 1. Brownfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx. yield 17
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx. yield 17
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+?)	Healthcare improvements to support the need within Burntwood and the surrounding area forms part of Transformation Funding Bid and LEP.
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	+	Site is located within 480m of one area of accessible open space.
	3 Will it provide new accessible green space?	(+?)	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	++	The site is located within Burntwood.
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Located outside a key rural settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our communities?	++	Four individual Neighbourhood Shopping Centres area located within the settlement of Burntwood.
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	4 Burntwood	
		N	No protected or priority species present. 2016 survey data
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Single -	The site comprises of hardstanding, ruderal, scrub and semi-improved grassland.
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	Isolated priority habitat and no watercourses present
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	N	No Landscape Character
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	Single + (?)	Within Forest of Mercia. Not in CRI or National Forest. Potential for improvements to FOM.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site and no non-designated areas of archaeological importance on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on the site or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage, local heritage, historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in a Conservation Area or near to one.
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm, sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	Double +	Within Burntwood
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	Double +	Within Burntwood
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double +	Brownfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	+	
	2 Will it reduce the overall impact on traffic sensitive areas?	+?	no insurmountable traffic constraints in Burntwood, no traffic evidence
	3 Will it help develop walking, cycling rail and bus networks to enable residents access to employment, services and facilities?	N	no rail but can't be improved
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	SPZ 3

	3 Will it help develop walking, cycling rail and bus networks to enable residents access to employment, services and facilities?	N	No rail but can't be improved
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	SPZ 3

Sustainability Objective	Site Specific Question	Site Reference	Comment
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Single -	Urban Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Flood Zone 1. Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx. yield 14
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx. yield 14
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+?)	Healthcare improvements to support the need within Burntwood and the surrounding area forms part of Transformation Funding Bid and LEP.
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	Double -	This site is currently being used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	Double -	This site is currently being used for employment use.
	3 Will it encourage growth of existing businesses?	Double -	This site is currently being used for employment use.
	4 Will it encourage small businesses to grow?	Double -	This site is currently being used for employment use.
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	++	The site is located within Burntwood.
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Located outside a key rural settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our communities?	++	Four individual Neighbourhood Shopping Centres area located within the settlement of Burntwood.
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	429 Burntwood Single -	There is potential for the site to support protected and priority species (BATS house).
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	The site comprises of handstanding and built form.
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or watercourses present
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	N	No Landscape Character
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	Single + (?)	Within Forest of Mercia. Not in CRI or National Forest. Potential for improvements to FOM.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site and no non-designated areas of archaeological importance on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on the site or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage, local heritage, historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in a Conservation Area or near to one.
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm, sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	Double +	Within Burntwood
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	Double +	Within Burntwood
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double +	Brownfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	Single + (?)	Buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	+	
	2 Will it reduce the overall impact on traffic sensitive areas?	++	Less than 25
	3 Will it help develop walking, cycling rail and bus networks to enable residents access to employment, services and facilities?	N	no rail but can't be improved
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	+	Brownfield
	3 Will it reduce the proportion of waste sent to landfill?	+	Brownfield
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	SPZ 3

Sustainability Objective	Site Specific Question	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Burntwood Survey Data 2015-16 identified European Protected Species Present (Bats)
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	The site comprises of built form and hardstanding.
	3 Will it protect statutory designated sites?	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	No priority habitat or watercourses present
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	The site is within the following Landscape Character area: Cannock Chase and Cankwood, Coalfield Farmlands. Landscape restoration
	2 Will it protect sites of geological importance?	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	See assumption
	4 Will it lead to the sterilisation of mineral resources?	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	Within Forest of Mercia. Not in CRI or National Forest. Potential for improvements to FOM.
	6 Will it result in the loss of historic landscape features?	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	No Scheduled Ancient Monuments on or near to site and no non-designated areas of archaeological importance on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	No listed buildings on the site or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage, historic sites, areas and buildings?	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	Not in a Conservation Area or near to one.
	4 Will it offer opportunities to bring heritage assets back into active use?	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm, sensitive to the locality? See assumption	
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	Boundary with settlement - Burntwood
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	Edge of settlement location means that services located in Burntwood can be easily accessed.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Brownfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	See assumption
	3 Does the site allow for the re-use of existing buildings?	Buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	
	2 Will it reduce the overall impact on traffic sensitive areas?	Less than 25
	3 Will it help develop walking, cycling rail and bus networks to enable residents access to employment, services and facilities to provide sustainable transport infrastructure	
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	See assumption
	2 Will it encourage prudent use of energy?	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	See assumption
	2 Will it increase waste recovery and recycling?	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	SPZ 3

Sustainability Objective	Site Specific Question	Comment
	2 Does the site fall within the River Mease SAC?	Not in SAC

	3 Will it encourage growth of existing businesses?	Single -	The site has previous been used as employment currently vacant
	4 Will it encourage small businesses to grow?	Single -	The site has previous been used as employment currently vacant
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	++	The site is located within Burntwood.
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Located outside a key rural settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our communities?	++	Four individual Neighbourhood Shopping Centres area located within the settlement of Burntwood.
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	ELA 47	Burntwood
		N	It is unlikely that the site supports protected or priority species. 2016 survey data
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Single -	The site comprises of semi-improved grassland, hardstanding, improved grassland and ruderal.
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	Isolated priority habitat and no watercourses present
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Single -	The site is within the following Landscape Character area: Cannock Chase and Cankwood Coalfield Farmlands Landscape Restoration
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	Single + (?)	Within Forest of Mercia. Not in CRI or National Forest. Potential for improvements to FOM.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site and no non-designated areas of archaeological importance on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on the site or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage, local heritage, historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in a Conservation Area or near to one.
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm, sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	Double +	Within Burntwood
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	Double +	Within Burntwood
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double +	Brownfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	Single + (?)	Buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	Double +	Industrial units demolished 2014 currently unused
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	+	
	2 Will it reduce the overall impact on traffic sensitive areas?	+	Planning Permission
	3 Will it help develop walking, cycling rail and bus networks to enable residents access to employment, services and facilities?	+ ?	Will benefit from bus improvements on site 497 which is currently under construction
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	+	Brownfield
	3 Will it reduce the proportion of waste sent to landfill?	+	Brownfield
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	N	No SPZ

Sustainability Objective	Site Specific Question	Site Reference	Comment
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	+	Urban Brownfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	N	Flood Zone 1. Greenfield and Brownfield, majority Brownfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx. yield 150
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx. yield 150
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+?)	Healthcare improvements to support the need within Burntwood and the surrounding area forms part of Transformation Funding Bid and LEP.
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	++	The site is located within Burntwood.
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Located outside a key rural settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our communities?	++	Four individual Neighbourhood Shopping Centres area located within the settlement of Burntwood.
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	926 Burntwood	
		N	It is unlikely for the site to support priority and protected species
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Single -	The site comprises of hardstanding, built form. The site lies directly adjacent to Gentleshaw Common SSSI likely to result in indirect impact.
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or watercourses present
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	No landscape character, however the site is in close proximity to Cannock Chase AONB hence double - score
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	Single + (?)	Within Forest of Mercia. Not in CRI or National Forest. Potential for improvements to FOM.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	Single -	No Scheduled Ancient Monuments on or near to site. Site includes part of Historic Environment Area of Coney Mill Pond
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on the site or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage, local heritage, historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in a Conservation Area or near to one.
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm, sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	Double +	Boundary with settlement - Burntwood
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	Edge of settlement location means that services located in Burntwood can be easily accessed.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double +	Brownfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	Single + (?)	Buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	+	
	2 Will it reduce the overall impact on traffic sensitive areas?	++	Less than 25 dwellings
	3 Will it help develop walking, cycling rail and bus networks to enable residents access to employment, services and facilities?	N	no rail but can't be improved
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	+	Brownfield
	3 Will it reduce the proportion of waste sent to landfill?	+	Brownfield
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	SPZ 3

Sustainability Appraisal Scoring Matrix: Settlement East of Rugeley
Main Modifications 2018

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Single -	There is potential for the site to support protected and priority species.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	The site comprises of improved grassland
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or watercourses present
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	Cannock Chase and Cankwood Settled Farmland. Landscape enhancement
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia, CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	N	A small section of the Eastern boundary of the site is adjacent to the following Historic Environment Area: Hawkesyard Priority Park / Armitage Park / Spode House.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site and no non-designated area of archaeological interest on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No Listed Buildings on or near to site and no non-designated buildings on site
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	In close proximity but not adjacent to the Trent and Mersey Canal Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	Double -	The site is located a significant distance away from the Key Rural Settlement (Armitage with Handsacre) and the neighbouring town of Rugeley
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	Double -	The site is located in close proximity to key services these are however located in the settlement of Brereton which falls within Cannock Chase District Council.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	++	
	2 Will it reduce the overall impact on traffic sensitive areas?	+ ?	no insurmountable traffic constraints in Rugeley, no traffic evidence
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	N	access by all four sustainable modes already
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
			1028
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	N	Not in a SPZ
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA (adjacent)
	4 Will it result in the loss of quality agricultural land?	Single -	Urban Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Flood Zone 1 Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx Yield 50
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx Yield 50
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	Single -	Is within 480m of one or more areas of accessible open space. Access is restricted by the A513 and canal.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Outside LC and B
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Significant distance from Armitage with Handsacre Key Rural Settlement.
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	No Neighbourhood Shopping Centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Single -	There is potential for the site to support protected and priority species.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Double -	The site comprises of semi-improved grassland and lies adjacent to the Trent and Mersey Canal
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	Double -	The site comprises of priority habitat and the Trent and Mersey Canal runs along the boundary
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	Cannock Chase and Cankwood Settled Farmland. Landscape enhancement
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia, CRI or National Forest.	N	Not within Forest of Mercia, CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	Single -	The south boundary of the site is adjacent to the following Historic Environment Area: Hawkesyards Priority Park/Armitage Park /Spode House.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site and no non-designated area of archaeological interest on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	Single -	In close proximity to Grade 2 Listed Building Spode House and attached Coach House. In close proximity to Grade 2 Listed Buildings Former Summerhouse immediately west of Spode House. In close proximity to Grade 2 Listed Roman Catholic Church of St Thomas Hawkesyard.
	2 Will it improve and broaden access to, and understanding of, local heritage, historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	Single -	Site adjacent to on the North and East boundary Trent and Mersey Canal Conservation Area.
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	Double -	The site is located a significant distance away from the Key Rural Settlement (Armitage with Handsacre) and the neighbouring town of Rugeley
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	Double -	The site is located in close proximity to key services these are however located in the settlement of Brereton which falls within Cannock Chase District Council.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	+	
	2 Will it reduce the overall impact on traffic sensitive areas?	+?	no insurmountable traffic constraints in Rugeley, no traffic evidence
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	+?	potential to provide cycle infrastructure
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption

	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Outside LC and B
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Significant distance from Armitage with Handsacre Key Rural Settlement.
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	No Neighbourhood Shopping Centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
832			
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Single -	There is potential for the site to support protected and priority species.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Double -	The site comprises of semi-improved grassland and lies adjacent to the Trent and Mersey Canal
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	Double -	The site comprises of priority habitat and the Trent and Mersey Canal runs along the boundary
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	Cannock Chase and Cankwood Settled Farmland. Landscape enhancement
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	Double -	Within Mineral Consultations Areas: Sand and Gravel Solid.
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia, CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	Double -	Located within Historic Environment Area Hawksyard Priority Park / Armitage Park / Spode House.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site and no non-designated area of archaeological interest on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	Double -	In close proximity to Grade 2 Listed Building Spode House and attached Coach House. In close proximity to Grade 2 Listed Buildings Former Summerhouse immediately west of Spode House. In close proximity to Grade 2 Listed Roman Catholic Church of St Thomas Hawksyard.
	2 Will it improve and broaden access to, and understanding of, local heritage, historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	Double -	Site falls within the Trent and Mersey Canal Conservation Area.
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	Double -	The site is located a distance away from the Key Rural Settlement (Armitage with Handsacre) and the neighbouring town of Rugeley
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	Double -	These services could be accessed from either Armitage with Handsacre and Brereton (located within Cannock Chase Council), the site is not located close to or adjacent to either of these settlements.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	+	
	2 Will it reduce the overall impact on traffic sensitive areas?	+?	no insurmountable traffic constraints in Rugeley, no traffic evidence
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	+?	potential to provide cycle infrastructure
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
			832
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	N	Not in a SPZ
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Single -	Part Urban Part Grade 4 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Flood Zone 1 Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx yield 40
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx yield 40
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	Single -	Is within 480m of one or more areas of accessible open space. Access is restricted by theAS13 and canal.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Outside LC and B
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Significant distance from Armitage with Handsacre Key Rural Settlement.
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	No Neighbourhood Shopping Centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment

1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Double -	Protected and Priority Species are present on site
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Double -	The site comprises of built form, hardstanding standing water, running water, semi-improved grassland improved grassland, bare, ground ruderal, woodland. Site assessment undertaken 2016.
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	Double -	The site contains priority habitat and watercourse run through the site, the River Trent runs along it's north boundary and the Trent and Mersey Canal along the South Boundary
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	N	No Landscape Character recorded.
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia, CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	Single -	There is a small section of the North East boundary of the site that falls within the following Historic Environment Area: Water meadow North of Brereton.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	Single -	No Scheduled Ancient Monuments on or near to site. The following Historic Environment Areas are located within the site: Farmstead Near Armitage Farmstead Building. Langley Common Cottages Rugeley House. Booththurst Rugeley Farmstead.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No Listed Buildings on or near to site and no non-designated buildings on site
	2 Will it improve and broaden access to, and understanding of, local heritage, historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	Double -	The site is located a significant distance away from the Key Rural Settlement (Armitage with Handsacre) and the neighbouring town of Rugeley
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	Double -	The site is located close to Brereton (located within Cannock Chase District) where these services could be accessed. The site is also in close proximity to the Town of Rugeley where a range of services are located.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double +	Brownfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	Single (+)?	Buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	Double +	The site is currently being used as a power station and is therefore in current use however following programmed decommissioning the site will be land that could become derelict, degraded and underused if an alternative use is not allocated.
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Single -	
	2 Will it reduce the overall impact on traffic sensitive areas?	?	too large to determine without traffic evidence
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	++ ?	potential to cycle infrastructure and bus service
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption

Sustainability Appraisal Scoring Matrix: Employment
Main Modifications 2018

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Double -	Protected and priority species are likely to be present (News)
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	The site comprises of an arable field with mature trees and standing water (pond).
	3 Will it protect statutory designated sites?	N	Within 15km of CCSAC unlikely to impact due to proposed use (Employment).
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	The majority of the site is not priority habitat and there are no water courses present.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Single -	Cannock Chase and Cankwood, Farmland. Objective: Landscape restoration
	2 Will it protect sites of geological importance?	N	No RIGS site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site and no non-designated areas of archaeological importance on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	see assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	See assumption
	4 Is the site within a main settlement or a key rural settlement?	N	See assumption
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	N	See assumption
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield

	2 Will it increase the range and affordability of housing for all social groups?	N	See assumption
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	N	See assumption
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	N	See assumption
	3 Will it provide new accessible green space?	(+)?	See assumption
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	Double + (?)	Allocation type results in potential
	2 Will it encourage new employment that is consistent with local needs?	Double + (?)	Allocation type results in potential
	3 Will it encourage growth of existing businesses?	Double + (?)	Allocation type results in potential
	4 Will it encourage small businesses to grow?	Double + (?)	Allocation type results in potential
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Not in either centre
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	Double +	It is likely that employment use will generate visits to village centre and increase use of Fradley's existing services
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	not within the vicinity of a neighbourhood centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Double -	Protected and priority species are likely to be present (News).
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	The site comprises of semi-improved grassland, scrub, mature trees and arable fields.
	3 Will it protect statutory designated sites?	N	Within 15km of CCSAC unlikely to impact due to proposed use (Employment).
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	The site is partial priority habitat which is isolated.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Single -	Cannock Chase and Cankwood, Farmland. Objective: Landscape restoration
	2 Will it protect sites of geological importance?	N	No RIGS site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	Single -	No Scheduled Ancient Monuments on or near to site. No non-designated areas of archaeological interest on site. Site is adjacent to Ryknild Street, Roman Road
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	see assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	See assumption
	4 Is the site within a main settlement or a key rural settlement?	N	See assumption
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	N	See assumption
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	No	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Single -	
	2 Will it reduce the overall impact on traffic sensitive areas?	?	Unable to determine without comments from HE - proximity to Hilliards Cross
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	++ ?	potential to provide walk, cycle and bus improvements
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	N	Not in a SPZ
	2 Does the site fall within the River Mease SAC?	N	Not inside SAC area
	3 Is the site within or directly connected by road to an AQMA?	Double -	Part of site falls within AQMA. No current access to measure this against but Site would be accessed via A38 which is AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Grade 3 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Flood zone 1 Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	N	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	N	See assumption
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	N	See assumption
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	N	See assumption
	3 Will it provide new accessible green space?	(+)?	See assumption
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	Double + (?)	Allocation type results in potential
	2 Will it encourage new employment that is consistent with local needs?	Double + (?)	Allocation type results in potential
	3 Will it encourage growth of existing businesses?	Double + (?)	Allocation type results in potential
	4 Will it encourage small businesses to grow?	Double + (?)	Allocation type results in potential
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Not in either centre
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	Double +	It is likely that employment use will generate visits to village centre and increase use of Fradley's existing services
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	not within the vicinity of a neighbourhood centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Single -	There is the potential for the site to support protected and priority species
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	The site comprises of pastoral land, hardstanding, ruderal, semi-improved grassland and scrub.
	3 Will it protect statutory designated sites?	N	Within 15km of CCSAC unlikely to impact due to proposed use (Employment).
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	The site is partial priority habitat which is isolated.

	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Single -	There is potential for the site to support protected and priority species.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Single -	The site comprises of hardstanding built form scrub and acid grass land. The site is adjacent to the Chasewater heaths and South Staffordshire Coalfields SSSI there is potential for indirect impact.
	3 Will it protect statutory designated sites?	Single -	Within 15km of CCSAC unlikely to impact due to proposed use (Employment). The site is adjacent to the Chasewater heaths and South Staffordshire Coalfields SSSI, there is potential for indirect impact.
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	The majority of the site is not priority habitat and there is no watercourse present.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	N	no record
	2 Will it protect sites of geological importance?	N	No RIGS site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	Single + (?)	Inside FOM area. Not in National Forest CRI.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site and no non-designated areas of archaeological importance on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage, historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	See assumption
	4 Is the site within a main settlement or a key rural settlement?	N	See assumption
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	N	See assumption
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	++	Brownfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	++	land is under used and potentially degraded by former uses but no derelict buildings
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	+	
	2 Will it reduce the overall impact on traffic sensitive areas?	++	Broadly similar to less than 25 houses
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	N	no rail but can't be improved
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	Single +	Brownfield
	3 Will it reduce the proportion of waste sent to landfill?	Single +	Brownfield
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	N	Not in a SPZ
	2 Does the site fall within the River Mease SAC?	N	Not inside SAC area
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Single +	non- agricultural
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	N	Flood zone 1 Brownfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	N	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	N	See assumption
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	N	See assumption
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	N	See assumption
	3 Will it provide new accessible green space?	(+)?	See assumption
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	Double + (?)	Allocation type results in potential
	2 Will it encourage new employment that is consistent with local needs?	Double + (?)	Allocation type results in potential
	3 Will it encourage growth of existing businesses?	Double + (?)	Allocation type results in potential
	4 Will it encourage small businesses to grow?	Double + (?)	Allocation type results in potential
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	Double +	potential job has potential to increase use of existing facilities in Burntwood Town centre
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not relevant to needs arising within Key Rural Settlements
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	not within the vicinity of a neighbourhood centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	N	The site is unlikely to support priority and protected species
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	The site is majority hardstanding with a small area of grass land.
	3 Will it protect statutory designated sites?	N	Within 15km of CCSAC unlikely to impact due to proposed use (Employment).
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or water course.

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	ELAA 9	former Power Station A
		Single -	There is potential protected and priority species.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	This site comprises of bare ground, hardstanding and scrub.
	3 Will it protect statutory designated sites?	N	Within 15km of CCSAC unlikely to impact due to proposed use (Employment).
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or water course.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	N	no record
	2 Will it protect sites of geological importance?	N	No RIGS site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	Single -	No Scheduled Ancient Monuments on or near to site. Site includes part of Historic Environment Area. Ryknield Street Roman Road and is adjacent to Booththurst, Rugeley
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage, historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	See assumption
	4 Is the site within a main settlement or a key rural settlement?	N	See assumption
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	N	See assumption
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	++	Brownfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	++	land is under used and potentially degraded by former uses but no derelict buildings
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Single -	
	2 Will it reduce the overall impact on traffic sensitive areas?	+	Planning consent
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	N	unlikely to deliver a bus service in isolation however would benefit from Rugeley Powerstation SDA
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	Single +	Brownfield
	3 Will it reduce the proportion of waste sent to landfill?	Single +	Brownfield
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	N	Not in a SPZ
	2 Does the site fall within the River Mease SAC?	N	Not inside SAC area
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Single +	Urban
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	N	Flood zone 1 Brownfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	N	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	N	See assumption
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	N	See assumption
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	N	See assumption
	3 Will it provide new accessible green space?	(+)?	See assumption
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	Double + (?)	Allocation type results in potential
	2 Will it encourage new employment that is consistent with local needs?	Double + (?)	Allocation type results in potential
	3 Will it encourage growth of existing businesses?	Double + (?)	Allocation type results in potential
	4 Will it encourage small businesses to grow?	Double + (?)	Allocation type results in potential
15 To enhance the vitality and viability of existing city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	not relevant
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not relevant to needs arising within Key Rural Settlements
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	not within the vicinity of a neighbourhood centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Single -	There is potential protected and priority species.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Double -	The site comprises of semi-improved grassland and hardstanding
	3 Will it protect statutory designated sites?	N	Within 15km of CCSAC unlikely to impact due to proposed use (Employment).
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	The majority of the site is priority habitat which is isolated.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Single -	Trent Valley Washlands LANDSCAPE_settled heathlands POLICY_OBJ innovative landscape regeneration
	2 Will it protect sites of geological importance?	N	No RIGS site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	Single -	No Scheduled Ancient Monuments on or near to site. Site includes the following Historic Environment Area: RAF Lichfield / Fradley Airfield
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality? 	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	Single +	Brownfield
	3 Will it reduce the proportion of waste sent to landfill?	Single +	Brownfield
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	N	Not in a SPZ
	2 Does the site fall within the River Mease SAC?	N	Not inside SAC area
	3 Is the site within or directly connected by road to an AQMA?	Double -	main Access road connects directly to A38 AQMA
	4 Will it result in the loss of quality agricultural land?	Single +	Grade 3
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	N	Flood zone 1 Brownfield
	2 Will there be an opportunity for flood risk reduction?		
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?		
	2 Will it increase the range and affordability of housing for all social groups?		
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?		
	4 Will it meet the needs of the travelling community and show people?		
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	N	See assumption
	3 Will it provide new accessible green space?	(+)?	See assumption
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	Double + (?)	Allocation type results in potential
	2 Will it encourage new employment that is consistent with local needs?	Double + (?)	Allocation type results in potential
	3 Will it encourage growth of existing businesses?	Double + (?)	Allocation type results in potential
	4 Will it encourage small businesses to grow?	Double + (?)	Allocation type results in potential
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Not in either centre
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	++	Potential that employment use will generate visits to village centre and increase use of Fradley's existing services
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	not within the vicinity of a neighbourhood centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Single -	There is potential protected and priority species.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Double -	The site comprises of semi-improved grassland.
	3 Will it protect statutory designated sites?	N	Within 15km of CCSAC unlikely to impact due to proposed use (Employment).
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	The majority of the site is priority habitat which is isolated.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Single -	Trent Valley Washlands LANDSCAPE_Settled heathlands POLICY_OBJ innovative landscape regeneration
	2 Will it protect sites of geological importance?	N	No RIGS site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site and no non-designated areas of archaeological importance on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	see assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	See assumption
	4 Is the site within a main settlement or a key rural settlement?	N	See assumption
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	N	See assumption
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	No	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	+	
	2 Will it reduce the overall impact on traffic sensitive areas?	?	Unable to determine without comments from HE - proximity to Hilliards Cross
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	N	no rail but can't be improved
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption

	4 Will it encourage small businesses to grow?	Double + (?)	Allocation type results in potential
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Not in either centre
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	++	Potential that employment use will generate visits to village centre and increase use of Fradley's existing services
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	not within the vicinity of a neighbourhood centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	N	The site is unlikely to support priority and protected species
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Double -	The site comprises of semi-improved grassland.
	3 Will it protect statutory designated sites?	N	Within 15km of CCSAC unlikely to impact due to proposed use (Employment).
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	The majority of the site is priority habitat which is isolated.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Single -	Trent Valley Washlands LANDSCAPE_Settled heathlands POLICY_OBJ innovative landscape regeneration
	2 Will it protect sites of geological importance?	N	No RIGS site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site and no non-designated areas of archaeological importance on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	see assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	See assumption
	4 Is the site within a main settlement or a key rural settlement?	N	See assumption
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	N	See assumption
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	No	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	+	
	2 Will it reduce the overall impact on traffic sensitive areas?	++	Broadly similar to less than 25 houses
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	N	no rail but can't be improved
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	N	Not in a SPZ
	2 Does the site fall within the River Mease SAC?	N	Not inside SAC area
	3 Is the site within or directly connected by road to an AQMA?	Double -	Main Access road connects directly to A38 AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Grade 3 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Flood zone 1 Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	N	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	N	See assumption
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	N	See assumption
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	N	See assumption
	3 Will it provide new accessible green space?	(+)?	See assumption
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	Double + (?)	Allocation type results in potential
	2 Will it encourage new employment that is consistent with local needs?	Double + (?)	Allocation type results in potential
	3 Will it encourage growth of existing businesses?	Double + (?)	Allocation type results in potential
	4 Will it encourage small businesses to grow?	Double + (?)	Allocation type results in potential
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Not in either centre

2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Single -	Trent Valley Washlands LANDSCAPE_Settled heathlands POLICY_OBJ innovative landscape regeneration
	2 Will it protect sites of geological importance?	N	No RIGS site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site. No non-designated areas of archaeological interest on site. Site is adjacent to Westhill Farm / Hill Farm and Pillbox, Fradley.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	see assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	See assumption
	4 Is the site within a main settlement or a key rural settlement?	N	See assumption
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	N	See assumption
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	No	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Single -	
	2 Will it reduce the overall impact on traffic sensitive areas?	?	Unable to determine without comments from HE - proximity to Hilliards Cross
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	+ ?	potential to provide access to a bus service
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	N	Not in a SPZ
	2 Does the site fall within the River Mease SAC?	N	Not inside SAC area
	3 Is the site within or directly connected by road to an AQMA?	Double -	Access road connects directly to A38 AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Grade 3 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Flood zone 1 Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	N	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	N	See assumption
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	N	See assumption
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	N	See assumption
	3 Will it provide new accessible green space?	(+)?	See assumption
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	Double + (?)	Allocation type results in potential
	2 Will it encourage new employment that is consistent with local needs?	Double + (?)	Allocation type results in potential
	3 Will it encourage growth of existing businesses?	Double + (?)	Allocation type results in potential
	4 Will it encourage small businesses to grow?	Double + (?)	Allocation type results in potential
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Not in either centre
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	++	Potential that employment use will generate visits to village centre and increase use of Fradley's existing services
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	not within the vicinity of a neighbourhood centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	N	The site is unlikely to support priority and protected species
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	The site comprises of built form and hardstanding
	3 Will it protect statutory designated sites?	N	Within 15km of CCSAC unlikely to impact due to proposed use (Employment).
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or water course.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	N	not indicated
	2 Will it protect sites of geological importance?	N	No RIGS site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site and no non-designated areas of archaeological importance on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	see assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	See assumption
	4 Is the site within a main settlement or a key rural settlement?	N	See assumption
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	N	See assumption
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	++	Brownfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	Single + (?)	yes however they are in poor state of repair and are likely to require demolition
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	++	Derelict buildings on site. Land is underused and is likely to be degraded due to former factory.
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	++	
	2 Will it reduce the overall impact on traffic sensitive areas?	+ ?	
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	N	access by all four sustainable modes already
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	Single +	Brownfield
	3 Will it reduce the proportion of waste sent to landfill?	Single +	Brownfield
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	N	Not in a SPZ
	2 Does the site fall within the River Mease SAC?	N	Not inside SAC area
	3 Is the site within or directly connected by road to an AQMA?	Double -	Main access road A5127 connects directly to A38 AQMA
	4 Will it result in the loss of quality agricultural land?	Single +	Urban
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	N	Flood zone 1 Brownfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	N	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	N	See assumption
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	N	See assumption
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	N	See assumption
	3 Will it provide new accessible green space?	(+)?	See assumption
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	Double + (?)	Allocation type results in potential
	2 Will it encourage new employment that is consistent with local needs?	Double + (?)	Allocation type results in potential

5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	++	Part Brownfield, part Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	Single + (?)	existing buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	No	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Single -	
	2 Will it reduce the overall impact on traffic sensitive areas?	++	Planning consent
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	?	Don't know if planning contributions have been secured
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	Single +	Brownfield
	3 Will it reduce the proportion of waste sent to landfill?	Single +	Brownfield
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	in SPZ 3
	2 Does the site fall within the River Mease SAC?	N	Not inside SAC area
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Single +	Grade 3
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	N	Flood zone 1 Brownfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	N	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	N	See assumption
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	N	See assumption
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	N	See assumption
	3 Will it provide new accessible green space?	(+)?	See assumption
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	Double + (?)	Allocation type results in potential
	2 Will it encourage new employment that is consistent with local needs?	Double + (?)	Allocation type results in potential
	3 Will it encourage growth of existing businesses?	Double + (?)	Allocation type results in potential
	4 Will it encourage small businesses to grow?	Double + (?)	Allocation type results in potential
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Not in either centre
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Site is relatively isolated. Not relevant to needs arising within Key Rural Settlements
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	not within the vicinity of a neighbourhood centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	ELAA 37 N	176 Birmingham Rd Blake St The site is unlikely to support priority and protected species
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	The site comprises of built form, garden and hardstanding
	3 Will it protect statutory designated sites?	N	Not in SAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or water course.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	Cannock Chase and Cankwood LANDSCAPE_Sandstone estate lands POLICY_OBJ Landscape enhancement
	2 Will it protect sites of geological importance?	N	No RIGS site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not in National Forest CRI or FOM
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site and no non-designated areas of archaeological importance on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption

	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	N	See assumption
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	N	See assumption
	3 Will it provide new accessible green space?	(+)?	See assumption
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	Double + (?)	Allocation type results in potential
	2 Will it encourage new employment that is consistent with local needs?	Double + (?)	Allocation type results in potential
	3 Will it encourage growth of existing businesses?	Double + (?)	Allocation type results in potential
	4 Will it encourage small businesses to grow?	Double + (?)	Allocation type results in potential
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	Double +	potential job creation as potential to increase use of existing facilities in Burntwood Town centre
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not relevant to needs arising within Key Rural Settlements
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	not within the vicinity of a neighbourhood centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	ELAA 58 Single -	Parkside Court There is potential protected and priority species. (Site assessment 2016)
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Double -	The site comprises of semi-improved grassland
	3 Will it protect statutory designated sites?	N	Within 15km of CCSAC unlikely to impact due to proposed use (Employment).
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	The site is priority habitat which is isolated.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	N	no record
	2 Will it protect sites of geological importance?	N	No RIGS site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	not in CRI, FOM or National Forest
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site. No non-designated areas of archaeological interest on site. Site is adjacent to the following Historic Environment Area: site of Phoenix Foundry, Beacon Street, Lichfield
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	Single -	Site is adjacent to Lichfield City Conservation Area.
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	Development is unlikely to impact on important views.
	4 Is the site within a main settlement or a key rural settlement?	N	See assumption
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	N	See assumption
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	++	Brownfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	Single + (?)	buildings have been demolished
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	++	Former industrial units have been demolished. land is hardstanding and underused. Potential degradation from previous uses
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	+	
	2 Will it reduce the overall impact on traffic sensitive areas?	+	Planning consent
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	?	Don't know if planning contributions have been secured
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	Single +	Brownfield
	3 Will it reduce the proportion of waste sent to landfill?	Single +	Brownfield
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	N	Not in a SPZ
	2 Does the site fall within the River Mease SAC?	N	Not inside SAC area
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Single +	Urban
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	N	Flood zone 1 Brownfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	N	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	N	See assumption
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	N	See assumption
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption

	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	The site comprises of semi-improved grassland, improved grassland, ruderal, and hardstanding.
	3 Will it protect statutory designated sites?	N	Within 15km of CCSAC unlikely to impact due to proposed use (Employment).
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	The minority of the site is priority habitat which is isolated.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	N	no record
	2 Will it protect sites of geological importance?	N	No RIGS site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site and no non-designated areas of archaeological importance on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	See assumption
	4 Is the site within a main settlement or a key rural settlement?	N	See assumption
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	N	See assumption
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	++	Brownfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	buildings have been demolished
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	++	Former industrial units have been demolished. land is hardstanding and under used. Potential degradation from previous uses
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	+	
	2 Will it reduce the overall impact on traffic sensitive areas?	+ ?	
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	N	no rail but can't be improved
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	Single +	Brownfield
	3 Will it reduce the proportion of waste sent to landfill?	Single +	Brownfield
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	falls within SPZ 3
	2 Does the site fall within the River Mease SAC?	N	Not inside SAC area
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Single +	Urban
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	N	Flood zone 1 Brownfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	N	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	N	See assumption
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	N	See assumption
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	N	See assumption
	3 Will it provide new accessible green space?	(+)?	See assumption
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	Double + (?)	Allocation type results in potential
	2 Will it encourage new employment that is consistent with local needs?	Double + (?)	Allocation type results in potential
	3 Will it encourage growth of existing businesses?	Double + (?)	Allocation type results in potential
	4 Will it encourage small businesses to grow?	Double + (?)	Allocation type results in potential
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	Double +	potential job creation as poential to increase use of existing facilities in Burntwood Town centre
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not relevant to needs arising within Key Rural Settlements
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	Is within the town centre but not within the vicinity of a neighbourhood centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	N	The site is unlikely to support priority and protected species 2016 survey data.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	The site comprises of hardstanding
	3 Will it protect statutory designated sites?	N	Within 15km of CCSAC unlikely to impact due to proposed use (Employment).
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or water course.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	N	no record

	4 Is the site within a main settlement or a key rural settlement?	N	See assumption
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	N	See assumption
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	++	Brownfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	buildings have been demolished
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	++	Former industrial units have been demolished. land is hardstanding and under used. Potential degradation from previous uses
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	+	
	2 Will it reduce the overall impact on traffic sensitive areas?	+ ?	
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	N	unlikely to deliver cycle improvements
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	Single +	Brownfield
	3 Will it reduce the proportion of waste sent to landfill?	Single +	Brownfield
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	#	Not in a SPZ
	2 Does the site fall within the River Mease SAC?	N	Not inside SAC area
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Single +	Urban
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	N	Flood zone 1 Brownfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	N	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	N	See assumption
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	N	See assumption
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	N	See assumption
	3 Will it provide new accessible green space?	(+)?	See assumption
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	Double + (?)	Allocation type results in potential
	2 Will it encourage new employment that is consistent with local needs?	Double + (?)	Allocation type results in potential
	3 Will it encourage growth of existing businesses?	Double + (?)	Allocation type results in potential
	4 Will it encourage small businesses to grow?	Double + (?)	Allocation type results in potential
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	Double +	potential job creation as potential to increase use of existing facilities in Burntwood Town centre
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not relevant to needs arising within Key Rural Settlements
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	not within the vicinity of a neighbourhood centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Single -	There is potential protected and priority species (Bats).
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Single -	The site comprises of built form and hardstanding and improved grassland . The site adjacent to Trent and Mersey Canal Armitage Church to Tuppenhurst Road SBI there is potential for indirect impact.
	3 Will it protect statutory designated sites?	N	Within 15km of CCSAC unlikely to impact due to proposed use (Employment).
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or water course.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	N	No Landscape Character
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site and no non-designated areas of archaeological importance on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	Single -	Site is adjacent to Trent and Mersey Canal Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	See assumption
	4 Is the site within a main settlement or a key rural settlement?	N	See assumption
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	N	See assumption
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	++	Brownfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	Single + (?)	Buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	No	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	+	
	2 Will it reduce the overall impact on traffic sensitive areas?	+ ?	
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	N	no rail but can't be improved
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	Single +	Brownfield

	2 Does the site fall within the River Mease SAC?	N	Not inside SAC area
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Grade 2 & 3 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Double -	part of the site is covered by Zones 2 and 3 Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	N	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	N	See assumption
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	N	See assumption
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	N	See assumption
	3 Will it provide new accessible green space?	(+)?	See assumption
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	Double + (?)	Allocation type results in potential
	2 Will it encourage new employment that is consistent with local needs?	Double + (?)	Allocation type results in potential
	3 Will it encourage growth of existing businesses?	Double + (?)	Allocation type results in potential
	4 Will it encourage small businesses to grow?	Double + (?)	Allocation type results in potential
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Not in either centre
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	++	It is likely that employment use will generate visits to village centre and increase use of Shenstone's existing services
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	not within the vicinity of a neighbourhood centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	N	Unlikely to be protected and priority species present.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	Site comprises of arable field.
	3 Will it protect statutory designated sites?	N	Not in SAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	Single -	The Fotherley Brook runs along the Eastern boundary of the site potential impact.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	Cannock Chase and Cankwood LANDSCAPE_Sandstone hills and heaths POLICY_OBI Landscape enhancement
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	Double -	Sand and Gravel Drift
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	Single -	No Scheduled Ancient Monuments on or near to site. Site includes the following Historic Environment Areas: Ryknild Street Roman Road (Streety to Wall)
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	See assumption
	4 Is the site within a main settlement or a key rural settlement?	N	See assumption
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	N	See assumption
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	No	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Single -	
	2 Will it reduce the overall impact on traffic sensitive areas?	+ ?	
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	+?	potential to provide access to a bus service
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	Zone 3
	2 Does the site fall within the River Mease SAC?	N	Not inside SAC area
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Grade 2 & 3 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Double -	part of the site is covered by Zones 2 and 3 Greenfield

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Single -	There is potential for the site to support protected and priority species (Bats)
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	The site comprises of built form hardstanding ruderal and garden
	3 Will it protect statutory designated sites?	N	Not in SAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or watercourses present
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	Mease Lowlands Lowland village farmlands Landscape maintenance Lowland village farmlands. Landscape enhancement
	2 Will it protect sites of geological importance?	N	No RIGS site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site and no non-designated areas of archaeological importance on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	Single -	Site includes the Grade II listed The Homestead, Harlaston and a number of curtilage listed structures including Dairy, Cow House and Trap House at The Homestead, Harlaston. Development could impact setting.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	Single -	Site is wholly within Harlaston Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	Single -	Development of plot would go against predominantly linear development of village
	3 Does it safeguard historic views and valuable skylines of settlements?	N	See assumption
	4 Is the site within a main settlement or a key rural settlement?	N	See assumption
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	N	See assumption
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Majority greenfield (buildings on site)
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	Single + (?)	approx half of site is built up
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	++	site contains some derelict outbuildings
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Single -	
	2 Will it reduce the overall impact on traffic sensitive areas?	++	Broadly similar to less than 25 houses
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	N	unlikely to deliver a bus service or walking improvements
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption

	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	++	Employment use may generate visits to village centre and increase use of Fradley's existing services,
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	not within the vicinity of a neighbourhood centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	N	The site is unlikely to support priority and protected species
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Single -	The site comprises of arable field and semi-improved grassland. The site is adjacent to Canwell Hall Estate BAS potential for indirect impact.
	3 Will it protect statutory designated sites?	N	Not in SAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	The is a small proportion of priority habitat that is isolated.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	Cannock Chase and Cankwood LANDSCAPE_ Sandstone hills and heaths POLICY_OBJ Landscape maintenance
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	Single -	Site is adjacent to Canwell Park, Historic Landscape Park
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site and no non-designated areas of archaeological importance on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	See assumption
	4 Is the site within a main settlement or a key rural settlement?	N	See assumption
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	N	See assumption
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	No	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	+	
	2 Will it reduce the overall impact on traffic sensitive areas?	?	Some traffic impacts outside Staffordshire and on HE network
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	N	no rail but can't be improved
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	N	Not in a SPZ
	2 Does the site fall within the River Mease SAC?	N	Not inside SAC area
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Grade 3 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Flood Zone 1 Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	N	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	N	See assumption
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	N	See assumption
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	N	See assumption
	3 Will it provide new accessible green space?	(+)?	See assumption
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	Double + (?)	Allocation type results in potential
	2 Will it encourage new employment that is consistent with local needs?	Double + (?)	Allocation type results in potential
	3 Will it encourage growth of existing businesses?	Double + (?)	Allocation type results in potential
	4 Will it encourage small businesses to grow?	Double + (?)	Allocation type results in potential
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Not in either centre
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Site is relatively isolated. Not relevant to needs arising within Key Rural Settlements
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	not within the vicinity of a neighbourhood centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Single -	The site is likely to support protected and priority species.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Double -	The site comprises of Cranwell Hall Estate BAS (woodland) and arable.
	3 Will it protect statutory designated sites?	N	Not in SAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	Double -	Development will result in the destruction of a proportion of Canwell Hall Estate BAS.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	Cannock Chase and Cankwood LANDSCAPE_ Sandstone hills and heaths POLICY_OBJ Landscape maintenance
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	Double -	Site is wholly within Canwell Park Historic Landscape Park. Development would result in loss of this.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site and no non-designated areas of archaeological importance on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality? 	3 Does it safeguard historic views and valuable skylines of settlements?	N	See assumption
	4 Is the site within a main settlement or a key rural settlement?	N	See assumption
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	N	See assumption
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	++	part brownfield, part greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	Single + (?)	some buildings and containers.
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	++	Existing buildings are not derelict. Land is Potentially degraded from current use
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Single -	
	2 Will it reduce the overall impact on traffic sensitive areas?	+ ?	
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	?	cycle scheme nearby by land ownership and sliproad constraints unknown if link to site possible
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	Single +	Brownfield
	3 Will it reduce the proportion of waste sent to landfill?	Single +	Brownfield
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	N	Not in a SPZ
	2 Does the site fall within the River Mease SAC?	N	Not inside SAC area
	3 Is the site within or directly connected by road to an AQMA?	Double -	Part of site falls within A38 AQMA
	4 Will it result in the loss of quality agricultural land?	Single +	Grade 3
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	N	Flood zone 1 Brownfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	N	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	N	See assumption
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	N	See assumption
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption

14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	Double + (?)	Allocation type results in potential
	2 Will it encourage new employment that is consistent with local needs?	Double + (?)	Allocation type results in potential
	3 Will it encourage growth of existing businesses?	Double + (?)	Allocation type results in potential
	4 Will it encourage small businesses to grow?	Double + (?)	Allocation type results in potential
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Not in either centre
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	++	Employment use may generate visits to village centre and increase use of Alrewas' existing services, however site is separated from Alrewas by A38 trunk road
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	not within the vicinity of a neighbourhood centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Double -	European Protected Species are known to be present on site (GCN, Bats).
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Double -	The site comprises of Fradley Wood BAS, Semi-improved grassland, woodland, scrub land, cereal field, improved grassland built form and hardstanding. The site lies adjacent to Pool Wood and Fradley Reservoir SBI, Kings Bromley Wharf to Fradley Junction Coventry Canal SBI there is potential for indirect impact on these sites.
	3 Will it protect statutory designated sites?	N	Within 15km of CCSAC unlikely to impact due to proposed use (Employment).
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	Double -	The site is adjacent to Kings Bromley Wharf to Fradley Junction Coventry Canal SBI. The site comprises of priority and designated habitats
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Single -	The site has the following landscape character Trent Valley Washlands - Settled Heathlands. Innovative Landscape regeneration
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	Double -	Mineral Consultation Areas Sand and Gravel Drift.
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	Single -	The part of the site is located within the following Historic Landscape Feature: RAF Lichfield/Fradley Airfield - Military Training Site airfield and also Aircraft hangar RAF Lichfield/Fradley. The site is adjacent to the following Historic Landscape Feature: Coventry Canal Fradley Junction to Huddlesford.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	Single -	No Scheduled Ancient Monuments on site. Part of the site is located within the following Historic Landscape Feature: RAF Lichfield/Fradley Airfield - Military Training Site airfield and also Aircraft hangar RAF Lichfield/Fradley.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	Double -	The site on its Western boundary is adjacent to the following Listed structures : Fradley Junction - Bridge No52 and Shade House Lock and Fradley Junction - Middle Lock. The site is in close proximity to the following listed structures on its North tip - Ivy Leigh and attached cottages, The Swan and attached buildings, Fradley Junction Wharf House, Bridge No 51 and attached lock.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	Double -	The site is adjacent to all its Western boundary to the following Conservation Areas Fradley Junction and Trent and Mersey Canal.
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	Single -	Development would erode the setting of the canal junction and surrounding historic development
	3 Does it safeguard historic views and valuable skylines of settlements?	N	see assumption
	4 Is the site within a main settlement or a key rural settlement?	N	See assumption
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	N	See assumption
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	Single + (?)	Element of built form.
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	No	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Single -	
	2 Will it reduce the overall impact on traffic sensitive areas?	?	Too large to determine without traffic evidence
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	+?	potential to provide access to a bus service
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption

	4 Will it encourage small businesses to grow?	Double + (?)	Allocation type results in potential
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Not in either centre
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	++	Employment use may generate visits to village centre and increase use of Fradley's existing services,
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	not within the vicinity of a neighbourhood centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	N	Limited potential for protected and priority species.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Single -	No survey data appears to be semi-improved grassland.
	3 Will it protect statutory designated sites?	N	Not in SAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	Not connected to existing green corridor or water course.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Single -	The following classification for landscape character is given for the site. Cannock Chase and Cankwood Sandstone Terrace estate/land. Landscape re-orientation
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site and no non-designated areas of archaeological importance on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage, historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Site is near to Whittington Conservation Area.
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	see assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	see assumption
	4 Is the site within a main settlement or a key rural settlement?	N	See assumption
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	N	See assumption
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	Single + (?)	element of built form
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	No	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	+	
	2 Will it reduce the overall impact on traffic sensitive areas?	+ ?	
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	N	no rail but can't be improved
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	SPZ 3
	2 Does the site fall within the River Mease SAC?	N	Not inside SAC area
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Part Grade 2 Part Grade 3 Greenfield.
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Flood Zone 1 Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	N	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	N	See assumption
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	N	See assumption
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	N	See assumption
	3 Will it provide new accessible green space?	(+)?	See assumption
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	Double + (?)	Allocation type results in potential
	2 Will it encourage new employment that is consistent with local needs?	Double + (?)	Allocation type results in potential
	3 Will it encourage growth of existing businesses?	Double + (?)	Allocation type results in potential
	4 Will it encourage small businesses to grow?	Double + (?)	Allocation type results in potential
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Not in either centre
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	++	Employment use may generate visits to village centre and increase use of Whittington's existing services
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	not within the vicinity of a neighbourhood centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	N	No protected or priority species on site 2016 Survey data
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	Whole site Built Form
	3 Will it protect statutory designated sites?	N	Within 15km of CCSAC unlikely to impact due to proposed use (Employment).
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or water course.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	N	No Landscape Character
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site and no non-designated areas of archaeological importance on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	see assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	see assumption
	4 Is the site within a main settlement or a key rural settlement?	N	See assumption
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	N	See assumption
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	++	Brownfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	Single + (?)	Buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	++	Unused, site vacant since 2015
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	++	
	2 Will it reduce the overall impact on traffic sensitive areas?	+ ?	
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	N	access by all four sustainable modes already
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	Single +	Brownfield
	3 Will it reduce the proportion of waste sent to landfill?	Single +	Brownfield
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	SPZ 3
	2 Does the site fall within the River Mease SAC?	N	Not inside SAC area
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Single +	Part Grade 2 Part Urban Brownfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	N	Flood Zone 1 Brownfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	N	See assumption

14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	Double + (?)	Allocation type results in potential
	2 Will it encourage new employment that is consistent with local needs?	Double + (?)	Allocation type results in potential
	3 Will it encourage growth of existing businesses?	Double + (?)	Allocation type results in potential
	4 Will it encourage small businesses to grow?	Double + (?)	Allocation type results in potential
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	Double +	Within Lichfield
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	not relevant to key rural settlements
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	Single +?	within the vicinity of a neighbourhood centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Single -	There is potential for protected and priority species.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	Site comprises of built form, hardstanding, amenity grassland semi-improved grass and scrub (N very small area of semi-improved grassland)
	3 Will it protect statutory designated sites?	N	Within 15km of CCSAC unlikely to impact due to proposed use (Employment).
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	The is a small proportion of priority habitat that is isolated.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	Trent Valley Washlands LANDSCAPE_settled heathlands POLICY_OBJ Landscape maintenance
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	adj to outcrop: Sand and Gravel Drift (site is inset from area)
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site and no non-designated areas of archaeological importance on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	Double -	Site includes Grade II listed Seedy Mill Waterworks Pumping Station. Development could significantly impact its setting
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	see assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	see assumption
	4 Is the site within a main settlement or a key rural settlement?	N	See assumption
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	N	See assumption
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	++	Brownfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	Single + (?)	Buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	++	in use but land may have been degraded from current use
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Single -	
	2 Will it reduce the overall impact on traffic sensitive areas?	+ ?	
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	+ ?	potential to provide cycle infrastructure
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	Single +	Brownfield
	3 Will it reduce the proportion of waste sent to landfill?	Single +	Brownfield
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Double -	SPZ1
	2 Does the site fall within the River Mease SAC?	N	Not inside SAC area
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Single +	Grade 3
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	N	Flood Z 1 b/f adj to zone 2
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	N	See assumption

	4 Is the site within a main settlement or a key rural settlement?	N	See assumption
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	N	See assumption
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	No	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	+	
	2 Will it reduce the overall impact on traffic sensitive areas?	+ ?	
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	+ ?	potential to provide cycle infrastructure
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	SPZ 2
	2 Does the site fall within the River Mease SAC?	N	Not inside SAC area
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Grade 3 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Flood Zone 1 Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	N	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	N	See assumption
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	N	See assumption
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	N	See assumption
	3 Will it provide new accessible green space?	(+)?	See assumption
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	Double + (?)	Allocation type results in potential
	2 Will it encourage new employment that is consistent with local needs?	Double + (?)	Allocation type results in potential
	3 Will it encourage growth of existing businesses?	Double + (?)	Allocation type results in potential
	4 Will it encourage small businesses to grow?	Double + (?)	Allocation type results in potential
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Not in either centre
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	not relevant to key rural settlements
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	not within the vicinity of a neighbourhood centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	N	The site is unlikely to support protected and priority species.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	The site comprises of improved grassland and ruderal
	3 Will it protect statutory designated sites?	N	Not in SAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or water course.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	Cannock Chase and Cankwood LANDSCAPE_Sandstone hills and heaths POLICY_OBJ Landscape maintenance
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site and no non-designated areas of archaeological importance on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	see assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	see assumption
	4 Is the site within a main settlement or a key rural settlement?	N	See assumption
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	N	See assumption
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	No	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	+	
	2 Will it reduce the overall impact on traffic sensitive areas?	++	Broadly similar to less than 25 houses
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	?	unknown whether site can connect into Birmingham's cycle infrastructure
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption

	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Site is relatively isolated. Not relevant to needs arising within Key Rural Settlements
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	not within the vicinity of a neighbourhood centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	N	The site is unlikely to support protected and priority species.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	Arable
	3 Will it protect statutory designated sites?	N	Within 15km of CCSAC unlikely to impact due to proposed use (Employment).
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or water course.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Single -	Cannock Chase and Cankwood, Farmland. Objective: Landscape restoration
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	Single -	No Scheduled Ancient Monuments on or near to site. Site includes the following Historic Environment Area: Brickworks, Alrewas and is adjacent to Ryknild Street (Knowle Hill to Catholme)
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality? 	4 Will it encourage small businesses to grow?	Double + (?)	Allocation type results in potential
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Not in either centre
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	Double +	It is likley that employment use will generate visits to village centre and increase use of Fradley's existing services
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	not within the vicinity of a neighbourhood centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	N	The site is unlikely to support protected and priority species.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	The site comprises of built form hardstanding and improved grassland
	3 Will it protect statutory designated sites?	N	Not in SAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or water course.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	N	no record
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on the site. Site is opposite Drayton Manor Landscape Park but as site is historically developed this should not be harmed.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site. Site is adjacent to Watling Street (Wall to Fazeley).
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	++	Site includes the following Grade II listed buildings: Bonehill Mill and 122 Lichfield Street both are significantly at risk and development could preserve them and bring them back into use.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	++	Development could bring back vacant historic buildings into use and benefit public access.
	3 Will it preserve and enhance conservation areas including their setting?	++	Site is within Fazeley and Bonehill Conservation Area. Development could improve the conservation area.
	4 Will it offer opportunities to bring heritage assets back into active use?	++	Yes there are 2 buildings at risk on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	See assumption
	4 Is the site within a main settlement or a key rural settlement?	N	See assumption
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	N	See assumption
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	++	Brownfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	Single + (?)	mostly built form
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	++	derelict buildings on site. Underused and may be degraded
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	+	
	2 Will it reduce the overall impact on traffic sensitive areas?	++	Broadly similar to less than 25 houses
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	+?	potential to provide cycle infrastructure
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption

	4 Will it encourage small businesses to grow?	Double + (?)	Allocation type results in potential
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	not in either centre
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	Double +	Site falls within Fazeley Settlement boundary and it is likely that employment use will generate visits to village centre and increase use of existing service
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	not within the vicinity of a neighbourhood centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	N	The site is unlikely to support protected and priority species.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Single -	The site comprises of bare earth and woodland the site is adjacent to the Trent and Mersey Canal : Armitage Church to Tuppenhurst SAB there is a potential for indirect impact.
	3 Will it protect statutory designated sites?	N	Within 15km of CCSAC unlikely to impact due to proposed use (Employment).
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	The is a small proportion of priority habitat that is isolated.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	Trent Valley Washlands LANDSCAPE_ Riparian alluvial lowlands POLICY_OBJ Landscape maintenance
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	Single -	No Scheduled Ancient Monuments on or near to site. No non-designated areas of archaeological interest on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on the site or adjacent to the site
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	Double -	The site is bounded to the south by Trent and Mersey Canal Conservation Area and is near to Mavesyn Ridware Conservation Area to the North. Development will significantly affect setting of both.
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption

10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	N	Flood Zone 1 Brownfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	N	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	N	See assumption
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	N	See assumption
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	N	See assumption
	3 Will it provide new accessible green space?	(+)?	See assumption
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	Double + (?)	Allocation type results in potential
	2 Will it encourage new employment that is consistent with local needs?	Double + (?)	Allocation type results in potential
	3 Will it encourage growth of existing businesses?	Double + (?)	Allocation type results in potential
	4 Will it encourage small businesses to grow?	Double + (?)	Allocation type results in potential
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Not in either centre
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	Double +	Potential that employment use will generate visits to village centre and increase use Armitage's existing services
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	not within the vicinity of a neighbourhood centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Single -	There is potential for protected and priority species survey. Data 2016.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Single -	The site comprises of arable field and semi improved grassland (small amount) there is a brook that runs through the middle of the site.
	3 Will it protect statutory designated sites?	N	Within 15km of CCSAC unlikely to impact due to proposed use (Employment).
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	Double -	A water course runs through the middle of the site there is potential for impact.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	Cannock Chase and Cankwood LANDSCAPE_Sandstone estatelands POLICY_OBJ Landscape enhancement
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	Single -	No Scheduled Ancient Monuments on or near to site. Site includes the following Historic Environment Area: Field Barn, North of Ashbrook House, Lichfield
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on the site or adjacent to the site
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	Development is unlikely to impact on views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	N	See assumption
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	N	See assumption
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	No	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Single -	
	2 Will it reduce the overall impact on traffic sensitive areas?	+	Local plan evidence
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	++	Cricket Lane SDA committed to providing walk, cycle and bus improvements
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	SPZ 3
	2 Does the site fall within the River Mease SAC?	N	Not inside SAC area
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Greenfield Grade 2
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Flood Zone 1 Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	N	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	N	See assumption
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	N	See assumption
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	N	See assumption
	3 Will it provide new accessible green space?	(+)?	See assumption
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	Double + (?)	Allocation type results in potential
	2 Will it encourage new employment that is consistent with local needs?	Double + (?)	Allocation type results in potential
	3 Will it encourage growth of existing businesses?	Double + (?)	Allocation type results in potential
	4 Will it encourage small businesses to grow?	Double + (?)	Allocation type results in potential
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	Double +	inside Lichfield settlement
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	not relevant to Key Rural centres
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	Single + ?	site is within proximity of a neighbourhood centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Double -	Protected and Priority Species are present on site
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Double -	The site comprises of build form, hardstanding standing water, running water, semi-improved grassland, improved grassland, bare ground, ruderal, woodland, site assessment undertaken 2016.
	3 Will it protect statutory designated sites?	N	Within 15km of CCSAC unlikely to impact due to proposed use (Employment).
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	Double -	The site contains priority habitat and water course run through the site, the River Trent Runs along it's north boundary and the Trent Mersey Canal along the South Boundary
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	N	no record
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	Single -	There is a small section of the North East boundary of the site that falls within the following Historic Environment Area: Water meadow North of Brereton.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	Single -	No Scheduled Ancient Monuments on or near to site. The following Historic Environment Areas are located within the site: Farmstead Near Armitage Farmstead Building, Langley Common Cottages Rugeley House, Boothurst Rugeley Farmstead.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No Listed Buildings or or near to site and no non designated buildings on site
	2 Will it improve and broaden access to, and understanding of, local heritage, historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Site is adjacent to Trent and Mersey Canal Conservation Area.
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	N	See assumption
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	N	See assumption
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	++	Brownfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	++	land is under used and potentially degraded by former uses but no derelict buildings
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Single -	
	2 Will it reduce the overall impact on traffic sensitive areas?	?	Too large to determine without traffic evidence
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	+	potential to provide access to a bus service
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	Single +	Brownfield
	3 Will it reduce the proportion of waste sent to landfill?	Single +	Brownfield
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	N	Not in a SPZ
	2 Does the site fall within the River Mease SAC?	N	Not inside SAC area
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Single +	Brownfield. Some Urban, some G4
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	N	Part of site is Z2 and Z3 is adjacent Brownfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	N	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	N	See assumption
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	N	See assumption
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	N	See assumption
	3 Will it provide new accessible green space?	Single - ?	Allotment provision located in far south eastern corner of the site. Depending on detailed development design provision may be lost or displaced.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	Double + (?)	Allocation type results in potential
	2 Will it encourage new employment that is consistent with local needs?	Double + (?)	Allocation type results in potential
	3 Will it encourage growth of existing businesses?	Double + (?)	Allocation type results in potential
	4 Will it encourage small businesses to grow?	Double + (?)	Allocation type results in potential
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	not in either centre
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not relevant to needs arising within Key Rural Settlements
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	not within the vicinity of a neighbourhood centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	N	The site is unlikely to support protected and priority species.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	the site comprises of a cereal field.
	3 Will it protect statutory designated sites?	N	Within 15km of CCSAC unlikely to impact due to proposed use (Employment).
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or watercourses present
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Single -	The site has the following landscape character Trent Valley Washlands - Settled Heathlands. Innovative Landscape regeneration
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	N	The site is adjacent to the following Historic Landscape features RAF Lichfield Fradley Sirfield Military training site airfield and Air Raod Shelter Alrewas.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site and no non-designated areas of archaeological importance on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on the site or adjacent to the site
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	N	See assumption
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	N	See assumption
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	No	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	+	
	2 Will it reduce the overall impact on traffic sensitive areas?	?	Unable to determine without comments from HE - proximity to Hilliards Cross and Fradley South
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	N	
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Double -	SPZ 1
	2 Does the site fall within the River Mease SAC?	N	Not inside SAC area
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Grade 3 greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Flood Zone 1 Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	N	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
		472	
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	N	Unlikely to support protected and support priority and protected species.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	This site is arable and pastoral fields
	3 Will it protect statutory designated sites?	N	Not in SAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	Not located close to established corridors or watercourses.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Single -	The current landscape character for the site is as follows Trent Valley Washlands Lowland Village Farmland. Landscape restoration
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not in NF, FM or CRI
	6 Will it result in the loss of historic landscape features?	N	No Historic Landscape Features.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site. Site is adjacent to Historic Environment Area. Watling Street, Roman Road
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on the site or adjacent to the site
	2 Will it improve and broaden access to, and understanding of, local heritage, historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	+	Boundary with a Key Rural settlement Fazeley
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	These services are located within the village centre of Fazeley the site is located adjacent to the settlement within access to those services via existing highway infrastructure. In addition local shopping facilities are also located within the neighbourhood area of Mile Oak.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Double -	
	2 Will it reduce the overall impact on traffic sensitive areas?	+ ?	no insurmountable traffic constraints in Fazeley, no traffic evidence
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	+ ?	potential to provide cycle infrastructure
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	N	No SPZ

N	See assumption

- 2 Does the site fall within the River Mease SAC?
- 3 Is the site within or directly connected by road to an AQMA?
- 4 Will it result in the loss of quality agricultural land?

10 To reduce and manage flood risk

- 1 Is the site located outside an area of risk from flooding?
- 2 Will there be an opportunity for flood risk reduction?

11 To provide affordable homes that meet local need

- 1 Will it provide sufficient housing to meet existing and future housing need?
- 2 Will it increase the range and affordability of housing for all social groups?
- 3 Will it reduce the number of households waiting for accommodation or accepted as homeless?
- 4 Will it meet the needs of the travelling community and show people?

12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities

- 1 Will it improve accessibility to health care for existing residents (Including older residents) and provide additional facilities for new residents?
- 2 Will it support a healthy life style including opportunities for recreational/physical activity?
- 3 Will it provide new accessible green space?

13 To promote safe communities, reduce crime and fear of crime

- 1 Will it reduce crime through design measures?
- 2 Will it contribute to a safe built environment?

14 Improve opportunities for prosperity and economic growth

- 1 Will it encourage higher skilled economic sectors in the District?
- 2 Will it encourage new employment that is consistent with local needs?
- 3 Will it encourage growth of existing businesses?
- 4 Will it encourage small businesses to grow?

15 To enhance the vitality and viability of existing city, town and village centres within the District

- 1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?
- 2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?
- 3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?

16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning

- 1 Will it increase educational attainment amongst young people?
- 2 Will it reduce the number of working age residents who have no, or lower level qualifications?

Sustainability Objective	Site Specific Question	Site Reference	Comment
		495	
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Single -	There is potential to support protect and priority species. No survey evidence.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Double -	Semi-improved grassland and shrub land
	3 Will it protect statutory designated sites?	N	Not in SAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	Not located close to established corridors or watercourses. Isolated by the A5 to the North and the Hospital to the East and Southern boundary is Watling street.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Single -	The current landscape character for the site is as follows Trent Valley Washlands Lowland Village Farmland. Landscape restoration
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not in NF, FM or CRI
	6 Will it result in the loss of historic landscape features?	Single -	The site is within the following Historic landscape feature: Crop Marks Fazeley , pit alignment
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site. Site is adjacent to Historic Environment Area: Watling Street, Roman Road
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on the site or adjacent to the site
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	+	Boundary with a Key Rural settlement Fazeley
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	These services are located within the village centre of Fazeley the site is located adjacent to the settlement within access to those services via existing highway infrastructure. In addition local shopping facilities are also located within the neighbourhood area of Mile Oak.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	+	
	2 Will it reduce the overall impact on traffic sensitive areas?	+ ?	no insurmountable traffic constraints in Fazeley, no traffic evidence
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	+ ?	potential to provide cycle infrastructure
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	N	No SPZ

- 4 Will it meet the needs of the travelling community and show people?

12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities

- 1 Will it improve accessibility to health care for existing residents (Including older residents) and provide additional facilities for new residents?
- 2 Will it support a healthy life style including opportunities for recreational/physical activity?
- 3 Will it provide new accessible green space?

13 To promote safe communities, reduce crime and fear of crime

- 1 Will it reduce crime through design measures?
- 2 Will it contribute to a safe built environment?

14 Improve opportunities for prosperity and economic growth

- 1 Will it encourage higher skilled economic sectors in the District?
- 2 Will it encourage new employment that is consistent with local needs?
- 3 Will it encourage growth of existing businesses?
- 4 Will it encourage small businesses to grow?

15 To enhance the vitality and viability of existing city, town and village centres within the District

- 1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?
- 2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?
- 3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?

16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning

- 1 Will it increase educational attainment amongst young people?
- 2 Will it reduce the number of working age residents who have no, or lower level qualifications?

Sustainability Objective	Site Specific Question	Site Reference	Comment
		440	Fazeley
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Single -	There is potential to support protected and priority species. No survey evidence.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N (?)	Garden of unknown biodiversity value. Mature trees.
	3 Will it protect statutory designated sites?	N	Not in SAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	Not located close to established corridors or watercourses.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Single -	The current landscape character for the site is as follows Trent Valley Washlands Lowland Village Farmland. Landscape restoration
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not in NF, FM or CRI
	6 Will it result in the loss of historic landscape features?	N	The site is adjacent to the following Historic landscape feature: Bonehill Park, Landscape Park
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site. No non-designated areas of archaeological interest on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	Single -	No listed buildings on the site or adjacent to the site. Locally Listed buildings adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage, historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	Double -	Site is within Fazeley and Bonehill Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	Double -	Development would significantly erode character of historic hamlet of Bonehill.
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	+	Boundary with a Key Rural settlement Fazeley
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	These services are located within the village centre of Fazeley the site is located adjacent to the settlement within access to those services via existing highway infrastructure. In addition local shopping facilities are also located within the neighbourhood area of Mile Oak.
5 Maximise the use of previously developed land/buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	+	
	2 Will it reduce the overall impact on traffic sensitive areas?	++	no insurmountable traffic constraints in Fazeley, no traffic evidence
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	+ ?	potential to provide cycle infrastructure
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	N	No SPZ

Sustainability Appraisal Scoring Matrix: Settlement Fradley
Main Modifications 2018

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	N	The site is unlikely to support protected and priority species
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	The site comprise of cereal fields semi-improved grassland and built form, survey and site assessment 2016.
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	Single -	The site is adjacent to Kings Bromley Wharf to Fradley Junction Coventry Canal SBI .
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Single -	The site has the following landscape character: Trent Valley Washlands - Settled Heathlands. Innovative Landscape regeneration
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	Single -	The Southern part of the site is located within the following Historic Landscape Feature: RAF Lichfield/Fradley Airfield - Military Training Site airfield.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on site or non designated areas of archaeological interest.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on the site or adjacent to the site
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	The site is adjacent to the following Conservation Areas Fradley Junction and Trent and Mersey Canal.
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safe guard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	+	The site is within the settlement boundary of the key rural settlement of Fradley.
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	++	The site is within the settlement boundary and within easy access of services located within the settlement.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	Single + (?)	Element of built form.
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Single -	
	2 Will it reduce the overall impact on traffic sensitive areas?	?	Unable to determine without comments from HE
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	N	walk facilities are present but beyond walk distance to GP
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption

	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	Provision of health need in Fradley is identified within the Infrastructure Development Plan and will be addressed through the HS Transformation Plan
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Outside LC and B
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	++	Within the Fradley Settlement boundary
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	No Neighbourhood Shopping Centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

838			
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Double -	European Protected Species are known to be present on site (Great Crested Newt, Bats).
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Double -	The site comprises of Fradely Wood BAS, Semi-improved grassland, woodland, scrub land, cereal field, improved grassland, built form and hardstanding. The site lies adjacent to Pool Wood and Fradely Reservoir SBI, Kings Bromley Wharf to Fradley Junction Coventry Canal SBI there is potential for indirect impact on these sites.
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	Double -	The site is adjacent to Kings Bromley Wharf to Fradley Junction Coventry Canal SBI. The site comprises of priority and designated habitats
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Single -	The site has the following landscape character Trent Valley Washlands - Settled Heathlands. Innovative Landscape regeneration
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	Double -	Mineral Consultation Areas Sand and Gravel Drift.
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	Single -	The part of the site is located within the following Historic Landscape Feature: RAF Lichfield/Fradley Airfield - Military Training Site airfield and also Aircraft hangar RAF Lichfield/Fradley. The site is adjacent to the following Historic Landscape Feature: Coventry Canal Fradley Junction to Huddlesford.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	Single -	No Scheduled Ancient Monuments on site. Part of the site is located within the following Historic Landscape Feature: RAF Lichfield/Fradley Airfield - Military Training Site airfield and also Aircraft hangar RAF Lichfield/Fradley.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	Double -	The site on its Western boundary is adjacent to the following Listed structures : Fradley Junction - Bridge No52 and Shade House Lock and Fradley Junction - Middle Lock. The site is in close proximity to the following listed structures on its North tip - Ivy Leigh and attached cottages, The Swan and attached buildings, Fradley Junction Wharf House, Bridge No 51 and attached lock.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	Double -	The site is adjacent to all its Western boundary to the following Conservation Areas Fradley Junction and Trent and Mersey Canal.
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	Single -	Development would erode the setting of the canal junction and surrounding historic development
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	Double -	There is significant gap between the site and the key rural settlement of Fradley
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	-	Access to services located within Fradley could be restricted by the distance from the settlement.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	Single + (?)	Element of built form.
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Single -	
	2 Will it reduce the overall impact on traffic sensitive areas?	?	Unable to determine without comments from HE
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	+ ?	Potential to provide access to a bus service
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	?	Combination Greenfield and Brownfield
	3 Will it reduce the proportion of waste sent to landfill?	?	Combination Greenfield and Brownfield

Sustainability Objective	Site Specific Question	Site Reference	Comment
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Double -	SP2 1
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Grade 3 combination of Brownfield and Greenfield. ? Due to the combined nature of the site.
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single - ?	Flood Zone 1 Combination of greenfield and brownfield. ? Due to combined nature of the site.
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx yield 800
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx yield 800
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	Provision of health need in Fradley is identified within the Infrastructure Development Plan and will be addressed through the HS Transformation Plan
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	Single -	Part of the site is currently being used for employment
	2 Will it encourage new employment that is consistent with local needs?	Single -	Part of the site is currently being used for employment
	3 Will it encourage growth of existing businesses?	Single -	Part of the site is currently being used for employment
	4 Will it encourage small businesses to grow?	Single -	Part of the site is currently being used for employment
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Outside LC and B
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Due to the gap between the site and the key Rural Settlement and also the location it is unclear if the residents would use the existing services located within the Key Rural Settlement as their local service centre.
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	No Neighbourhood Shopping Centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
83			
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	N	The site is unlikely to support protected and priority species
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Single -	The site is an arable field. The site lies close to Hay End Lane (Hedge 1) BAS, Fradley Wood BAS, Pool Wood and Fradley Reservoir SBI, Kings Bromley Wharf to Fradley Junction Coventry Canal SBI ther is potential for indirect impact on these sites.
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or watercourses present
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	The site has the following landscape character: Trent Valley washlands Terrace alluvial lowlands. Landscape enhancement
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	Double -	Mineral Consultation Areas Sand and Gravel Drift.
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	N	No Historic Landscape Features
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	Single -	This site is within 550 metres CF of the following Scheduled ancient monument; ST250 causeway enclosure.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on the site or adjacent to the site
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	Double -	The site is near to the Fradley Junction Conservation Area and the Trent and Mersey Canal Conservation Area.
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safe guard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	Double -	There is significant gap between the site and the key rural settlement of Fradley
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	-	Access to services located within Fradley could be restricted by the distance from the settlement.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption

	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Double -	SPZ 1
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA (Adjacent).
	4 Will it result in the loss of quality agricultural land?	Double -	Grade 3 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Flood Zone 1 Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx yield 95
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx yield 95
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	Provision of health need in Fradley is identified within the Infrastructure Development Plan and will be addressed through the HS Transformation Plan
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Outside LC and B
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	++	Adjacent to the Fradley settlement boundary. It is very likely that residents will use existing services located within Fradley.
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	No Neighbourhood Shopping Centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Single -	The site has potential to support protected and priority species
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Double -	The site is semi-improved grassland
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	Double -	The site is adjacent to Kings Bromley Wharf to Fradley Junction Coventry Canal SBI. The site is a priority habitat connected to established network of other priority habitats (Only potential for negative).
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Single -	The site has the following landscape character: Trent Valley Washlands - Settled Heathlands. Innovative Landscape regeneration
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	Single -	Part of the site is located within the Following Historic Landscape Feature: Ridge and Furrow. The site is adjacent to the following Historic Landscape features: Coventry Canal Fradley Junction to Huddlesford.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	Single -	No Scheduled Ancient Monuments on site. Part of the site includes the following Historic Landscape Feature: Ridge and Furrow
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on the site or adjacent to the site
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safe guard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	+	The site is adjacent to the Key Rural Settlement of Fradley.
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	The site lines adjacent to the settlement boundary and within easy access of services located within the settlement.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Single -	
	2 Will it reduce the overall impact on traffic sensitive areas?	?	Unable to determine without comments from HE
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	N	walk facilities are present but beyond walk distance to GP
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption

	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	N	walk facilities are present but beyond walk distance to GP
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Double -	SPZ 1
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Grade 3 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Flood Zone 1 Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx yield 259
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx yield 259
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	Provision of health need in Fradley is identified within the Infrastructure Development Plan and will be addressed through the HS Transformation Plan
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Outside LC and B
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	++	Adjacent to the Fradley settlement boundary. It is very likely that residents will use existing services located within Fradley.
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	No Neighbourhood Shopping Centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Single -	The site has potential to support protected and priority species
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Double -	The site comprises of semi-improved grassland
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	Double -	The site is a priority habitat connected to established network of other priority habitats (Only potential for negative).
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Single -	The site has the following landscape character Trent Valley Washlands - Settled Heathlands. Innovative Landscape regeneration
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	Double - (?)	Part of the site is within a Mineral Consultation area. (?) Part of the site
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia, CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	N	No historic Landscape Features.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site. No non-designated areas of archaeological interest on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on the site or adjacent to the site
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safe guard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	+	The site is adjacent to the Key Rural Settlement of Fradley.
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	The site lines adjacent to the settlement boundary and within easy access of services located within the settlement.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	+	
	2 Will it reduce the overall impact on traffic sensitive areas?	?	Unable to determine without comments from HE
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	N	walk facilities are present but beyond walk distance to GP
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption

	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Double -	SPZ 1
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Grade 3 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Flood Zone 1 Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx yield 58
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx yield 58
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	Provision of health need in Fradley is identified within the Infrastructure Development Plan and will be addressed through the HS Transformation Plan
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Outside LC and B
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	++	Adjacent to the Fradley settlement boundary. It is very likely that residents will use existing services located within Fradley.
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	No Neighbourhood Shopping Centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
437			
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Single -	The site has potential to support protected and priority species
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Double -	The site comprises of wet woodland and is adjacent to Hay End Lane Hedge 1 BAS, and Kings Bromley Wharf to Fradley Junction Coventry Canal SBI.
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	Double -	The site is adjacent to Kings Bromley Wharf to Fradley Junction Coventry Canal SBI. The site is a priority habitat connected to established network of other priority habitats (Only potential for negative).
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	The site has the following landscape character: Terrace Alluvial Lowlands. Landscape enhancement
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia, CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	N	The site is located adjacent to the following Historic Landscape Features:RAF Lichfield/Fradley Airfield Military Training Site Airfield and Pillar box Fradley Airfield.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site. No non-designated areas of archaeological interest on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on the site or adjacent to the site
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safe guard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	+	The site is adjacent to the Key Rural Settlement of Fradley.
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	The site lines adjacent to the settlement boundary and within easy access of services located within the settlement.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Single -	
	2 Will it reduce the overall impact on traffic sensitive areas?	?	Unable to determine without comments from HE
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	N	walk facilities are present but beyond walk distance to GP
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption

130			
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	N	The site is unlikely to support protected and priority species
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	The site comprises of a cereal field.
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or watercourses present
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Single -	The site has the following landscape Character: Riparian alluvial lowlands. Innovative Landscape regeneration
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	Double -	Mineral Consultation Areas Sand and Gravel Drift.
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia, CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	N	No Historic Landscape Features
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on site. Site is adjacent to the Ryknield Street Historic Environment Area
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on the site or adjacent to the site
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safe guard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	Double -	There is a clear gap between the site and the settlement boundary, within the gap is located the A38 which will significantly reduce accessibility of services.
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	Single -	The location of the A38 between the site and the Settlement of Fradley acts as a significant barrier to the services located within the key rural settlement.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Single -	
	2 Will it reduce the overall impact on traffic sensitive areas?	?	Unable to determine without transport evidence and comments from HE
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	++ ?	Size of site provides potential to deliver a range of sustainable transport solutions and provision of services and facilities.
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption

1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Double -	There are protected species present on site and on land adjacent to the site. 2016 Survey data.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	No priority habitat
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or water course.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	The Landscape Character for the site is as follows: Cannock Chase and Cankwood Settled Farmlands. Landscape maintenance
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	Single -	Within the FM not in CRI or NF
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No Scheduled Ancient Monuments on or near to site and no non-designated areas of archaeological importance on site.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There would be no impact on the historic views or skylines of the city.
	4 Is the site within a main settlement or a key rural settlement?	+++	Edge of settlement Lichfield

Sustainability Objective	Site Specific Question	Site Reference	Comment
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	The site lines adjacent to the settlement boundary and within easy access of services located within the settlement - Lichfield
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	++	Brownfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	Single + (?)	Buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	+	
	2 Will it reduce the overall impact on traffic sensitive areas?	++	Less than 25
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	+?	potential to provide cycle infrastructure
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption

	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	Double - ?	pedestrian/ cycle infrastructure likely to require third party land
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	SPZ 3
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Grade 3 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Flood Zone 1 Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx yield 20
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx yield 20
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	++	The site is located on the edge of the settlement of Lichfield and in close proximity to services within the settlement.
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not in or adjacent to a Key Rural Settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	++	Six individual Neighbourhood Shopping Centres area located within the settlement of Lichfield.
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
		435	
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	N	No protected or priority species evident 2016 survey data.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Double -	Semi-improved grassland priority habitat
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	Double -	The site is currently a connected to other priority habitats and lose would result in a reduction. North of Lichfield thin belt of good quality habitat.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	The Landscape Character for the site is as follows: Cannock Chase and Cankwood Settled Farmlands. Landscape maintenance
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	Single -	Within the FM not in CRI or NF
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site and no non-designated areas of archaeological importance on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There would be no impact on the historic views or skylines of the city.
	4 Is the site within a main settlement or a key rural settlement?	+++	Edge of settlement Lichfield

Sustainability Objective	Site Specific Question	Site Reference	Comment
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	The site lines adjacent to the settlement boundary and within easy access of services located within the settlement - Lichfield
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	+	
	2 Will it reduce the overall impact on traffic sensitive areas?	++?	no insurmountable traffic constraints after committed junction imps, no traffic evidence
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	++?	potential to provide cycle infrastructure
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption

1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Single -	There is the potential for the site to support priority and protected species.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Double -	Semi-improved grassland priority habitat. Development would like lead to indirect impacts to Pipe Green SBI (located North of the site).
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	Double -	The site is a priority habitat connected to established network of other priority and protected habitats (Only potential for negative).
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	The Landscape Character for the site is as follows: Cannock Chase and Cankwood Settled Farmlands. Landscape maintenance
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	Single -	Within the FM not in CRI or NF
	6 Will it result in the loss of historic landscape features?	Single -	Historic Environment: The Northern boundary of the site is adjacent to the following: Approach road Maple Hayes Park Burntwood. Site forms part of former landscape park of Maple Hayes.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site and no non-designated areas of archaeological importance on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	Single -	Development has the potential to affect the setting of Maple Hayes Grade II as it is within its historic grounds. It will also significantly reduce the gap between Maple Hayes and Lichfield.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	Single -	It will significantly reduce the gap between Maple Hayes and Lichfield but there will still be a discernable gap.
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There would be no impact on the historic views or skylines of the city.
	4 Is the site within a main settlement or a key rural settlement?	+++	Edge of settlement Lichfield

Sustainability Objective	Site Specific Question	Site Reference	Comment

Single -	
	2 Will it reduce the overall impact on traffic sensitive areas?	++?	no insurmountable traffic constraints after committed junction imps, no traffic evidence
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	Single -	walk restricted by site access width
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	SPZ 3
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Grade 2 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Flood Zone 1 Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx yield 40
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx yield 40
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	++	The site is located on the edge of the settlement of Lichfield and in close proximity to services within the settlement.
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not in or adjacent to a Key Rural Settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	++	Six individual Neighbourhood Shopping Centres area located within the settlement of Lichfield.
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
		956	
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	N	Unlikely to support protected or priority species.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Double -	Semi-improved grassland 2009 survey data. Priority habitat
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	Isolated from other surrounding priority and protected habitats
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	The Landscape Character for the site is as follows: Cannock Chase and Cankwood Settled Farmlands. Landscape maintenance
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	Single -	Within the FM not in CRI or NF
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site and no non-designated areas of archaeological importance on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There would be no impact on the historic views or skylines of the city.
	4 Is the site within a main settlement or a key rural settlement?	+++	Edge of settlement Lichfield

Sustainability Objective	Site Specific Question	Site Reference	Comment
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	The site lines adjacent to the settlement boundary and within easy access of services located within the settlement - Lichfield
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	?	
	2 Will it reduce the overall impact on traffic sensitive areas?	++	Less than 25
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	?	unable to determine means of access
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption

	3 Does the site allow for the re-use of existing buildings?	N	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Single -	
	2 Will it reduce the overall impact on traffic sensitive areas?	++	Less than 25
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	N	has access to all sustainable modes, can't walk to GP but site unable to improve that
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	SPZ 3
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Grade 2 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Flood Zone 1 Majority Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx yield 37
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx yield 37
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	++	The site is located on the edge of the settlement of Lichfield and in close proximity to services within the settlement.
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not in or adjacent to a Key Rural Settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	++	Six individual Neighbourhood Shopping Centres area located within the settlement of Lichfield.
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
		704	
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Single -	The site has the potential to support protected and priority species.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Double -	Semi-improved grassland priority species
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	Double -	The site is a priority habitat connected to established network of other priority habitats (Only potential for negative).
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	The Landscape character for the site is as follows: Cannock Chase and Cankwood Sandstone estasteland. Landscape enhancement
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not in FM Not in CRI not in NF
	6 Will it result in the loss of historic landscape features?	Single -	Western Boundary adjacent to the following Historic Environment Area: Ryknild Street (Knowle Hill to Catholme)
7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?		Single -	No Scheduled Ancient Monuments on or near to site. Western Boundary adjacent to the following Historic Environment Area: Ryknild Street (Knowle Hill to Catholme)
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	Double -	Site includes to Grade 2 Listed Building Knowle Lodge and attached screen wall and stable.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	Single -	Development of the site would go against the linear development along Knowle Lane.
	3 Does it safeguard historic views and valuable skylines of settlements?	Single -	There is the potential that development of this site would impact on the historic views or skylines of the city.
	4 Is the site within a main settlement or a key rural settlement?	++?	In GB. could be considered edge of settlement when taking account of the two SDAs (Cricket Lane and S of Lichfield). At this point in time sites close to but not directly adjacent to the settlement

Sustainability Objective	Site Specific Question	Site Reference	Comment
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+ (?)	The site lies adjacent to the settlement boundary and within easy access of services located within the settlement - Lichfield uncertainty due to link to other development.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Single -	
	2 Will it reduce the overall impact on traffic sensitive areas?	++	Less than 25
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	?	may be able to utilise facilities provided by Cricket Lane dependent on layout
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	SPZ 3
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Grade 2 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Flood Zone 1 Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx yield 24
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx yield 24
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	N	Site is not located within 480m of any area of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	++	The site is located on the edge of the settlement of Lichfield and in close proximity to services within the settlement.
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not in or adjacent to a Key Rural Settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	++	Six individual Neighbourhood Shopping Centres area located within the settlement of Lichfield.
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	It is unlikely that there would be any impact on the historic views or skylines of the city.
	4 Is the site within a main settlement or a key rural settlement?	++?	Within the Deanslade Farm SDA. Local Plan Strategy removes the site from the Green Belt. Edge of settlement alebeit on the other side of Falkland Road

Sustainability Objective	Site Specific Question	Site Reference	Comment
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+ (?)	The site lies adjacent to the settlement boundary and within easy access of services located within the settlement - Lichfield uncertainty due to link to other development.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Single -	
	2 Will it reduce the overall impact on traffic sensitive areas?	++	Less than 25
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	+	could connect to existing pedestrian infrastructure
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	SPZ 3
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Grade 2 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Flood Zone 1 Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx yield 23
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx yield 23
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	++	The site is located on the edge of the settlement of Lichfield and in close proximity to services within the settlement.
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not in or adjacent to a Key Rural Settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	++	Six individual Neighbourhood Shopping Centres area located within the settlement of Lichfield.
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
633			
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Single -	The site has the potential to support protected and priority species.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Double -	Semi-improved grassland priority species
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	Double -	The site is a priority habitat connected to established network of other priority habitats (Only potential for negative).
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	The Landscape character for the site is as follows: Cannock Chase and Cankwood Sandstone estasteland. Landscape enhancement
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not in FM Not in CRI not in NF
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	Single -	The site is adjacent to the following Historic Environment Area: Western Boundary Sandfields Lodge Sandfields House Lichfield
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	Single -	The Site is adjacent to Grade 2 listed building Sandfield Lodge and Sandfields House however they are separated by the road.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	It is unlikely that there would be any impact on the historic views or skylines of the city.
	4 Is the site within a main settlement or a key rural settlement?	++?	Within the Deanslade Farm SDA. Local Plan Strategy removes the site from the Green Belt. Edge of settlement alebeit on the other side of Falkland Road

	4 Is the site within a main settlement or a key rural settlement?	++	Within Settlement - Lichfield

Sustainability Objective	Site Specific Question	Site Reference	Comment
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	The site lies within the settlement boundary and within easy access of services located within the settlement - Lichfield
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	++	Brownfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	(+)?	Buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	++	semi derelict
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	++	
	2 Will it reduce the overall impact on traffic sensitive areas?	++?	no insurmountable traffic constraints after committed junction imps, no traffic evidence
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	N	access by all four sustainable modes already
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	+	Brownfield
	3 Will it reduce the proportion of waste sent to landfill?	+	Brownfield
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	SPZ 2
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	+	Majority Urban northern tip of site Grade 2 Brownfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	N	Flood Zone 1 Brownfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx yield 57
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx yield 57
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space. This does not include sites within 480m where access to these is restricted due to the Cross City Mainline.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	Double -	The site is located within an Existing Industrial Area
	2 Will it encourage new employment that is consistent with local needs?	Double -	The site is located within an Existing Industrial Area
	3 Will it encourage growth of existing businesses?	Double -	The site is located within an Existing Industrial Area
	4 Will it encourage small businesses to grow?	Double -	The site is located within an Existing Industrial Area
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	++	The site is located within Lichfield.
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not in or adjacent to a Key Rural Settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	++	Six individual Neighbourhood Shopping Centres area located within the settlement of Lichfield.
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
		1032	
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	N	The site is unlikely to support protected and priority species.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	Arable
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	Single -	The Mare Brook runs along the Eastern Boundary of the site potential for impact.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	The Landscape Character for the site is as follows: Cannock Chase and Cankwood Settled Farmlands. Landscape maintenance
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	The sites Northern boundary is adjacent to Mineral Consultation Areas: Sand and Gravel Drift.
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not in FM Not in CRI not in NF
	6 Will it result in the loss of historic landscape features?	N	The following Historic Environment Areas; The Northern tip is adjacent to the Cropmarks North of Streehay Linear feature ring Ditch Enclosure
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	Scheduled Ancient Monuments; Moated Site and Plunge Bath at the Manor House is within 720m CF of the northern tip of the site. The distance and development between the two mean impact will be negligible.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	It is unlikely that there would be any impact on the historic views or skylines of the city.
	4 Is the site within a main settlement or a key rural settlement?	++?	This site would be edge of settlement when taking account of East of Lichfield SDA which is currently under construction.

Sustainability Objective	Site Specific Question	Site Reference	Comment
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+ (?)	The site lines adjacent to the settlement boundary and within easy access of services located within the settlement - Lichfield uncertainty due to link to other development which is currently under construction.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No duu
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Single -	
	2 Will it reduce the overall impact on traffic sensitive areas?	++?	Streethay SDA considered sustainable, this an extention
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	N	access by all four sustainable modes already
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	SPZ 2
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Part Grade 2 Part Grade 3 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Flood Zone 1 Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx yield 200
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx yield 200
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	N	Site is not located within 480m of any area of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	++	The site is located on the edge of the settlement of Lichfield and in close proximity to services within the settlement (Edge of Streethay SDA commenced).
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not in or adjacent to a Key Rural Settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	++	Six individual Neighbourhood Shopping Centres area located within the settlement of Lichfield.
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
		646	
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	N	The site is unlikely to support protected and priority species.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Single -	The site is comprised of pasture land with Circuit Brook running its Northern boundary. Dimbles BAS is in close proximity in a North Westerly direction. Due to the sites connection via the brook to the BAS there is potential for indirect impact.
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	Single -	The Circuit Brook runs along the North West Boundary of the site potential for impact.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	The Landscape Character for the site is as follows: Cannock Chase and Cankwood Settled Farmlands. Landscape maintenance
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	Single -	Within the FM not in CRI or NF
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site and no non-designated areas of archaeological importance on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	It is unlikely that there would be any impact on the historic views or skylines of the city.
	4 Is the site within a main settlement or a key rural settlement?	Double -	Not adjacent to the settlement. Separated from E Ave by Grange Hill Farm. Minor road access approx 200 m from E Ave.

Sustainability Objective	Site Specific Question	Site Reference	Comment
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+ (?)	There is a clear gap between the settlement of Lichfield and the site which means that services located in Lichfield may be more difficult to access.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	Single + (?)	Buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No duu
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Single -	
	2 Will it reduce the overall impact on traffic sensitive areas?	++?	no insurmountable traffic constraints after committed junction imps, no traffic evidence
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	Double - ?	pedestrian/ cycle infrastructure likely to require third party land
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single - (?)	Majority of site no SPZ Eastern boundary SPZ2
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Grade 3 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Flood Zone 1 Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx yield 48
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx yield 48
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	++	The site is separate from the settlement of Lichfield however it has been assumed that the residents would use facilities within Lichfield Town Centre.
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not in or adjacent to a Key Rural Settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	++	Six individual Neighbourhood Shopping Centres area located within the settlement of Lichfield.
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

1070 (Beatrice Court)			
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Single -	The site has potential for protected and priority species . Survey data 2015 and 2016.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	The site comprises of built form and hardstanding.
	3 Will it protect statutory designated sites?	Double	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or water course.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district			
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	N	No landscape character
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not in FM Not in CRI not in NF
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	Single -	No Scheduled Ancient Monuments on or near to site. The following Historic Environment Areas are located within the site: Lichfield Town Defences and Hartshorn Inn, St John Street, Lichfield. Located within HUCA3: Lichfield Historic Core, identified as having potential to retain significant archaeological remains associated with early medieval, medieval and post medieval activity within the historic core.
	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	Single -	The following Grade II listed buildings are within the site: Nos.30 32 32A & 34 St John Street. To the south of the site is the Hospital of St John The Baptist Without The Barrs and Master's House, Hospital of St John both are Grade I and to the north is Lichfield St John's Preparatory School, 28 St John Street, Lichfield which is GII*. There is potential to sensitively development this site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	see assumption
	3 Will it preserve and enhance conservation areas including their setting?	N	Within Lichfield City Conservation Area. A sensitively designed scheme could preserve the character and appearance of the CA.
	4 Will it offer opportunities to bring heritage assets back into active use?	+	Nos.30 32 32A & 34 St John Street, GII, are currently unoccupied.
	4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character		
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	Single -	There is potential for development to impact on the historic views or skylines of the city. Sensitive design can mitigate this.
	4 Is the site within a main settlement or a key rural settlement?	++	Within Settlement - Lichfield

Sustainability Objective	Site Specific Question	Site Reference	Comment
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	The site lies within the settlement boundary and within easy access of services located within the settlement - Lichfield
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double +	Brownfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	Single + (?)	Buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No duu
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	++	
	2 Will it reduce the overall impact on traffic sensitive areas?	+	City Centre, 25% reduction trip rates
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	N	access to all 4 sustainable modes
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	+	Brownfield
	3 Will it reduce the proportion of waste sent to landfill?	+	Brownfield
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	SPZ 3
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	+	Urban Brownfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	N	Flood Zone 1 Brownfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx yield 40
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx yield 40
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	++	The site is located within Lichfield.
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not in or adjacent to a Key Rural Settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	++	Six individual Neighbourhood Shopping Centres area located within the settlement of Lichfield.
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
		105	Lichfield
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Single -	The site has the potential to support protected and priority species. (Hedgrows and mature trees)
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	Pastural Land
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or water course.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	The Landscape Character for the site is as follows: Cannock Chase and Cankwood Settled Farmlands. Landscape maintenance
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	Single -	Within the FM not in CRI or NF
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site and no non-designated areas of archaeological importance on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	It is unlikely that there would be any impact on the historic views or skylines of the city.
	4 Is the site within a main settlement or a key rural settlement?	Double -	on A51 Stafford road 200m from edge of settlement

Sustainability Objective	Site Specific Question	Site Reference	Comment
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+ (?)	There is a clear gap between the settlement of Lichfield and the site which means that services located in Lichfield may be more difficult to access.

	3 Will it protect statutory designated sites?	Double	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or water course.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	N	No Landscape Character
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not in FM Not in CRI not in NF
	6 Will it result in the loss of historic landscape features?	Single -	No Historic landscape features on site. Site is adjacent Stowe Pool and adjacent to Grade II Registered Park and Garden.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	Single -	Site within 200 metres CF to the following schedule Ancient Monuments: NE corner tower , wall and ditch of close defences. Site is also within historic core of city which is an area of significant archaeological potential.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	single -	The site is adjacent to 18, 20, 22, 24, 26 and 28 Dam Street and 2 Quonian's Lane all of which are Grade II. The site is also near to many other listed and locally listed buildings. Development has the potential to affect the setting but as site is already developed this is assessed as single -
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	Single -	The site is located within Lichfield City Conservation Area.
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	Single -	This is heavily dependent on sensitive design.
	3 Does it safeguard historic views and valuable skylines of settlements?	Single -	There is definite potential for development to impact on the historic views or skylines of the city. Sensitive design could mitigate this.
	4 Is the site within a main settlement or a key rural settlement?	++	Within Settlement - Lichfield

Sustainability Objective	Site Specific Question	Site Reference	Comment
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	The site lies within the settlement boundary and within easy access of services located within the settlement - Lichfield
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double +	Brownfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	Single + (?)	Buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Single -	
	2 Will it reduce the overall impact on traffic sensitive areas?	++	Less than 25
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	N	access by all four sustainable modes already
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	+	Brownfield
	3 Will it reduce the proportion of waste sent to landfill?	+	Brownfield
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	SPZ 3
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	+	Urban Brownfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	N	Flood Zone 1 Brownfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx yield 12
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx yield 12
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	Double -	The site is located within an Existing Industrial Area
	2 Will it encourage new employment that is consistent with local needs?	Double -	The site is located within an Existing Industrial Area
	3 Will it encourage growth of existing businesses?	Double -	The site is located within an Existing Industrial Area
	4 Will it encourage small businesses to grow?	Double -	The site is located within an Existing Industrial Area
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	++	The site is located within Lichfield.
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not in or adjacent to a Key Rural Settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	++	Six individual Neighbourhood Shopping Centres area located within the settlement of Lichfield.
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment

	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Double -	Semi-improved grassland
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	Double -	The site is a priority habitat connected to established network of other priority habitats (Only potential for negative).
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	Cannock Chase and Cankwood Sandstone Estatelands. Landscape enhancement
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not in FM Not in CRI not in NF
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site and no non-designated areas of archaeological importance on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	It is unlikely that development will impact on the historic views or skylines of the city.
	4 Is the site within a main settlement or a key rural settlement?	++	Within Settlement - Lichfield

Sustainability Objective	Site Specific Question	Site Reference	Comment
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	The site lines within the settlement boundary and within easy access of services located within the settlement - Lichfield
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	++	
	2 Will it reduce the overall impact on traffic sensitive areas?	++	Less than 25
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	N	access by all four sustainable modes already
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	SPZ 3
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Grade 2 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Flood Zone 1 Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx yield 27
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx yield 27
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	++	The site is located on the edge of the settlement of Lichfield and in close proximity to services within the settlement.
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not in or adjacent to a Key Rural Settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	++	Six individual Neighbourhood Shopping Centres area located within the settlement of Lichfield.
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	N	The site is unlikely to support priority and protected species
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	The site is majority hardstanding with a small area of grassland.
	3 Will it protect statutory designated sites?	Double	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or water course.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	N	No Landscape Character
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not in FM Not in CRI not in NF
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site and no non-designated areas of archaeological importance on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	It is unlikely that development will impact on the historic views or skylines of the city.
	4 Is the site within a main settlement or a key rural settlement?	++	Edge of settlement Lichfield

Sustainability Objective	Site Specific Question	Site Reference	Comment
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	The site lines adjacent to the settlement boundary and within easy access of services located within the settlement - Lichfield
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	++	Brownfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	++	Buildings demolished, site derelict
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Single -	
	2 Will it reduce the overall impact on traffic sensitive areas?	++?	no insurmountable traffic constraints after committed junction imps, no traffic evidence
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	N	No bus proposed
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	+	Brownfield
	3 Will it reduce the proportion of waste sent to landfill?	+	Brownfield
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	N	No SPZ
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	+	Grade 3 Brownfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	N	Flood Zone 1 Brownfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx yield 99 (net 22)
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx yield 99 (net 22)
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	Double -	The site is located within an Existing Industrial Area
	2 Will it encourage new employment that is consistent with local needs?	Double -	The site is located within an Existing Industrial Area
	3 Will it encourage growth of existing businesses?	Double -	The site is located within an Existing Industrial Area
	4 Will it encourage small businesses to grow?	Double -	The site is located within an Existing Industrial Area
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	++	The site is located within Lichfield.
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not in or adjacent to a Key Rural Settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	++	Six individual Neighbourhood Shopping Centres area located within the settlement of Lichfield.
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	Cannock Chase and Cankwood Settled Farmlands. Landscape maintenance
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not in FM Not in CRI not in NF
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site and no non-designated areas of archaeological importance on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	It is unlikely that development will impact on the historic views or skylines of the city.
	4 Is the site within a main settlement or a key rural settlement?	++	Edge of settlement Lichfield

Sustainability Objective	Site Specific Question	Site Reference	Comment
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	The site lies adjacent to the settlement boundary and within easy access of services located within the settlement - Lichfield
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double +	Brownfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	Single + (?)	Buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	++	
	2 Will it reduce the overall impact on traffic sensitive areas?	++?	no insurmountable traffic constraints after committed junction imps, no traffic evidence
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	N	access by all four sustainable modes already
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	+	Brownfield
	3 Will it reduce the proportion of waste sent to landfill?	+	Brownfield
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	SPZ 2
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	+	Grade 2 Brownfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	N	Flood Zone 1 Brownfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx yield 50
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx yield 50
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	Double -	This site is currently being used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	Double -	This site is currently being used for employment use.
	3 Will it encourage growth of existing businesses?	Double -	This site is currently being used for employment use.
	4 Will it encourage small businesses to grow?	Double -	This site is currently being used for employment use.
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	++	The site is located within Lichfield.
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not in or adjacent to a Key Rural Settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	++	Six individual Neighbourhood Shopping Centres area located within the settlement of Lichfield.
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
		422	Lichfield
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Single -	The site has the potential to support protected and priority species. (Bats)
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	Handstanding and improved grass land and built form.
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or water course.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	N	No Landscape Character
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not in FM Not in CRI not in NF
	6 Will it result in the loss of historic landscape features?	Double -	The site includes the following Landscape feature: Angelcroft Hotel Garden, Lichfield - formal gardens. The site is adjacent to the GII Registered Park and Garden and will affect its historic setting.
7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	Double -	The site is within the historic core of Lichfield immediately opposite the Cathedral Close, there is significant archaeological potential on this site and specifically the following Historic Environment Area is within the site: Conduit, Maple Hayes to Cathedral Close,	
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	Double -	The site includes two GII listed buildings: Westgate House and No.1 Westgate Cottage development within the grounds is likely to be significantly harmful to its setting. The site is also within the setting of many listed buildings including the Cathedral GI, Former Probate Court, Bird Street GII, Former Public Library and Art Gallery, Bird Street GII, 5 Beacon Street GI, Dimble House, Beacon Street, GI, 1-12 and 12A Vicar's Close GII*, 1, 2, 3, and 4 The Close GI, Newton's College and Attached Gate Piers, 1 - 9A The Close, GI*
	2 Will it improve and broaden access to, and understanding of, local heritage, historic sites, areas and buildings?	N	see assumption
	3 Will it preserve and enhance conservation areas including their setting?	Single -	Site is within Lichfield City Conservation Area. Given the sensitivity of this site it is unlikely that any development could preserve the CA.
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	Double -	Additional development on the site could harm existing character.
	3 Does it safeguard historic views and valuable skylines of settlements?	Single -	Development is likely to have an impact on the historic views or skylines of the city. This could be minimised with sensitive design.
	4 Is the site within a main settlement or a key rural settlement?	++	Within Settlement - Lichfield

Sustainability Objective	Site Specific Question	Site Reference	Comment
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	The site lines adjacent to the settlement boundary and within easy access of services located within the settlement - Lichfield
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double - (?)	Majority Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	++	
	2 Will it reduce the overall impact on traffic sensitive areas?	++	Less than 25
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	N	access by all four sustainable modes already
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	Majority Greenfield
	3 Will it reduce the proportion of waste sent to landfill?	N	Majority Greenfield
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	SPZ 3
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Single -	Urban Majority Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Flood Zone 1 Greenfield Majority
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	N	Approx yield 10
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	N	Approx yield 10
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	++	The site is located within Lichfield.
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not in or adjacent to a Key Rural Settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	++	Six individual Neighbourhood Shopping Centres area located within the settlement of Lichfield.
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
		648. Lichfield	
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	N	The site is unlikely to support priority and protected species
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Single -	Hardstanding and semi improved grass land
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or water course.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	N	No Landscape Character
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not in FM Not in CRI not in NF
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	Single -	No Scheduled Ancient Monuments on or near to the site. The following Historic Environment Areas: The eastern boundary of the site is adjacent to Churchyard, Church of Saint Michael Lichfield Cemetery. As this site is not developed it is assessed as single -
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	Double -	The site is opposite the following Grade 2* Listed Building Church of St Michael, Grade 2 Gregory Headstone, Grade 2 monument, Grade 2 Adie monument on the Eastern boundary. The site is in close proximity to the following Grade 2 Rotton Row Nos 59-67 and attached wall, Grade 2 Rotton Row Nos 53, 55 and 57 on its western boundary.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site

Sustainability Objective	Site Specific Question	Site Reference	Comment
		52	Lichfield
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Single -	The site has the potential to support protected and priority species. (Bats)
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	Hard Standing Build Form but site is adjacent to Stowe Pool SSSI, unlikely to impact on SSSI.
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or water course.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	N	No Landscape Character
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not in FM Not in CRI not in NF
	6 Will it result in the loss of historic landscape features?	Single -	No Historic landscape features on site. Site is adjacent Stowe Pool and adjacent to GII Registered Park and Garden.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	Single -	Site within 200 metres CF to the following schedule Ancient Monuments: NE corner tower , wall and ditch of close defences. Site is also within historic core of city which is an area of significant archaeological potential. Located within HUCA 3: Lichfield Historic Core which has been identified as having the potential to retain significant archaeological remains associated with early medieval, medieval and post medieval activity within the historic core.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	Double -	The site includes 1, 2 and 3 Quonians and 2, 4, 6 and 8 Dam Street all of which are GII. The site is adjacent to 10, 12, 14 and 16 Dam Street which are also all GII. The site is also near to many other listed and locally listed buildings. Development also has the potential to affect the setting of the Cathedral by affecting views across the site, more intensive development of the site could have a significant impact but sensitive design would mitigate this.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	+	A scheme would have the potential to broaden access to historic buildings on site.
	3 Will it preserve and enhance conservation areas including their setting?	Single -	The site is located within Lichfield City Conservation Area.
	4 Will it offer opportunities to bring heritage assets back into active use?	double ++	Number 1 Quonians GII is vacant as well as other listed buildings which are either vacant or partially vacant. A sensitive scheme could bring these back into a sustainable use.
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	Single -	This depends on sensitive design.
	3 Does it safeguard historic views and valuable skylines of settlements?	Double -	There is significant potential for development to impact on the historic views or skylines of the city. Sensitive design could mitigate this.
	4 Is the site within a main settlement or a key rural settlement?	++	Within Settlement - Lichfield

Sustainability Objective	Site Specific Question	Site Reference	Comment
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	The site lies within the settlement boundary and within easy access of services located within the settlement - Lichfield
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	++	Brownfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	Single + (?)	Buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU

14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	Single -	The site is located within the Town Centre Boundary of Lichfield. Outside Primary within Secondary Retail Area
	2 Will it encourage new employment that is consistent with local needs?	Single -	The site is located within the Town Centre Boundary of Lichfield. Outside Primary within Secondary Retail Area
	3 Will it encourage growth of existing businesses?	Single -	The site is located within the Town Centre Boundary of Lichfield. Outside Primary within Secondary Retail Area
	4 Will it encourage small businesses to grow?	Single -	The site is located within the Town Centre Boundary of Lichfield. Outside Primary within Secondary Retail Area
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	++	The site is located within Lichfield.
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not in or adjacent to a Key Rural Settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	++	Six individual Neighbourhood Shopping Centres area located within the settlement of Lichfield.
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
		425 Lichfield	
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	N	No protected or priority species present on site. Survey Data 2016
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Single -	Built Form Hard Standing semi improved Grass land
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or water course.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	N	No Landscape Character
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not in FM Not in CRI not in NF
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to the site. The following Historic Environment Areas: The western boundary of the site is adjacent to Churchyard, Church of Saint Michael Lichfield Cemetery. As the site is previously developed this is assessed as neutral.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	Single -	The site is adjacent to the Grade 2* Listed Church of St Michael, Grade 2 Gregory headstone, Grade 2 monument, Grade 2 Adie monument on the Eastern boundary.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	Single -	Development may impact on the historic views or skylines of the city.
	4 Is the site within a main settlement or a key rural settlement?	++	Within Settlement - Lichfield

Sustainability Objective	Site Specific Question	Site Reference	Comment
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	The site lies within the settlement boundary and within easy access of services located within the settlement - Lichfield
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	++	Brownfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	Single + (?)	Buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	+	
	2 Will it reduce the overall impact on traffic sensitive areas?	++	Less than 25
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	Single - ?	A5127 is a potential constraint to safe cycle access
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	+	Brownfield
	3 Will it reduce the proportion of waste sent to landfill?	+	Brownfield
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	SPZ 3
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	+	Urban brownfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	N	Flood Zone 1 Brownfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx yield 19
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx yield 19
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space. This does not include sites within 480m where access to these is restricted due to the Cross City Mainline.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	++	The site is located within Lichfield.
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not in or adjacent to a Key Rural Settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	++	Six individual Neighbourhood Shopping Centres area located within the settlement of Lichfield.
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
		54. Lichfield	
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Single -	The site has the potential to support protected and priority species, (Bats survey data 2015)
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	Built Form, Hard Standing
	3 Will it protect statutory designated sites?	Double	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or water course.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	N	No Landscape Character
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not in FM Not in CRI not in NF
	6 Will it result in the loss of historic landscape features?	Single -	No Historic landscape features on the site. North of site is visible from Stowe Pool and the Grade II Registered Park and Garden.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	Single -	The site is within the historic core of the city which is an area of significant archaeological potential.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	Single -	The site includes the locally listed: Former Regal Cinema, Tamworth Street, Lichfield. The site is within close proximity to Nos.26, 26A & 28 and 29 and 31 Tamworth Street, 1, 3, 5 and 7 Lombard Street all of which are GII. Development has the potential to affect the setting of these.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	+	The site is within Lichfield City Conservation Area. The condition of the site currently detracts from the appearance of the CA so sensitive re-development could improve this.
	4 Will it offer opportunities to bring heritage assets back into active use?	+	The locally listed former cinema is currently vacant and in poor condition development could retain and repair the important frontage and bring site back into use.
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	Single -	Development may impact on the historic views or skylines of the city.
	4 Is the site within a main settlement or a key rural settlement?	++	Within Settlement - Lichfield

Sustainability Objective	Site Specific Question	Site Reference	Comment

	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not in or adjacent to a Key Rural Settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	++	Six individual Neighbourhood Shopping Centres area located within the settlement of Lichfield.
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
		418. Lichfield	
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	N	The site is unlikely to support priority and protected species
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	Hardstanding
	3 Will it protect statutory designated sites?	Double	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or water course.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	N	No Landscape Character
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not in FM Not in CRI not in NF
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	Single -	The site is approx 40m CF from the Scheduled Ancient Monument - Grey Friars / Lichfield Friary and the site is within the historic core of the city which is an area of significant archaeological potential (associated with early medieval, medieval and post medieval activity within the historic core)
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	Single -	The site is opposite the following Grade 2 Listed 15 Sandford Street and is in close proximity to the following Grade 2 Listed Building 9 Sandford Street, Grade 2 Listed Building 28 Sandford Street. The site also has the potential to impact on the setting of the GI Cathedral if it impacts on views of the spire.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	Single -	The site is within the Lichfield City Conservation Area.
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	Single -	This would require a very sensitive design
	3 Does it safeguard historic views and valuable skylines of settlements?	Single -	It is likely that development will impact on the historic views or skylines of the city in particular long distance views of the cathedral. These can be mitigated with sensitive design.
	4 Is the site within a main settlement or a key rural settlement?	++	Within Settlement - Lichfield

Sustainability Objective	Site Specific Question	Site Reference	Comment

	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	++	The site is located within Lichfield.
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not in or adjacent to a Key Rural Settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	++	Six individual Neighbourhood Shopping Centres area located within the settlement of Lichfield.
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
		ELAA 58	Lichfield
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	N	The site is unlikely to support priority and protected species
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Double -	The site comprises of semi-improved grassland
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	Isolated priority habitat
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	N	No Landscape Character
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not in FM Not in CRI not in NF
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site. Site is adjacent to the Historic Environment Area: Site of Phoenix Foundry, Beacon Street, Lichfield
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	Single -	The northern boundary of the site adjoins the Lichfield City Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	It is unlikely that development will impact on the historic views or skylines of the city.
	4 Is the site within a main settlement or a key rural settlement?	++	Within Settlement - Lichfield

Sustainability Objective	Site Specific Question	Site Reference	Comment
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	The site lies within the settlement boundary and within easy access of services located within the settlement - Lichfield
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	++	Brownfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	++	
	2 Will it reduce the overall impact on traffic sensitive areas?	++?	
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	N	access to all 4 sustainable modes
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	+	Brownfield
	3 Will it reduce the proportion of waste sent to landfill?	+	Brownfield
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	SPZ 3
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	+	Urban Brownfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	N	Flood Zone 1 Brownfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx yield 39
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx yield 39
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.

	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	++	The site is located within Lichfield.
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not in or adjacent to a Key Rural Settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	++	Six individual Neighbourhood Shopping Centres area located within the settlement of Lichfield.
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
		60	Lichfield
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Single -	The site has the potential to support protected and priority species. (Bats)
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	The site comprises of building and hardstanding
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or water course.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	N	No Landscape Character
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not in FM Not in CRI not in NF
	6 Will it result in the loss of historic landscape features?	Single -	The site includes the following Landscape feature: Angelcroft Hotel Garden, Lichfield - formal gardens
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	Double -	The site is within the historic core of Lichfield immediately opposite the Cathedral Close, there is significant archaeological potential on this site and specifically the following Historic Environment Area is within the site: Conduit, Maple Hayes to Cathedral Close
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	The site include the GI* Angel Croft Hotel, Beacon Street, which is currently at risk and vacant. Development could bring the building back into use although development within the grounds could be harmful to its setting. The site is within the setting of many listed buildings including the Cathedral GI, Westgate House GI, No.1 Westgate Cottage GI, 5 Beacon Street GI, Dimple House, Beacon Street, GI, 1-12 and 12A Vicar's Close GI* therefore the assessment is neutral.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Site is within Lichfield City Conservation Area. The re-use of the building will improve the conservation area, other development may harm it.
	4 Will it offer opportunities to bring heritage assets back into active use?	++	The site include the GI* Angel Croft Hotel, Beacon Street, which is currently at risk and vacant. Development could bring the building back into use
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	Single -	Additional development on the site could harm existing character.
	3 Does it safeguard historic views and valuable skylines of settlements?	Single -	Development is likely to have an impact on the historic views or skylines of the city. This could be minimised with sensitive design.
	4 Is the site within a main settlement or a key rural settlement?	++	Edge of settlement Lichfield

Sustainability Objective	Site Specific Question	Site Reference	Comment
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	The site lies adjacent to the settlement boundary and within easy access of services located within the settlement - Lichfield
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	++	Brownfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	Single + (?)	Buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	++	Listed building vacant and falling into disrepair
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	++	
	2 Will it reduce the overall impact on traffic sensitive areas?	++	Less than 25
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	N	Access by all four sustainable modes already
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	+	Brownfield
	3 Will it reduce the proportion of waste sent to landfill?	+	Brownfield
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	SPZ 3
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	+	Urban Brownfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	N	Flood Zone 1 Brownfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	N	Approx yield 9
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	N	Approx yield 9
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	++	The site is located within Lichfield.
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not in or adjacent to a Key Rural Settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	++	Six individual Neighbourhood Shopping Centres area located within the settlement of Lichfield.
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
		1104 (East of Streetha Lichfield)	
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Single -	The site has the potential to support protected and priority species.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Single -	The site comprises of pastoral land and plantation woodland
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	Isolated from other surrounding priority and protected habitats
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Single -	Cannock Chase and Cankwood Settled Farmlands Landscape restoration
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not in FM Not in CRI not in NF
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	Single -	The site is located near to the Scheduled Ancient Monument: Moated site and plunge bath at the Manor House. Site is also adjacent to Ryknild Street (Knowle Hill to Catholme)
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	Single -	Close to Grade II Cedar House Ryknild Street. Grade 2 Streethay House Farmhouse Ryknild Street.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	Development will not impact on important views.
	4 Is the site within a main settlement or a key rural settlement?	++	Within Settlement - Lichfield

Sustainability Objective	Site Specific Question	Site Reference	Comment
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	The site lies within the settlement boundary and within easy access of services located within the settlement - Lichfield

Sustainability Objective	Site Specific Question	Site Reference	Comment
144 Lichfield			
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	N	The site is unlikely to support priority or protected species. Survey 2015-2016.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	The site comprises of built form, hardstanding garden and mature trees
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or water course.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	N	No Landscape Character
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not in FM Not in CRI not in NF
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	Single -	The following Historic landscape feature runs through the site: Lichfield Town Defences. The following Historic Feature is located within the site Site of St John's House/ Yeomanry House. Site lies partly within HUCA3: Lichfield Historic Core and HUCAS: Birmingham Road, previous archaeological interventions within the development area have encountered evidence for the medieval town ditch as well as surviving early archaeological deposits both within and outside the town boundary.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	Single -	Adjacent to Grade 2 No 45 St John Street. No 39 St John Street. Grade 1 Hospital of St John without the Barrs and Chapel. Grade 1 Master's House to rear of Hospital of St John. Development has potential to significantly impact the setting of these buildings. Carefully designed development will minimise this impact.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	Single -	Within Lichfield City Counservation Area but areas highlighted for improvement so development may improve CA
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	+	Sensitive design has potential to protect and enhance townscape character
	3 Does it safeguard historic views and valuable skylines of settlements?	Double -	Development may block important view of cathedral spires from Lichfield City Train Station.
	4 Is the site within a main settlement or a key rural settlement?	++	Within Settlement - Lichfield

Sustainability Objective	Site Specific Question	Site Reference	Comment
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	The site lies within the settlement boundary and within easy access of services located within the settlement - Lichfield

	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	++	The site is separate from the settlement of Lichfield however it has been assumed that the residents would use facilities within Lichfield Town Centre.
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not in or adjacent to a Key Rural Settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	++	Six individual Neighbourhood Shopping Centres area located within the settlement of Lichfield.
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
		164 Lichfield	
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	N	The site is unlikely to support priority or protected species
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	Hardstanding
	3 Will it protect statutory designated sites?	Double	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or water course.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	N	No Landscape Character
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not in FM Not in CRI not in NF
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	Single -	No Scheduled Ancient Monuments on or near to site and no non-designated areas of archaeological importance on site. Site lies partly within HUCA 4: Upper St John Street, which has been identified as having a high potential to retain archaeological remains associated with medieval suburban development beyond the historic core.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	single -	Site is adjacent to Grade II listed 69, 71 and 73 Upper Saint John Street, Lichfield. Development may affect its setting.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	Development will not impact on important views.
	4 Is the site within a main settlement or a key rural settlement?	++	Within Settlement - Lichfield

Sustainability Objective	Site Specific Question	Site Reference	Comment
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	The site lies within the settlement boundary and within easy access of services located within the settlement - Lichfield
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	++	Brownfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	++	
	2 Will it reduce the overall impact on traffic sensitive areas?	++	Less than 25
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	N	Access by all four sustainable modes already
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	+	Brownfield
	3 Will it reduce the proportion of waste sent to landfill?	+	Brownfield
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	SPZ 3
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	+	Urban Brownfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	N	Flood Zone 1 Brownfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	N	Approx yield 9
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	N	Approx yield 9
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	Double - (?)	The site is currently used to house storage units, employment use. (? Low level economic value or impact on Site Specific Question Responses)
	2 Will it encourage new employment that is consistent with local needs?	Double - (?)	The site is currently used to house storage units, employment use. (? Low level economic value or impact on Site Specific Question Responses)
	3 Will it encourage growth of existing businesses?	Double - (?)	The site is currently used to house storage units, employment use. (? Low level economic value or impact on Site Specific Question Responses)
	4 Will it encourage small businesses to grow?	Double - (?)	The site is currently used to house storage units, employment use. (? Low level economic value or impact on Site Specific Question Responses)
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	++	The site is located within Lichfield.
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not in or adjacent to a Key Rural Settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	++	Six individual Neighbourhood Shopping Centres area located within the settlement of Lichfield.
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Main Modifications 2018

Sustainability Objective	Site Specific Question	Site Reference	Comment
104			
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Double -	Protected and priority species are on site (Badgers, Bats survey data 2015)
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Single -	The site comprises of Cereal Fields, semi-improved grassland, mature hedgerows, woodland, build form.
	3 Will it protect statutory designated sites?	N	Not SAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	This site contains small areas of priority habitat which are isolated.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	Mease Lowlands Lowland village farmlands. Landscape enhancement
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not in FM Not in CRI not in NF
	6 Will it result in the loss of historic landscape features?	Single -	The site includes the following historic landscape features: Ridge and Furrow, North of Ashby Road, Wigginton and Ridge and Furrow, Arkall Farm, Wigginton
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	Single -	The site includes the Historic Environment Areas of: Ridge and Furrow, North of Ashby Road, Wigginton and Ridge and Furrow, Arkall Farm, Wigginton this will be lost through development of the site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	Double -	The site wraps all around the GII Arkall Farmhouse, Ashby Road, Wigginton which will totally alter its setting.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	+	Neighbouring Town
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	?	The location of the West Coast Mainline between the site the settlement acts as a significant barrier to the services located within the key rural settlement. Not known if pedestrian access along the Ashby Road B5493 is adequate
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	(+)?	Buildings on site (small number)
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Single -	
	2 Will it reduce the overall impact on traffic sensitive areas?	Double -	Evidence provided through Gungate corridor study shows that 1000 houses on this site would have negative impacts on the network in Tamworth
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	++	Potential to provide access to a bus service and pedestrian improvements
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	N	Not in a SPZ
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Majority Grade 3 Eastern boundary Grade 2 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Flood Zone 1 Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx Yield 1000
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx yield 1000
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	1 Is the site located outside and area of risk from flooding?	N	Site is not located within 480m of any area of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption

	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	N	Approx yield 9
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Outside LC and B
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not in or adjacent to a Key Rural Settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	No Neighbourhood Shopping Centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
		135	
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	N	It is unlikely for the site to support priority and protected species
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	The site is comprised of bare earth.
	3 Will it protect statutory designated sites?	Double -	Inside the Cannock Chase SAC 0-15km zone
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or watercourses present
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	Needwood Claylands, Settled farmlands, Objective landscape enhancement
	2 Will it protect sites of geological importance?	N	No RIGS site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site. No non-designated areas of archaeological interest on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	Single -	Site is adjacent to Gll Ridware Hall, Coach House and Stables, Hill Ridware
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not within or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	Single	Site is within the settlement boundary of Hill Ridware
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	Some of these services are located within the village centre the site is located adjacent to the settlement within access to those services.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	no buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Double -	

Sustainability Objective	Site Specific Question	Site Reference	Comment
	2 Will it reduce the overall impact on traffic sensitive areas?	+	Planning permission
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	?	not known whether planning consent included any transport obligations
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	N	Not in a SPZ
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Grade 3 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Flood Zone 1 Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx yield 42
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx yield 42
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption

	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	N	Site is not located within 480m of an area of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Outside LC and B
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not in or adjacent to a Key Rural Settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	No Neighbourhood Shopping Centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
		935	
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Single -	There is potential for protected priority and protected species.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Single -	The site comprises of hardstanding, built form, garden and mature trees. The site is linked to by Footherley to Griffins Covert BAS and Footherley SBI.
	3 Will it protect statutory designated sites?	Double -	inside the Cannock Chase SAC 0-15km zone
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	Single -	Footherley makes up the sites western boundary.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	Cannock Chase and Cankland, Sandstone Estatelands, landscape enhancement
	2 Will it protect sites of geological importance?	N	No RIGS site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	Double -	within MCA for Sand and Gravel Drift
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	Double -	No Scheduled Ancient Monuments on or near to site. Site includes the following Historic Environment Area: Ryknild Street Roman Road (Streety to Wall)
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage, historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not within or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	See assumption
	4 Is the site within a main settlement or a key rural settlement?	Double -	The site is isolated
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	Double -	The site is located away from these services
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	++	Brownfield majority
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	Single + (?)	buildings cover majority of site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Single -	

Sustainability Objective	Site Specific Question	Site Reference	Comment
	2 Will it reduce the overall impact on traffic sensitive areas?	+ ?	
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	Single - ?	unlikely to provide any sustainable transport infrastructure
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	+	Brownfield
	3 Will it reduce the proportion of waste sent to landfill?	+	Brownfield
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	SPZ 3
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	+	Grade 2 Majority brownfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Flood Zone 1 Site is Adjcent to Flood Zone 2 and 3. Brownfield and Greenfield. Adjacent to Footterley Brook, western part of site is in Flood Zone 3 (13%) and 2 (2%)
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx yield 26
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx yield 26
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Outside LC and B
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not in or adjacent to a Key Rural Settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	No Neighbourhood Shopping Centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Outside LC and B
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not in or adjacent to a Key Rural Settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	No Neighbourhood Shopping Centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
74			
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Single -	There is potential for the site to support protected and priority species
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	The site comprises of pastoral standing water (pond) and mature hedgerow.
	3 Will it protect statutory designated sites?	N	Not inside the SAC area
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or watercourses present
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	Needwood claylands, settled farmlands, landscape maintenance
	2 Will it protect sites of geological importance?	N	No RIGS site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	Single -	No Scheduled Ancient Monuments on or near to site. Site is adjacent to the following Historic Environment Area: to Manor Farm, Littlehay, Colton
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	Single -	Site is adjacent to Manor Farm, Littlehay which includes the Gill Chimney Stack, Littlehay Manor Farm, Colton
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not within or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	Single -	Development would not respect linear nature of existing settlement.
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	Single -	The site has a boundary with Colton
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	Some of these services are located within the village centre the site is located adjacent to the settlement within access to those services.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	no buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Single -	

Sustainability Objective	Site Specific Question	Site Reference	Comment
	2 Will it reduce the overall impact on traffic sensitive areas?	+ ?	
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	Single - ?	unlikely to provide any sustainable transport infrastructure
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	N	Not in SPZ
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Grade 3 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Flood Zone 1 Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx yield 40
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx yield 40
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	{+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	{+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Outside LC and B

	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not in or adjacent to a Key Rural Settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	No Neighbourhood Shopping Centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
		826	
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Single -	There is potential for the site to support protected and priority species (Mature trees)
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Single -	The comprises of semi-improved grassland and mature trees
	3 Will it protect statutory designated sites?	N	Not inside the SAC area
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	Isolated from other surrounding priority and protected habitats
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Single -	Trent Valley washlands, Riparian Alluvial Lowlands, landscape restoration
	2 Will it protect sites of geological importance?	N	No RIGS site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site. No non-designated areas of archaeological interest on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	Single -	The site has a boundary with Drayton Bassett
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	Some of these services are located within the village centre the site is located adjacent to the settlement within access to those services.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	no buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Single -	

Sustainability Objective	Site Specific Question	Site Reference	Comment
	2 Will it reduce the overall impact on traffic sensitive areas?	++	Less than 25 dwellings
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	Single -	unlikely to provide any sustainable transport infrastructure
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	N	Not in SPZ
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Grade 3 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Site falls into Flood Zone 2 South East Corner touches Flood Zone 3 Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx yield 20
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx yield 20
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	{+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	{+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Outside LC and B
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not in or adjacent to a Key Rural Settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	No Neighbourhood Shopping Centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	N	Unlikely to support protected and priority species 2015 survey data.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	The site comprises of arable land
	3 Will it protect statutory designated sites?	N	Not inside the SAC area
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or watercourses present
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	Mease Lowlands, Lowland village farmlands, Landscape maintenance
	2 Will it protect sites of geological importance?	N	No RIGS site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Within National Forest Core. Not within Forest of Mercia CRI
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	Double -	No Scheduled Ancient Monuments on or near to site. The following Historic Environment Areas are within the site: Crop marks , ring ditch and linear feature
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	Single -	Site is adjacent to the GII The Old School House, School Lane, Edingale and the unlisted Mary Howard Primary School, School Lane, Edingdale
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	Single -	The site has a boundary with Edingale
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	Some of these services are located within the village centre the site is located adjacent to the settlement within access to those services.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	no buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Double -	

Sustainability Objective	Site Specific Question	Site Reference	Comment
	2 Will it reduce the overall impact on traffic sensitive areas?	+ ?	
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	+?	potential to provide access to a bus service
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	N	Not in SPZ
	2 Does the site fall within the River Mease SAC?	Double -	The development has potential to negatively impact upon the conservation status of the River Mease SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double - ?	Grade 3 and Grade 4 even split hence (?)Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Flood Zone 1 (South Eastern boundary adjacent to Flood Zone 2) Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx yield 126
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx yield 126
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	{+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	{+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Outside LC and B
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not in or adjacent to a Key Rural Settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	No Neighbourhood Shopping Centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
13			
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Single -	There is potential for the site to support protected and priority species (Mature trees)
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Single -	The site area comprises of semi-improved grassland, scrub, gardens and built form and hardstanding
	3 Will it protect statutory designated sites?	N	Not inside the SAC area
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	Isolated from other surrounding priority and protected habitats
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	Mease Lowlands, Lowland village farmlands, landscape maintenance
	2 Will it protect sites of geological importance?	N	No RIGS site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Within National Forest Core. Not within Forest of Mercia CRI
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	Single -	No Scheduled Ancient Monuments on or near to site. Site is adjacent to the following Historic Environment Areas: Pit Alignment and Ridge and Furrow, Elford and Hollow Way and Deserted Settlement
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	Single -	Near to Elford Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	Single -	The site has a boundary with Elford
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	Some of these services are located within the village centre the site is located adjacent to the settlement within access to those services.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Single -	Partly greenfield with element of development
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	Single + (?)	part of the site has buildings on it
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Double -	

Sustainability Objective	Site Specific Question	Site Reference	Comment
	2 Will it reduce the overall impact on traffic sensitive areas?	++	Less than 25 dwellings
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	Double - ?	unlikely to provide any sustainable transport infrastructure
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	N	Not in SPZ
	2 Does the site fall within the River Mease SAC?	Double -	The development has potential to negatively impact upon the conservation status of the River Mease SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Grade 3 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Flood Zone 2 Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx yield 14
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx yield 14
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	{+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.

	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	The site comprises of arable land
	3 Will it protect statutory designated sites?	N	not inside the SAC area
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or watercourses present
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	Mease Lowlands, Lowland village farmlands, landscape maintenance
	2 Will it protect sites of geological importance?	N	No RIGS site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Within National Forest Core. Not within Forest of Mercia CRI
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	Double -	No Scheduled Ancient Monuments on or near to site. Site includes the following Historic Environment Areas: Ridge and Furrow, Raddle Farm, Elford
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	Single -	Adjacent to Elford Conservation Area.
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	Single -	This site is important open space, due to its topography any development would have a significant impact on the character of the village.
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	Single -	The site is within Elford
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	Some of these services are located within the village centre the site is located adjacent to the settlement within access to those services.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	no buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Double -	

Sustainability Objective	Site Specific Question	Site Reference	Comment
	2 Will it reduce the overall impact on traffic sensitive areas?	+ ?	
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	Double - ?	unlikely to provide any sustainable transport infrastructure
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	N	Not in SPZ
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Grade 3 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Flood Zone 1 Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx yield 46
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx yield 46
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	Single -	Site currently protected open space. Site currently identified as amenity open space within Open Space Assessment. Would result in the loss of area of accessible open space identified in Open Space Assessment. Provision of open space and play facilities are included on the Regulation 123 List. Potential for minor negative due to loss of existing open space currently located within site.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Outside LC and B
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not in or adjacent to a Key Rural Settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	No Neighbourhood Shopping Centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

	3 Will it protect statutory designated sites?	N	not inside the SAC area
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or watercourses present
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	Mease Lowlands, Lowland village farmlands, landscape maintenance
	2 Will it protect sites of geological importance?	N	No RIGS site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site. No non-designated areas of archaeological importance on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage, historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	+	Part of the site is within Harlaston Conservation Area. Sensitive design could improve the appearance of this site.
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	Single -	The site has a boundary with and is partly inside the settlement of Harlaston
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	Some of these services are located within the village centre, the site is located adjacent to the settlement within access to those services.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	++	The site is mainly farm buildings with a small element of undeveloped land.
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	Single + (?)	yes majority of site is farm buildings
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	++	potentially degraded land farm buildings and hard standing
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Double -	

Sustainability Objective	Site Specific Question	Site Reference	Comment
	2 Will it reduce the overall impact on traffic sensitive areas?	+ ?	
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	Double - ?	unlikely to provide any sustainable transport infrastructure
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	+	Brownfield
	3 Will it reduce the proportion of waste sent to landfill?	+	Brownfield
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	N	Not in SPZ
	2 Does the site fall within the River Mease SAC?	Double -	The development has potential to negatively impact upon the conservation status of the River Mease SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	+	Grade 3 Brownfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	N	Flood Zone 1 Majority Brownfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx yield 38
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx yield 38
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Outside LC and B
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not in or adjacent to a Key Rural Settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	No Neighbourhood Shopping Centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
		954	
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	N	Unlikely to support protected and priority species.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Double -	The site comprises of semi-improved grassland (in poor condition over grazed)
	3 Will it protect statutory designated sites?	Double -	In SAC area
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	Isolated from other surrounding priority and protected habitats (woodland)
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	Needwood Claylands, settled farmlands, landscape enhancement
	2 Will it protect sites of geological importance?	N	No RIGS site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site and no non-designated areas of archaeological importance on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	Single -	Site is near to Gll Ridware Hall, Coach House and Stables, Hill Ridware. Development of the site has potential to affect its setting.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality? 	2 Will it protect sites of geological importance?	N	No RIGS site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	Single -	No Scheduled Ancient Monuments on or near to site. Site is adjacent to the following Historic Environment Area: Water meadow, north of Kings Bromley
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Site is adjacent to Hopwas Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	Single -	The site has a boundary with Kings Bromley
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	Some of these services are located within the village centre, the site is located adjacent to the settlement within access to those services.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	no buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Single -	

Sustainability Objective	Site Specific Question	Site Reference	Comment
	2 Will it reduce the overall impact on traffic sensitive areas?	+ ?	
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	N	appears insufficient width at access to provide pedestrian facilities
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	N	Not in SPZ
	2 Does the site fall within the River Mease SAC?	N	
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Grade 2 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Flood Zone 1 (edge of zone 2)Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx yield 45
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx yield 45
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Outside LC and B
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not in or adjacent to a Key Rural Settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	No Neighbourhood Shopping Centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
686			
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	N	Unlikely to support protected and priority species.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	The site comprises of pastporal land
	3 Will it protect statutory designated sites?	N	not inside SAC area
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or watercourses present
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	Trent Valley washlands, riparian alluvial lowlands, landscape maintenance
	2 Will it protect sites of geological importance?	N	No RIGS site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.

1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Double -	Protected and priority species are on site (2015 site assessment)
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Double -	Site comprises of semi-improved grassland wetland, woodland standing water (Pond).
	3 Will it protect statutory designated sites?	Double -	In SAC area
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	Double -	The site is close proximity to Kings Bromley Pit SBI, the site consists of priority habitat connected to an established network of other priority habitats the site is directly adjacent to pools connected to the River Trent.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	Trent Valley washlands, riparian alluvial lowlands, landscape maintenance
	2 Will it protect sites of geological importance?	N	No RIGS site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	Double -	Sand and Gravel Solid
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	Double -	The whole site is within the historic landscape area: The Park / Manor Park, Kings Bromley - Landscape Park
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site and no non-designated areas of archaeological importance on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	Single -	Site is adjacent to a grade II Mallory and development may affect its setting.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	Single -	Site is adjacent to Kings Bromley Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site

	6 Will it result in the loss of historic landscape features?	Double -	The whole site is within the historic landscape area: Little Aston Hall Park, Landscape Park
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site and no non-designated areas of archaeological importance on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	Double -	Development would affect the setting of Little Aston Hall Gil, by developing within its historic landscape.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	Single -	Site is adjacent to Little Aston Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	Single -	The character of this site is historic parkland.
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	Single -	The site has a boundary with Little Aston
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	Some of these services are located within the village centre, the site is located adjacent to the settlement within access to those services.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	no buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Double -	

Sustainability Objective	Site Specific Question	Site Reference	Comment
	2 Will it reduce the overall impact on traffic sensitive areas?	+ ?	traffic distribution likely to include Walsall
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	+ ?	potential to provide access to a bus service
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	SPZ 3
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Majority Grade 3 and urban Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Flood Zone 1 Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx yield 315
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx yield 315
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	N	Site is not located within 480m of an area of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Outside LC and B
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not in or adjacent to a Key Rural Settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	No Neighbourhood Shopping Centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
1069			
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Single -	There is potential for the site to support protected and priority species
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Single -	The site comprises of woodland improved grassland and mature trees
	3 Will it protect statutory designated sites?	N	Not inside SAC area
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	Single -	A portion of the site is priority habitat and connected to other areas surrounding priority and protected habitats (woodland)
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	N	No landscape character
	2 Will it protect sites of geological importance?	N	No RIGS site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	Double -	Sand and Gravel Solid
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	Double -	The whole site is within the historic landscape area: Little Aston Hall Park, Landscape Park
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site and no non-designated areas of archaeological importance on site.

Double -	Development would affect the setting of Little Aston Hall GII, by developing within its historic landscape. It would also affect the setting of the GII Orangery.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	Single -	Site is not within a Conservation Area but is adjacent to the Little Aston Conservation area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	Single -	The character of this site is historic parkland.
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	Double -	outside settlement boundary and cut off from residential area by the golf course and hospital (Little Aston)
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	Some of these services are located within the village centre, the site is located adjacent to the settlement within access to those services.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	no buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Single -	

Sustainability Objective	Site Specific Question	Site Reference	Comment
	2 Will it reduce the overall impact on traffic sensitive areas?	+ ?	
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	?	unable to determine if sustainable travel improvements could be made
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	SPZ 3
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Grade 3 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Flood Zone 1 Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx yield 372
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx yield 372
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	N	Site is not located within 480m of an area of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Outside LC and B
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not in or adjacent to a Key Rural Settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	No Neighbourhood Shopping Centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
14			
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	N	Unlikely to support protected and priority species.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	The site comprises of improved grassland /garden
	3 Will it protect statutory designated sites?	N	Not inside SAC area
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or watercourses present
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	N	No landscape character
	2 Will it protect sites of geological importance?	N	No RIGS site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	Double -	Sand and Gravel Solid
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	N	Site is opposite Historic Environment Area of: Little Aston Hall Park, Landscape Park
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site and no non-designated areas of archaeological importance on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	Site is approx 115m CF from Gill Home Farmhouse, Aldridge Road, Little Aston
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site

	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	single -	Adjacent to settlement boundary albeit other side of the road (Little Aston)
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	Some of these services are located within the village centre the site is located adjacent to the settlement within access to those services.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	no buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Single -	

Sustainability Objective	Site Specific Question	Site Reference	Comment
	2 Will it reduce the overall impact on traffic sensitive areas?	+ ?	
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	Double - ?	unlikely to provide any sustainable transport infrastructure
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	SPZ 3
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Grade 3 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Flood Zone 1 Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx yield 41
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx yield 41
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	+	Site is located within 480m of one area of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Outside LC and B
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not in or adjacent to a Key Rural Settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	No Neighbourhood Shopping Centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
		896	
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	N	Unlikely to support protected and priority species.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	The site comprises of arable land
	3 Will it protect statutory designated sites?	N	Not inside SAC area
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or watercourses present
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	N	No landscape character
	2 Will it protect sites of geological importance?	N	No RIGS site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site and no unscheduled areas of archaeological importance are on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Site is not within or near to a Conservation Area .
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	single -	The site has a boundary with Little Aston
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	Some of these services are located within the village centre the site is located adjacent to the settlement within access to those services.

	3 Does the site allow for the re-use of existing buildings?	N	no buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Double -	

Sustainability Objective	Site Specific Question	Site Reference	Comment
	2 Will it reduce the overall impact on traffic sensitive areas?	+ ?	
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	?	unable to determine means of access
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	N	Not in SPZ
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Grade 3 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Majority of the site is Flood Zone 1 the northern tip to the site falls into Flood Zone 2 and 3. Majority Zone 1 Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx yield 150
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx yield 150
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Outside LC and B
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not in or adjacent to a Key Rural Settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	No Neighbourhood Shopping Centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
		481	
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	N	Unlikely to support protected and priority species.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Single -	The site comprises of arable and pasture land the site lies direct adjacent to Longdon Village Hall Field BAS potential for indirect impact
	3 Will it protect statutory designated sites?	Double -	Inside SAC area
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or watercourses present
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	Cannock Chase and Cankwood. Settled Farmlands. Landscape maintenance/ AONB
	2 Will it protect sites of geological importance?	N	No RIGS site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	Double -	No Scheduled Ancient Monuments on or near to site. The following Historic Environment Area is within the site Ridge and Furrow, Longdon.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	Single -	The site is adjacent to the Church of St James, Longdon GII*. Development could affect its setting.
	2 Will it improve and broaden access to, and understanding of, local heritage, historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	single -	The site has a boundary with Longdon
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	Some of these services are located within the village centre the site is located adjacent to the settlement within access to those services.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	no buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Double -

	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	SPZ3
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Grade 3 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Flood Zone 1 Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx yield 20
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx yield 20
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Outside LC and B
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not in or adjacent to a Key Rural Settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	No Neighbourhood Shopping Centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
		474	
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Single -	There is potential for the site to support protected and priority species (Bats)
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	The site comprises of arable land built form and hardstanding
	3 Will it protect statutory designated sites?	Double -	Inside SAC area
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No priority habitat or watercourses present
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Single -	Cannock Chase and Cankwood. Sandstone Estate lands: Innovatove landscape regeneration
	2 Will it protect sites of geological importance?	N	No RIGS site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	Double -	Sand and gravel solid
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site and no non-designated areas of archaeological importance on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	Single -	Site is adjacent to Stonnall Animal Pound which is GI1. Development will affect its setting.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	Single -	The site has a boundary with Stonnall
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	Some of these services are located within the village centre the site is located adjacent to the settlement within access to those services.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	no buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Single -	

Sustainability Objective	Site Specific Question	Site Reference	Comment
	2 Will it reduce the overall impact on traffic sensitive areas?	+ ?	No insurmountable traffic constraints locally but unable to comment about Walsall
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	Single - ?	unlikely to provide any sustainable travel infrastructure
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption

	4 Will it result in the loss of quality agricultural land?	Double -	Grade 3 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Flood Zone 1 Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx yield 24
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx yield 24
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Outside LC and B
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not in or adjacent to a Key Rural Settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	No Neighbourhood Shopping Centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
106			
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Single -	There is potential for the site to support protected and priority species (Great Crested Newts)
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Single -	The site comprises of garden and pastoral and standing water (pond)
	3 Will it protect statutory designated sites?	N	Not in SAC area
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	Isolated from other surrounding priority and protected habitats (pond)
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	Mease Lowlands Lowland village farmlands. Landscape enhancement
	2 Will it protect sites of geological importance?	N	No RIGS site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	Single -	No Scheduled Ancient Monuments on or near to site and no non-designated areas of archaeological importance on site. The Historic Environment Area of Ridge and Furrow, East of Wigginton is next to the site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Site is adjacent to Wigginton Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	Single -	The site has a boundary with Wigginton
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	Some of these services are located within the village centre the site is located adjacent to the settlement within access to those services.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	no buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Single -	

Sustainability Objective	Site Specific Question	Site Reference	Comment
	2 Will it reduce the overall impact on traffic sensitive areas?	++	Less than 25 dwellings
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	Single - ?	unlikely to provide any sustainable transport infrastructure
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	N	Not in SPZ
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Single -	Grade 4 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Flood Zone 1 Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx yield 18
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx yield 18
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	{+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	+	Site is located within 480m of one area of accessible open space.
	3 Will it provide new accessible green space?	{+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption

11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	N	Approx yield 8
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	N	Approx yield 8
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Outside LC and B
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not in or adjacent to a Key Rural Settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	No Neighbourhood Shopping Centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
		374	
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Single -	There is potential for the site to support protected and priority species (Bats)
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Single -	The site comprises of semi-improved grassland built form and hardstanding and gardens
	3 Will it protect statutory designated sites?	N	Not in SAC area
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	Single -	A portion of the site is priority habitat connected to a network of established priority habitats (Cannock Chase SAC)
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	Cannock Chase and Cankwood Settled farmlands Landscape maintenance/ AONB. This site is within Cannock Chase AONB and would score Double -regardless of landscape character.
	2 Will it protect sites of geological importance?	N	No RIGS site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	Double -	Sand and Gravel Solid
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	Double -	All of site within Beaudesert Hall Park, formal garden and landscape park.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site and no unscheduled areas of archaeological importance on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	single -	part inside part outside Settlement Boundary upper longdon
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	Some of these services are located within the village centre the site is located adjacent to the settlement within access to those services.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	yes
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	Single + (?)	northern section of site is built up
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Single -	

Sustainability Objective	Site Specific Question	Site Reference	Comment
	2 Will it reduce the overall impact on traffic sensitive areas?	+ ?	
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	N	unlikely to provide any sustainable travel infrastructure
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	N	Not in SPZ
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Grade 3 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Flood Zone 1 Part brownfield Part Greenfield. Majority Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	N	Approx yield 9
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	N	Approx yield 9
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Outside LC and B
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not in or adjacent to a Key Rural Settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	No Neighbourhood Shopping Centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Single -	There is potential for the site to support protected and priority species
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Single -	The site comprises of standing water (pond), improved grassland, semi-improved grassland, built form and bare soil and ruderal.
	3 Will it protect statutory designated sites?	N	Not in SAC area
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	Isolated from other surrounding priority and protected habitats
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	Cannock Chase and Cankwood Sandstone Hills and Heaths Landscape Maintenance
	2 Will it protect sites of geological importance?	N	No RIGS site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
		837	
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Double -	Protected and priority species know to be present on site survey data 2014 and 2015.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Double -	Western boundary of the site formed by the following Curborough Hall Farm hedgerows BAS, Eastern boundary fo the site is partial formed by the following Curborough House (south) hedgerows BAS. The site is highly likely to impact upon Curborough House, hedgerows SBI and Big Lyntus SBI ancient woodland.
	3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	Single -	The site comprises for the majority of arable and improved grassland, however a Curborough Brook runs through the centre of the site potential for impact.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Single -	The Landscape Character for the site is as follows: Cannock Chase and Cankwood Settled Farmlands. Landscape maintenance
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not in FM Not in CRI not in NF
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	Single -	The following Historic Environment Areas are located within the site: Linear Earthwork Streethay Linear feature Plough Headland, Villa Curborough, Moated site Curborough
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	Single -	The following listed building is adjacent to the site: Curborough Farmhouse
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	It is unlikely that there would be any impact on the historic views or skylines of the city.
	4 Is the site within a main settlement or a key rural settlement?	Double -	Separated by railway line and not adjacent to settlement
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+ (?)	There is a clear gap between the settlement of Lichfield and the site which means that services located in Lichfield may be more difficult to access.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	Single + (?)	Buildings on site
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No duu
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Double -	

Sustainability Objective	Site Specific Question	Site Reference	Comment
	2 Will it reduce the overall impact on traffic sensitive areas?	+	TA complete, no highway issues
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	++	TA provides details of sustainable travel mitigation package
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption

	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Grade 3 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Flood Zone 3 and 2 located on site running through the middle of the site in a north south direction. Majority Flood Zone 1 Majority Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx yield 750 (400)
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx yield 750 (400)
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	N	Site is not located within 480m of any area of accessible open space. This does not include sites within 480m where access to these is restricted due to the West Coast Mainline.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	Single -	Part of the site is currently being used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	Single -	Part of the site is currently being used for employment use.
	3 Will it encourage growth of existing businesses?	Single -	Part of the site is currently being used for employment use.
	4 Will it encourage small businesses to grow?	Single -	Part of the site is currently being used for employment use.
15 To enhance the vitality and viability of existing city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	++	The site is separate from the settlement of Lichfield however it has been assumed that the residents would use facilities within Lichfield Town Centre.
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not in or adjacent to a Key Rural Settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	++	Six individual Neighbourhood Shopping Centres area located within the settlement of Lichfield.
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Policy Absent	Old Policy L22	Alternative if suggested N/A	New Policy ST3	
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	N	(-) There is potential for protected and priority species.	N	(-) There is potential for protected and priority species.	
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	N Arable Land	N	N Arable Land	
	3 Will it protect statutory designated sites?	N	N	N	N	
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	N	N	N	
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	N	(Double -) potentially high sensitivity to development Cannock Chase and Cankwood Sandstone estatelands Landscape enhancement	N	(Double -) potentially high sensitivity to development Cannock Chase and Cankwood Sandstone estatelands Landscape enhancement	
	2 Will it protect sites of geological importance?	N	(N) no RIGS in area	N	(N) no RIGS in area	
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	(Double -) only potential to reduce landscape connectivity	N	(Double -) only potential to reduce landscape connectivity	
	4 Will it lead to the sterilisation of mineral resources?	N	(N) Not in a mineral consultation area	N	(N) Not in a mineral consultation area	
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	(N) Not within Forest of Mercia CRI or National Forest.	N	(N) Not within Forest of Mercia CRI or National Forest.	
	6 Will it result in the loss of historic landscape features?	N	(N) close proximity to Historic Landscape feature Lichfield Canal - Wyrley and Essington Extension Canal	N	(N) close proximity to Historic Landscape feature Lichfield Canal - Wyrley and Essington Extension Canal	
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	N	N	N	
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	N	N	N	
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	N	N	N	
	3 Will it preserve and enhance conservation areas including their setting	N	N	N	N	
	4 Will it offer opportunities to bring heritage assets back into active use?	N	N	N	N	
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	N	N	N	
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	N	N	N	

Sustainability Objective	Site Specific Question	Policy Absent	Old Policy L22	Alternative if suggested N/A	New Policy ST3	
	3 Does it safeguard historic views and valuable skylines of settlements?	N	N	N	N	
	4 Is the site within a main settlement or a key rural settlement?	N	(Double +) The site is within a main settlement	N	(Double +) The site is within a main settlement	
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	N	(Double +) The site/infrastructure will improve access to services and enable traffic to move efficiently around the settlement.	N	(Double +) The site/infrastructure will improve access to services and enable traffic to move efficiently around the settlement.	
5 Maximise the use of previously developed land/buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	N	(Double -) yes	N	(Double -) yes	
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	N	N	N	
	3 Does the site allow for the re-use of existing buildings?	N	N	N	N	
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	N	N	N	
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Double -	Double + Location of the route links SDAs with neighbouring services and facilities	N	Double +	
	2 Will it reduce the overall impact on traffic sensitive areas?	Double -	Double + the route will provide an alternative to traffic sensitive areas in the city centre	N	Double+	
	3 Will it help develop walking, cycling, rail and bus networks to enable residents access to employment, services and facilities?	Double -	Double+ Route will also deliver pedestrian and cycle infrastructure and provide a route for a bus service	N	Double+	
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	(single + ?) linked to potential changes in traffic movement.	N	(single + ?) linked to potential changes in traffic movement.	
	2 Will it encourage prudent use of energy?	N	N	N	N	
	4 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	N	N	N	
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	N	N	N	
	2 Will it increase waste recovery and recycling?	N	N	N	N	
	3 Will it reduce the proportion of waste sent to landfill?	N	N	N	N	
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	N	(Single -)SPZ 3 Greenfield	N	(Single -)SPZ 3 Greenfield	
	2 Does the site fall within the River Mease SAC?	N	(N) not in SAC	N	(N) not in SAC	
	3 Is the site within or directly connected by road to an AQMA?	N	(N) not in a AQMA	N	(N) not in a AQMA	
	5 Will it result in the loss of quality agricultural land?	N	(Double - ?) Part Urban Part Grade 2 Greenfield	N	(Double - ?) Part Urban Part Grade 2 Greenfield

15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	N	N	N	
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	N	N	(Single -) potential to improve accessibility to Fradley	
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	N	N	N	
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	N	N	N	
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	N	N	N	

Sustainability Objective	Site Specific Question	Policy Absent	Old Policy L26	Alternative if suggested N/A	New Policy E2	
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	N	(-) There is potential for protected and priority species (loss of buildings that may support Bats).	N	(-) There is potential for protected and priority species (loss of buildings that may support Bats).	
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	N	N	N	
	3 Will it protect statutory designated sites?	N	N	N	N	
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	N	N	N	
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	N	N	N	N	
	2 Will it protect sites of geological importance?	N	N	N	N	
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	N	N	N	
	4 Will it lead to the sterilisation of mineral resources?	N	N	N	N	
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	N	N	N	
	6 Will it result in the loss of historic landscape features?	N	N	N	N	
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	(-) there is potentially for impact.	N	(-) there is potentially for impact.	
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	(-) there is potentially for impact.	N	(-) there is potentially for impact.	
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	N	N	N	
	3 Will it preserve and enhance conservation areas including their setting	N	(-) there is potentially for impact.	N	(-) there is potentially for impact.	
	4 Will it offer opportunities to bring heritage assets back into active use?	N	N	N	N	
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	(+) there is a potential for positive impact	N	(+) there is a potential for positive impact	
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	(+) there is a potential for positive impact	N	(+) there is a potential for positive impact	

Sustainability Objective	Site Specific Question	Policy Absent	Old Policy L26	Alternative if suggested N/A	New Policy E2	
	3 Does it safeguard historic views and valuable skylines of settlements?	N	N	N	N	
	4 Is the site within a main settlement or a key rural settlement?	N	N	N	N	
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	N	N	N	N	
5 Maximise the use of previously developed land/buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	N	(?) dependant on site location	N	(?) dependant on site location	
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	N	N	N	
	3 Does the site allow for the re-use of existing buildings?	N	(?) dependant on site location	N	(?) dependant on site location	
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N		N		
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	N	N	N	N	
	2 Will it reduce the overall impact on traffic sensitive areas?	N	N Same number of vehicle movements and many areas where rear servicing not possible	N	N	
	3 Will it help develop walking, cycling, rail and bus networks to enable residents access to employment, services and facilities?	N	N	N	N	
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	N	N	N	
	2 Will it encourage prudent use of energy?	N	N	N	N	
	4 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	N	N	N	
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	N	N	N	
	2 Will it increase waste recovery and recycling?	N	N	N	N	
	3 Will it reduce the proportion of waste sent to landfill?	N	N	N	N	
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	N	(?) dependant on site location	N	(?) dependant on site location

	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	N	N	N	N	N
5 Maximise the use of previously developed land/buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	N	(Double -) Greenfield	(Double -) Greenfield	(Double -) Greenfield	(Double -) Greenfield (note route would have been whilst operational brownfield, abandonment 60 plus years)
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	N	N	N	N
	3 Does the site allow for the re-use of existing buildings?	N	N	N	N	N
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	N	N	N	N
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	N	Single +	Single +	Single +	Single +
	2 Will it reduce the overall impact on traffic sensitive areas?	N	N	N not related to vehicular traffic	N	N
	3 Will it help develop walking, cycling, rail and bus networks to enable residents access to employment, services and facilities?	N	Single +	Single +	Single +	Single +
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	N	Single + reference to sustainable travel	N	Single + reference to sustainable travel
	2 Will it encourage prudent use of energy?	N	N	N	N	N
	4 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	N	N	N	N
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	N	N	N	N
	2 Will it increase waste recovery and recycling?	N	N	N	N	N
	3 Will it reduce the proportion of waste sent to landfill?	N	N	N	N	N
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	N	(?) SPZ 3 impact unknown.	(?) SPZ 3 impact unknown.	(?) SPZ 3 impact unknown.	(?) SPZ 3 impact unknown.
	2 Does the site fall within the River Mease SAC?	N	(N) not in SAC	(N) not in SAC	(N) not in SAC	(N) not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	(N) not in AQMA	(N) not in AQMA	(N) not in AQMA	(N) not in AQMA
	5 Will it result in the loss of quality agricultural land?	N	(Double -) Grade 2	(Double -) Grade 2	(Double -) Grade 2	(Double -) Grade 2

Sustainability Objective	Site Specific Question	Policy Absent	Old Policy Emp. 11	Alternative if suggested IWA	New Policy IP2	Amended New Policy IP2
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	N	(N) Flood Zone 1	(N) Flood Zone 1	(N) Flood Zone 1	(N) Flood Zone 1
	2 Will there be an opportunity for flood risk reduction?	N	N	(Double +) Sud reference	N	(Double +) Sud reference
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	N	N	N	N	N
	2 Will it increase the range and affordability of housing for all social groups?	N	N	N	N	N
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	N	N	N	N	N
	4 Will it meet the needs of the travelling community and show people?	N	N	N	N	N
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	N	N	N	N	N
	2 Will it support a healthy lifestyle including opportunities for recreational/physical activity?	N	(Double +) creation of open space	(Double +) creation of open space	(Double +) creation of open space	(Double +) creation of open space
	3 Will it provide new accessible green space?	N	(Double +) creation of open space	(Double +) creation of open space	(Double +) creation of open space	(Double +) creation of open space
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	N	N	N	N
	2 Will it contribute to a safe built environment?	N	N	N	N	N
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	N	N	N	N
	2 Will it encourage new employment that is consistent with local needs?	N	N	N	N	N
	3 Will it encourage growth of existing businesses?	N	N	N	N	N
	4 Will it encourage small businesses to grow?	N	N	N	N	N

Sustainability Objective	Site Specific Question	Policy Absent	Old Policy Emp. 11	Alternative if suggested IWA	New Policy IP2	Amended New Policy IP2
15 To enhance the vitality and viability of existing city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	(Double +) Increase in green infrastructure within Lichfield	(Double +) Increase in green infrastructure within Lichfield	(Double +) Increase in green infrastructure within Lichfield	(Double +) Increase in green infrastructure within Lichfield
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	N	N	N	N
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	N	N	N	N
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	N	N	N	N
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	N	N	N	N

Sustainability Objective	Site Specific Question		Policy Absent	Old Policy NA1	Alternative if suggested AONB Option	New Policy NR10
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?		N	N	N	N
	2 Will it conserve protected/ priority habitats and local nature conservation sites?		N	N	N	(+) Improvement to priority habitat (hedgerows)
	3 Will it protect statutory designated sites?		N	N	N	N
	4 Will it encourage ecological connectivity (including green corridors and water courses)?		N	N	N	(+) increase habitat connectivity
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?		N	(Double +) Conserve and enhance landscape	(Double +) landscape maintained. Preserve the landscape.	(Double +) avoid adverse impact on the landscape. Preserve the landscape.
	2 Will it protect sites of geological importance?		N	(N) no RIGS in area	(N) no RIGS in area	(N) no RIGS in area
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?		N	(Single -) Development will not be permitted except where proposals accord with Green Belt policy and are compatible with the conservation of the natural beauty of the area. (protect)	(single +) inherent landscape value are maintained (protect)	(Double +) Support will be given to proposals which enhance the beneficial use of the West Midlands Green Belt whilst retaining its openness. (Protect and promote)
	4 Will it lead to the sterilisation of mineral resources?		N	(N) North tip of AONB within Mineral Consultation areas: Sand and Gravel Solid.	(N) North tip of AONB within Mineral Consultation areas: Sand and Gravel Solid.	(N) North tip of AONB within Mineral Consultation areas: Sand and Gravel Solid.
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?		N	(Single +) Southern part of the AONB falls within the Forest of Mercia potential for improvements through enhancement of landscape.	(Single +) Southern part of the AONB falls within the Forest of Mercia potential for improvements through enhancement of landscape.	(Double +) Southern part of the AONB falls within the Forest of Mercia potential for improvements through enhancement of landscape and field boundary treatments and gapping up of hedgerows.
	6 Will it result in the loss of historic landscape features?		N	(N) No mention of Historic Landscape features.		(Double +) support the safeguarding and re-creation of the historic landscape feature.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?		N	N	N	N
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?		N	N	N	N
	2 Will it improve and broaden access to, and understanding of, local heritage, historic sites, areas and buildings?		N	N	N	N
	3 Will it preserve and enhance conservation areas including their setting		N	N	N	N
	4 Will it offer opportunities to bring heritage assets back into active use?		N	N	N	N
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?		N	(Double +) where development is acceptable it will be of the highest standards of design.	(Double +) where development is acceptable it will be of the highest standards of design.	(Double +) development will be of high quality.
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?		N	(Double +) where development is acceptable it will be of the highest standards of design.	(Double +) where development is acceptable it will be of the highest standards of design.	(Double +) development will be of high quality.

Sustainability Objective	Site Specific Question		Policy Absent	Old Policy NA1	Alternative if suggested AONB Option	New Policy NR10
	3 Does it safeguard historic views and valuable skylines of settlements?		N	N	N	N
	4 Is the site within a main settlement or a key rural settlement?		N	N	N	N
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?		N	N	N	N
5 Maximise the use of previously developed land/buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?		N	N	N	N

	2 Will it reduce the number of working age residents who have no, or lower level qualifications?		N	N	N	N

Sustainability Objective	Site Specific Question		Policy Absent	Old Policy Lichfield 3	Alternative if suggested	New Policy Lichfield (NEW)
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?		N	N	N	N
	2 Will it conserve protected/ priority habitats and local nature conservation sites?		N	N	N	N
	3 Will it protect statutory designated sites?		N	N	N	N
	4 Will it encourage ecological connectivity (including green corridors and water courses)?		N	N	N	N
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?		N	(N) No Landscape Character	N	(N) No Landscape Character
	2 Will it protect sites of geological importance?		N	(N) no RIGS in area	N	(N) no RIGS in area
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?		N	(N) No landscape character within or adjacent to areas	N	(N) No landscape character within or adjacent to areas
	4 Will it lead to the sterilisation of mineral resources?		N	(N) Not in a mineral consultation area	N	(N) Not in a mineral consultation area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?		N	(N) not in FOM, CRI, NF	N	(N) not in FOM, CRI, NF
	6 Will it result in the loss of historic landscape features?		N	N	N	N
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?		N	N	N	N
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?		N	N	N	N
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?		N	N	N	N
	3 Will it preserve and enhance conservation areas including their setting		N	N	N	N
	4 Will it offer opportunities to bring heritage assets back into active use?		N	N	N	N
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?		N	N	N	N
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?		N	N	N	N

Sustainability Objective	Site Specific Question		Policy Absent	Old Policy Lichfield 3	Alternative if suggested	New Policy Lichfield (NEW)
	3 Does it safeguard historic views and valuable skylines of settlements?		N	N	N	N
	4 Is the site within a main settlement or a key rural settlement?		N	N	N	N
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?		N	N	N	N
5 Maximise the use of previously developed land/buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?		N	(Double +) No land previously developed	N	(Double +) No land previously developed
	2 Is the site capable of supporting higher density development and/or a mix of uses?		N	N	N	N
	3 Does the site allow for the re-use of existing buildings?		N	N	N	N
	4 Will it reduce the amount of derelict, degraded and underused land within the District?		N	(Single +) May encourage the reuse of underused buildings	N	(Single +) May encourage the reuse of underused buildings
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?		N	N	N	N
	2 Will it reduce the overall impact on traffic sensitive areas?		N	N	N	N
	3 Will it help develop walking, cycling, rail and bus networks to enable residents access to employment, services and facilities?		N	N	N	N
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?		N	N	N	N
	2 Will it encourage prudent use of energy?		N	N	N	N
	4 Will it provide opportunities for additional renewable energy generation capacity within the District?		N	N	N	N
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?		N	N	N	N
	2 Will it increase waste recovery and recycling?		N	N	N	N
	3 Will it reduce the proportion of waste sent to landfill?		N	N	N	N
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?		N	(?) SPZ 3, impact on protection zones unknown.	N	(?) SPZ 3, impact on protection zones unknown.
	2 Does the site fall within the River Mease SAC?		N	(N) not in SAC	N	(N) not in SAC
	3 Is the site within or directly connected by road to an AQMA?		N	(N) Not in AQMA	N	(N) Not in AQMA
	5 Will it result in the loss of quality agricultural land?		N	(N)Brownfield	N	(N)Brownfield

Sustainability Objective	Site Specific Question		Policy Absent	Old Policy Lichfield 3	Alternative if suggested	New Policy Lichfield (NEW)
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?		N	(N) Flood Zone 1	N	(N) Flood Zone 1
	2 Will there be an opportunity for flood risk reduction?		N	N	N	N
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?		N	N	N	N
	2 Will it increase the range and affordability of housing for all social groups?		N	N	N	N
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?		N	N	N	N
	4 Will it meet the needs of the travelling community and show people?		N	N	N	N
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?		N	N	N	N
	2 Will it support a healthy lifestyle including opportunities for recreational/physical activity?		N	N	N	N
	3 Will it provide new accessible green space?		N	N	N	N
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?		N	N	N	N
	2 Will it contribute to a safe built environment?		N	N	N	N
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?		N	N	N	N
	2 Will it encourage new employment that is consistent with local needs?		N	N	N	Single +
	3 Will it encourage growth of existing businesses?		N	N	N	(Single +) Protection and enlargement of retail area
	4 Will it encourage small businesses to grow?		N	N	N	(Single +) Protection and enlargement of retail area

Sustainability Objective	Site Specific Question		Policy Absent	Old Policy Lichfield 3	Alternative if suggested	New Policy Lichfield (NEW)
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?		N	N	N	(Single +) will enable additional retail provision
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?		N	N	N	N
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?		N	N	N	N
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?		N	N	N	N
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?		N	N	N	N

Sustainability Objective	Site Specific Question		Policy Absent	Old Policy EMP.2,L9,L10,B21,EA13	Alternative if suggested	New Policy EMP1	New Policy Main Modifications EMP1
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?		N	N	N	N	N

Sustainability Objective	Site Specific Question		Policy Absent	Old Policy EMP.2,L9,L10,B21,EA13	Alternative if suggested	New Policy EMP1	New Policy Main Modifications EMP1
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?		N	N	N	N	N
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?		N	N	N	N	N
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?		N	N	N	N	N
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?		N	N	N	N	N
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?		N	N	N	N	N

Sustainability Objective	Site Specific Question		New Policy MM1	
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?		? Review to cover all aspects of Local Plan Strategy, therefore clear potential impact, significance unknown.	
	2 Will it conserve protected/ priority habitats and local nature conservation sites?		? Review to cover all aspects of Local Plan Strategy, therefore clear potential impact, significance unknown.	
	3 Will it protect statutory designated sites?		? Review to cover all aspects of Local Plan Strategy, therefore clear potential impact, significance unknown.	
	4 Will it encourage ecological connectivity (including green corridors and water courses)?		? Review to cover all aspects of Local Plan Strategy, therefore clear potential impact, significance unknown.	
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?		? Review to cover all aspects of Local Plan Strategy, therefore clear potential impact, significance unknown.	
	2 Will it protect sites of geological importance?		? Review to cover all aspects of Local Plan Strategy, therefore clear potential impact, significance unknown.	
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?		? Review to cover all aspects of Local Plan Strategy, therefore clear potential impact, significance unknown.	
	4 Will it lead to the sterilisation of mineral resources?		? Review to cover all aspects of Local Plan Strategy, therefore clear potential impact, significance unknown.	
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?		? Review to cover all aspects of Local Plan Strategy, therefore clear potential impact, significance unknown.	
	6 Will it result in the loss of historic landscape features?		? Review to cover all aspects of Local Plan Strategy, therefore clear potential impact, significance unknown.	
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?		? Review to cover all aspects of Local Plan Strategy, therefore clear potential impact, significance unknown.	
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?		? Review to cover all aspects of Local Plan Strategy, therefore clear potential impact, significance unknown.	
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?		? Review to cover all aspects of Local Plan Strategy, therefore clear potential impact, significance unknown.	
	3 Will it preserve and enhance conservation areas including their setting		? Review to cover all aspects of Local Plan Strategy, therefore clear potential impact, significance unknown.	
	4 Will it offer opportunities to bring heritage assets back into active use?		? Review to cover all aspects of Local Plan Strategy, therefore clear potential impact, significance unknown.	
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?		? Review to cover all aspects of Local Plan Strategy, therefore clear potential impact, significance unknown.	
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?		? The appropriateness of existing settlement hierarchy clearly identified as an aspect to be reviewed (bullet 6) will be considered, potential impact significance

Sustainability Objective	Site Specific Question		New Policy MM1	
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?		? Review to cover all aspects of Local Plan Strategy, therefore clear potential impact, significance unknown.	
	2 Will there be an opportunity for flood risk reduction?		? Review to cover all aspects of Local Plan Strategy, therefore clear potential impact, significance unknown.	
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?		? Potential for housing land supply to meet objectively assessed need clearly identified as an aspect to be reviewed (bullet 1) will be considered, potential impact significance unknown.	
	2 Will it increase the range and affordability of housing for all social groups?		? Potential for housing land supply to meet objectively assessed need clearly identified as an aspect to be reviewed (bullet 1) will be considered, potential impact significance unknown.	
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?		? Potential for housing land supply to meet objectively assessed need clearly identified as an aspect to be reviewed (bullet 1) will be considered, potential impact significance unknown.	
	4 Will it meet the needs of the travelling community and show people?		? Potential for housing land supply to meet objectively assessed need clearly identified as an aspect to be reviewed (bullet 7) will be considered, potential impact significance unknown.	
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?		? Review to cover all aspects of Local Plan Strategy, therefore clear potential impact, significance unknown.	
	2 Will it support a healthy lifestyle including opportunities for recreational/physical activity?		? Review to cover all aspects of Local Plan Strategy, therefore clear potential impact, significance unknown.	
	3 Will it provide new accessible green space?		? Review to cover all aspects of Local Plan Strategy, therefore clear potential impact, significance unknown.	
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?		? Review to cover all aspects of Local Plan Strategy, therefore clear potential impact, significance unknown.	
	2 Will it contribute to a safe built environment?		? Review to cover all aspects of Local Plan Strategy, therefore clear potential impact, significance unknown.	
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?		? Potential for housing land supply to meet objectively assessed need clearly identified as an aspect to be reviewed (bullet 4) will be considered, potential impact significance unknown.	
	2 Will it encourage new employment that is consistent with local needs?		? Potential for housing land supply to meet objectively assessed need clearly identified as an aspect to be reviewed (bullet 4) will be considered, potential impact significance unknown.	
	3 Will it encourage growth of existing businesses?		? Potential for housing land supply to meet objectively assessed need clearly identified as an aspect to be reviewed (bullet 4) will be considered, potential impact significance unknown.	
	4 Will it encourage small businesses to grow?		? Potential for housing land supply to meet objectively assessed need clearly identified as an aspect to be reviewed (bullet 4) will be considered, potential impact significance unknown.	

Sustainability Objective	Site Specific Question		New Policy MM1	
15 To enhance the vitality and viability of existing city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?		? Potential for housing land supply to meet objectively assessed need clearly identified as an aspect to be reviewed (bullet 6) will be considered, potential impact significance unknown.	
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?		? Potential for housing land supply to meet objectively assessed need clearly identified as an aspect to be reviewed (bullet 6) will be considered, potential impact significance unknown.	
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?		? Potential for housing land supply to meet objectively assessed need clearly identified as an aspect to be reviewed (bullet 6) will be considered, potential impact significance unknown.	
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?		? Review to cover all aspects of Local Plan Strategy, therefore clear potential impact, significance unknown.	
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?		? Review to cover all aspects of Local Plan Strategy, therefore clear potential impact, significance unknown.	

Lichfield District Council
Site Allocations
Sustainability Appraisal Scoring Matrix: Settlement Shenstone
Main Modifications 2018

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Double -	785 Site is likely to support protected and priority species.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Double -	Site is located within a BAS The Little Holmes, surveyed 2015.
	3 Will it protect statutory designated sites?	N	Not in SAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	Double -	The Crane Brook runs along the northern boundary of the site. The site itself is an important local green corridor.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	The Landscape Character for the site is listed as follows: Cannock Chase and Cankwood Sandstone Estatelands. Landscape enhancement
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	Double -	Mineral Consultation Area Sand and Gravel Sold
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	N	The site is adjacent to the following historic landscape feature: Water Meadow
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on site and no unscheduled areas of archaeological importance.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	+	Boundary with a Key Rural settlement Shenstone
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	These services are located within the village centre of Shenstone the site is located adjacent to the settlement within access to those services via existing highway infrastructure.
	5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -
2 Is the site capable of supporting higher density development and/or a mix of uses?		N	See assumption
3 Does the site allow for the re-use of existing buildings?		N	No buildings
4 Will it reduce the amount of derelict, degraded and underused land within the District?		N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	+	
	2 Will it reduce the overall impact on traffic sensitive areas?	++	Less than 25 dwellings
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	Single -	access width appears too narrow to allow for pedestrian facilities
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	Part 2 Part 3 SPZ
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Grade 2 greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Double -	Northern part of the site zone 2 and 3, southern part zone 1. Majority Zone 2/3Greenfield

Sustainability Objective	Site Specific Question	Site Reference	Comment
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx yield 16
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx yield 16
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more area of accessible open space.
	3 Will it provide new accessible green space?	Double -	Site currently identified as amenity open space and natural/semi-natural greenspace within Open Space Assessment. Would result in the loss of area of accessible open space identified in Open Space Assessment. Provision of open space and play facilities are included on the Regulation 123 List. Potential for minor negative due to loss of existing open space currently located within site.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Outside LC and B
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	++	Adjacent to Shenstone settlement boundary.
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	No Neighbourhood Shopping Centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Double -	480 Site is likely to support protected and priority species.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Double -	The Eastern boundary of the site is located adjacent to BAS Little Holmes and western boundary of the site lies adjacent to SBI Malkin's Copple. Site appears to be a combination of arable of and semi-improved grassland.
	3 Will it protect statutory designated sites?	N	Not in SAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	Double -	The Footherley Brook runs along the Eastern boundary of the site. The site is located between two important habitats and this therefore is a green corridor.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	The Landscape Character for the site is listed as follows: Cannock Chase and Cankwood Sandstone Estatelands. Landscape enhancement
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	Double -	Mineral Consultation Area Sand and Gravel Sold
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on site and no unscheduled areas of archaeological importance.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	Double -	Not in a main settlement. There is a clear gap between the site and the Boundary with a Key Rural settlement, railway line also between settlement boundary and site.
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	Double -	These services are located within the village centre of Shenstone. There is a clear gap between the site and the settlement boundary in addition the railway line acts as a clear barriers to accessibility to those existing services.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Single -	
	2 Will it reduce the overall impact on traffic sensitive areas?	+	
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	Single - ?	appears insufficient width at access to provide pedestrian facilities
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Double -	SPZ 1
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Grade 2 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Double -	Eastern and southern part of the site one 2 and 3 north western part of the site zone 1. Majority 3/2 greenfield

Sustainability Objective	Site Specific Question	Site Reference	Comment
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx yield 41
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx yield 41
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more area of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.

	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	Single -	The historic parklands character will not be protected.
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	Double -	There is a clear gap between the site and the Boundary with a Key Rural settlement .
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	Double -	These services are located within the village centre of Shenstone. There is a clear gap between the site and the settlement boundary. Note the gap would be closed is SHLAA site 67 was brought forward in advance or at the same time of the site.
	5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -
2 Is the site capable of supporting higher density development and/or a mix of uses?		N	See assumption
3 Does the site allow for the re-use of existing buildings?		N	No buildings
4 Will it reduce the amount of derelict, degraded and underused land within the District?		N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Single -	
	2 Will it reduce the overall impact on traffic sensitive areas?	+ ?	
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	?	unable to determine access
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	SP23
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Grade 2 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Zone 1 greenfield

Sustainability Objective	Site Specific Question	Site Reference	Comment
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx yield 54
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx yield 54
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more area of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Outside LC and B
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	+	There is a clear gap between the site and the settlement boundary it is very likely that the residents will use the existing services located within Shenstone.
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	No Neighbourhood Shopping Centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	N	Unlikely to support protected or priority species.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	Single -	The site comprises of arable fields and there is water course along its Southern boundary
	3 Will it protect statutory designated sites?	N	Not in SAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	Single -	There is a water course that runs along the sites southern boundary potential for impact.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	The Landscape Character for the site is listed as follows: Cannock Chase and Cankwood Sandstone Estatelands. Landscape enhancement
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	Double -	The site is located within the following historic landscape feature: Shenstone Park Deer Park. Site is adjacent to Shenstone Court Park, Landscape Park
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site and no non-designated areas of archaeological importance on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	Double -	Site is opposite the GI listed Piers and Railings, East of Stroud Lodge, Shenstone and the GI Stroud Lodge, Shenstone. Development of the site will affect their setting.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	Single -	Development will affect understanding of historic park.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	Single -	The historic parklands character will not be protected.
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	+	Boundary with a Key Rural settlement .
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	These services are located within the village centre of Shenstone the site is located adjacent to the settlement within access to those services via existing highway infrastructure.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	++	
	2 Will it reduce the overall impact on traffic sensitive areas?	?	Transport analysis required for site of this size
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	N	
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	SP23
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Majority Grade 2 western tip Grade 3 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Flood Zone 1 Greenfield

Sustainability Objective	Site Specific Question	Site Reference	Comment
	2 Will there be an opportunity for flood risk reduction?	?	See assumption

	6 Will it result in the loss of historic landscape features?	Single -	The following Historic Landscape Feature runs through the north eastern boundary of the site: Ryknild Street Romana Road.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	Single -	No Scheduled Ancient Monuments on site. The unscheduled site of Ryknild Roman Road will be affected.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	Double -	There is a clear gap between the site and the Boundary with a Key Rural settlement .
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	Double -	These services are located within the village centre of Shenstone. There is a clear gap between the site and the settlement boundary. Note the gap would be closed if SHLAA site 545 was brought forward in advance or at the same time of the site. The existing railway line acts as a barrier to direct access to services.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Single -	
	2 Will it reduce the overall impact on traffic sensitive areas?	Single + (?)	
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	Single + (?)	Potential to provide access to a bus service
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	SPZ 3
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Part Grade 2 Part Grade 3 Greenfield.
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Double -	Western boundary Zone 2 and 3 remaining Zone 1 Greenfield Majority Zone 1. highest score given

Sustainability Objective	Site Specific Question	Site Reference	Comment
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx yield 80
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx yield 80
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Outside LC and B
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	+	There is a clear gap between the site and the settlement boundary and the railway line does act as a barriers to the access to services however it is very likely that the residents will use the existing services located within Shenstone.
	3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?	N	No Neighbourhood Shopping Centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N	See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Sustainability Objective	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	N	241 Shenstone Unlikely to be protected and priority species present.
	2 Will it conserve protected/ priority habitats and local nature conservation sites?	N	Buildings and hardstandings
	3 Will it protect statutory designated sites?	N	Not in SAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	No watercourse and green corridors.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Double -	The Landscape Character for the site is listed as follows: Cannock Chase and Cankwood Sandstone Estatelands. Landscape enhancement
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	Single -	The site is located within the following Historic Landscape Features: Southern part Water meadow North West Shenstone Hall.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on site and no unscheduled areas of archaeological importance.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality? Sustainability Objectives	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	N	Protected and priority species unlikely to be present.
	2 Will it conserve protect priority habitats and local nature conservation sites?	N	Arable Field
	3 Will it protect statutory designated sites?	N	Not in SAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	Not connected to existing green corridor or water course.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Single -	The following classification for landscape character is given for the site. Cannock Chase and Cankwood Sandstone Terrace Estate land. Landscape restoration
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site and no non-designated areas of archaeological importance on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	Single -	Southern tip of the site has a boundary with Whittington Conservation Area
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	No historic views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	+	Boundary with a Key Rural settlement .
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	These services are located within the village centre of Whittington the site is located adjacent to the settlement within access to those services via existing highway infrastructure.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	Single -	
	2 Will it reduce the overall impact on traffic sensitive areas?	+ ?	
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	+ ?	potential to connect to existing pedestrian infrastructure
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption

15 To enhance the vitality and viability of existing city, town and village centres within the District

- 1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?
- 2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?
- 3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?

16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning

- 1 Will it increase educational attainment amongst young people?
- 2 Will it reduce the number of working age residents who have no, or lower level qualifications?

Sustainability Objectives	Site Specific Question	Site Reference	Comment
940			
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	N	Limited potential for protected and priority species.
	2 Will it conserve protect priority habitats and local nature conservation sites?	Single -	Heavily grazed semi-improved grassland
	3 Will it protect statutory designated sites?	N	Not in SAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	Not connected to existing green corridor or water course.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Single -	The following classification for landscape character is given for the site. Cannock Chase and Cankwood Sandstone Terrace Estate Land. Landscape restoration
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site and no non-designated areas of archaeological importance on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	Single -	Listed building Church Farm House close to the South West boundary of the site.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	Single -	The site is adjacent to Whittington Conservation Area.
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
	3 Does it safeguard historic views and valuable skylines of settlements?	N	No historic views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	+	Boundary with a Key Rural settlement .
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	These services are located within the village centre of Whittington the site is located adjacent to the settlement within access to those services via existing highway infrastructure.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	Single + (?)	element of built form
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	+	
	2 Will it reduce the overall impact on traffic sensitive areas?	+ ?	
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	N	no rail but can't be improved
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	SPZ 3
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Grade 2 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Flood Zone 1 Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++	Approx yield 38
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx yield 38
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption

Sustainability Objectives

14 Improve opportunities for prosperity and economic growth

Site Specific Question

- 1 Will it encourage higher skilled economic sectors in the District?
- 2 Will it encourage new employment that is consistent with local needs?
- 3 Will it encourage growth of existing businesses?
- 4 Will it encourage small businesses to grow?

15 To enhance the vitality and viability of existing city, town and village centres within the District

- 1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?
- 2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?
- 3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?

16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning

- 1 Will it increase educational attainment amongst young people?
- 2 Will it reduce the number of working age residents who have no, or lower level qualifications?

Sustainability Objectives	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	N	Protected and priority species unlikely to be present.
	2 Will it conserve protect priority habitats and local nature conservation sites?	N	Built form and garden area.
	3 Will it protect statutory designated sites?	N	Not in SAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	Not connected to existing green corridor or water course.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Single -	The following classification for landscape character is given for the site. Cannock Chase and Cankwood Sandstone Terrace Estate land. Landscape restoration
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site and no non-designated areas of archaeological importance on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on or near to the site. No non-designated built heritage assets on or adjacent to site.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	N	Not within a Conservation Area but approx 115m CF from Whittington CA.
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality? 	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	Double -	Whole of site is within Whittington CA.
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
	2 Does it value and protect diverse and locally distinctive settlement and townscape character?	Single -	Very sensitive design would be needed to ensure character is preserved.
	3 Does it safeguard historic views and valuable skylines of settlements?	N	No historic views or valuable skylines
	4 Is the site within a main settlement or a key rural settlement?	+	Within a Key Rural settlement .
	5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	These services are located within the village centre of Whittington the site is located within the settlement within access to those services via existing highway infrastructure.
5 Maximise the use of previously developed land/ buildings and the efficient use of land	1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
	2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
	3 Does the site allow for the re-use of existing buildings?	N	No buildings
	4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel	1 Does the site location encourage the use of existing sustainable modes of travel?	+	
	2 Will it reduce the overall impact on traffic sensitive areas?	++	Less than 25 dwellings
	3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	N	No rail but cannot be improved
7 To reduce, manage and adapt to the impacts of climate change	1 Will it reduce the causes of climate change?	N	See assumption
	2 Will it encourage prudent use of energy?	N	See assumption
	3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N	See assumption
	2 Will it increase waste recovery and recycling?	N	See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single -	SPZ 3
	2 Does the site fall within the River Mease SAC?	N	Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double -	Grade 3 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single -	Flood Zone 1 Greenfield
	2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
	2 Will it increase the range and affordability of housing for all social groups?	N	Approx yield 10
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	N	Approx yield 10
	4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
	3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N	See assumption
	2 Will it contribute to a safe built environment?	N	See assumption

Sustainability Objectives

14 Improve opportunities for prosperity and economic growth

Site Specific Question

- 1 Will it encourage higher skilled economic sectors in the District?
- 2 Will it encourage new employment that is consistent with local needs?
- 3 Will it encourage growth of existing businesses?
- 4 Will it encourage small businesses to grow?

15 To enhance the vitality and viability of existing city, town and village centres within the District

- 1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?
- 2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?
- 3 Will it support and protect existing neighbourhood centres serving the local needs of our urban communities?

16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning

- 1 Will it increase educational attainment amongst young people?
- 2 Will it reduce the number of working age residents who have no, or lower level qualifications?

Sustainability Objectives	Site Specific Question	Site Reference	Comment
1 To promote biodiversity protection, enhancement and management of species and habitats	1 Will it conserve protected/priority species?	Single -	8 There is potential for protected and priority species
	2 Will it conserve protect priority habitats and local nature conservation sites?	Single -	The comprises of semi-improved grassland built form and hardstanding.
	3 Will it protect statutory designated sites?	N	Not in SAC
	4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	Priority habitat that is isolated.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district	1 Does it respect and protect existing landscape character?	Single -	The following classification for landscape character is given for the site. Cannock Chase and Cankwood Sandstone Terrace Estate Land. Landscape restoration
	2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
	3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District landscape character?	N	See assumption
	4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
	5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
	6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
	7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	Single -	No Scheduled Ancient Monuments on or near to site and no non-designated areas of archaeological importance on site. Site is located within the heart of the village, and the crossroads locations probably formed the core of the medieval settlement.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting	1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	Single -	Site wraps round the Grade II The Old School, Main Street. Development will impact on its setting.
	2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
	3 Will it preserve and enhance conservation areas including their setting?	Single -	Part of site is within Whittington CA.
	4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character	1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality? Site Specific Question	Site Reference	Comment
	1119	Reg 19 Sites
3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	Single -	unlikely to provide any sustainable travel infrastructure
7 To reduce, manage and adapt to the impacts of climate change		
1 Will it reduce the causes of climate change?	N	See assumption
2 Will it encourage prudent use of energy?	N	See assumption
3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials		
1 Will it reduce household and commercial waste?	N	See assumption
2 Will it increase waste recovery and recycling?	N	See assumption
3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality		
1 Which Source Protection Zone does the development fall within?	Double -	SPZ 1
2 Does the site fall within the River Mease SAC?	N	Not in SAC
3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
4 Will it result in the loss of quality agricultural land?	Double -	Grade 3 Greenfield
10 To reduce and manage flood risk		
1 Is the site located outside an area of risk from flooding?	Single -	Flood Zone 1 Greenfield
2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need		
1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
2 Will it increase the range and affordability of housing for all social groups?	++	Approx Yield 436
3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx Yield 436
4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities		
1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	Provision of health need in Fradley is identified within the Infrastructure Development Plan and will be addressed through the HS Transformation Plan
2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime		
1 Will it reduce crime through design measures?	N	See assumption
2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth		
1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing, city, town and village centres within the District		
1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Outside LC and B
2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	++	Despite the clear gap between the Fradley key rural settlement and the site it is likely that residents would use services located within Fradley.
3 Will it support and protect existing neighbourhood centres serving the local needs of our communities?	N	No Neighbourhood Shopping Centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning		
1 Will it increase educational attainment amongst young people?	N	See assumption
2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Site Specific Question	Site Reference	Comment
	1115	Reg 19 Sites
1 To promote biodiversity protection, enhancement and management of species and habitats		
1 Will it conserve protected/priority species?	Single -	Unlikely to supported protected priority species however indirect impact on adjacent site Mature woodland.
2 Will it conserve protected/ priority habitats and local nature conservation sites?	Single -	The comprises of arable, potential impact on adjacent woodland habitat
3 Will it protect statutory designated sites?	N	Not inside the SAC area
4 Will it encourage ecological connectivity (including green corridors and water courses)?	N	Isolated from other surrounding priority and protected habitats
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district		
1 Does it respect and protect existing landscape character?	Single -	Trent Valley washlands, Riparian Alluvial Lowlands, landscape restoration
2 Will it protect sites of geological importance?	N	No RIGS site in vicinity
3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District Character?	N	See assumption
4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not within Forest of Mercia CRI or National Forest.
6 Will it result in the loss of historic landscape features?	N	No Historic landscape features on or near to the site.
7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to site. No non-designated areas of archaeological interest on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting		
1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	N	No listed buildings on or near to the site. No non-designated built heritage assets on or adjacent to site.
2 Will it improve and broaden access to, and understanding of, local heritage, historic sites, areas and buildings?	N	There are no heritage assets on site/ no scope for the improving access or understanding.
3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character		
1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
3 Does it safe guard historic views and valuable skylines of settlements?	N	There are no views or valuable skylines
4 Is the site within a main settlement or a key rural settlement?	Single -	The site has a boundary with Drayton Bassett
5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+	Some of these services are located within the village centre the site is located adjacent to the settlement within access to those services.
5 Maximise the use of previously developed land/ buildings and the efficient use of land		
1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
3 Does the site allow for the re-use of existing buildings?	N	No buildings on site
4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No DDU
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel		
1 Does the site location encourage the use of existing sustainable modes of travel?	Double -	
2 Will it reduce the overall impact on traffic sensitive areas?	+?	no insurmountable traffic constraints

	1115	Reg 19 Sites
3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	Single -	unlikely to provide any sustainable travel infrastructure
7 To reduce, manage and adapt to the impacts of climate change		
1 Will it reduce the causes of climate change?	N	See assumption
2 Will it encourage prudent use of energy?	N	See assumption
3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials		
1 Will it reduce household and commercial waste?	N	See assumption
2 Will it increase waste recovery and recycling?	N	See assumption
3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality		
1 Which Source Protection Zone does the development fall within?	N	Not in SPZ
2 Does the site fall within the River Mease SAC?	N	Not in SAC
3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
4 Will it result in the loss of quality agricultural land?	Double -	Grade 3 Greenfield
10 To reduce and manage flood risk		
1 Is the site located outside an area of risk from flooding?	Single -	Flood Zone 1 Greenfield
2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need		
1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
2 Will it increase the range and affordability of housing for all social groups?	++	Approx Yield 60
3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx Yield 60
4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities		
1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime		
1 Will it reduce crime through design measures?	N	See assumption
2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth		
1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing, city, town and village centres within the District		
1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Outside LC and B
2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not in or adjacent to a Key Rural Settlement
3 Will it support and protect existing neighbourhood centres serving the local needs of our communities?	N	No Neighbourhood Shopping Centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning		
1 Will it increase educational attainment amongst young people?	N	See assumption
2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

	+?	No insurmountable traffic constraints

Site Specific Question	Site Reference	Comment
	1114	Reg 19 Sites
3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	N	Access by all four sustainable modes already
7 To reduce, manage and adapt to the impacts of climate change		
1 Will it reduce the causes of climate change?	N	See assumption
2 Will it encourage prudent use of energy?	N	See assumption
3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption
8 To minimise waste and increase the reuse and recycling of waste materials		
1 Will it reduce household and commercial waste?	N	See assumption
2 Will it increase waste recovery and recycling?	N	See assumption
3 Will it reduce the proportion of waste sent to landfill?	N	See assumption
9 Seek and improve air, soil and water quality		
1 Which Source Protection Zone does the development fall within?	Single -	The south west corner of the site falls within SP23
2 Does the site fall within the River Mease SAC?	N	Not in SAC
3 Is the site within or directly connected by road to an AQMA?	N	Not in AQMA
4 Will it result in the loss of quality agricultural land?	Double -	Grade 3 Greenfield
10 To reduce and manage flood risk		
1 Is the site located outside an area of risk from flooding?	Single -	Flood Zone 1 Greenfield
2 Will there be an opportunity for flood risk reduction?	?	See assumption
11 To provide affordable homes that meet local need		
1 Will it provide sufficient housing to meet existing and future housing need?	++	See assumption
2 Will it increase the range and affordability of housing for all social groups?	++	Approx Yield 525
3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++	Approx Yield 525
4 Will it meet the needs of the travelling community and show people?	N	See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities		
1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
2 Will it support a healthy life style including opportunities for recreational/physical activity?	N	Site is not located within 480m of any area of accessible open space.
3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime		
1 Will it reduce crime through design measures?	N	See assumption
2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth		
1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing, city, town and village centres within the District		
1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Outside LC and B

1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)?	See assumption
2 Will it support a healthy life style including opportunities for recreational/physical activity?	++	Site is located within 480m of one or more areas of accessible open space.
3 Will it provide new accessible green space?	(+)?	Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime		
1 Will it reduce crime through design measures?	N	See assumption
2 Will it contribute to a safe built environment?	N	See assumption
14 Improve opportunities for prosperity and economic growth		
1 Will it encourage higher skilled economic sectors in the District?	N	Not in an Existing Industrial Area or currently used for employment use.
2 Will it encourage new employment that is consistent with local needs?	N	Not in an Existing Industrial Area or currently used for employment use.
3 Will it encourage growth of existing businesses?	N	Not in an Existing Industrial Area or currently used for employment use.
4 Will it encourage small businesses to grow?	N	Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing, city, town and village centres within the District		
1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	N	Outside Lichfield or Burntwood
2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N	Not in or adjacent to a key Rural Settlement
3 Will it support and protect existing neighbourhood centres serving the local needs of our communities?	N	No Neighbourhood Shopping Centre
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning		
1 Will it increase educational attainment amongst young people?	N	See assumption
2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N	See assumption

Site Specific Question	Site Reference	Comment
	FC 268	
1 To promote biodiversity protection, enhancement and management of species and habitats		
1 Will it conserve protected/priority species?	Double -	Protected and priority species likely to be present on site.
2 Will it conserve protected/ priority habitats and local nature conservation sites?	Double -	Eastern boundary of the site is formed by following Curborough House hedgerows BAS. The site is likely to impact on Big Lyntus and Little Lyntus SBI ancient woodland
3 Will it protect statutory designated sites?	Double -	Within 0-15 CCSAC
4 Will it encourage ecological connectivity (including green corridors and water courses)?	Single -	The site comprises for the majority of arable and improved grassland, potential for impact. However Curborough Brook runs through the site potential for impact.
2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district		
1 Does it respect and protect existing landscape character?	Single -	The Landscape Character for the site is as follows: Cankock Chase and Cankwood Settled Farmlands. Landscape Restoration
2 Will it protect sites of geological importance?	N	No RIGS Site in vicinity
3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District Character?	N	See assumption
4 Will it lead to the sterilisation of mineral resources?	N	Not in a Mineral Consultation Area
5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?	N	Not in FM Not in CRI not in NF
6 Will it result in the loss of historic landscape features?	N	Historic Environment Feature: Ridge and Furrow Field System adjacent to the south east corner of the site.
7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?	N	No Scheduled Ancient Monuments on or near to the site. No non-designated areas of archaeological interest on site.
3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting		
1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?	Single -	The following listed building is adjacent to the site: Curborough Farmhouse
2 Will it improve and broaden access to, and understanding of, local heritage, historic sites, areas and buildings?	N	There are no heritage assets on site/no scope for the improving access or understanding.
3 Will it preserve and enhance conservation areas including their setting?	N	Not in or near to a Conservation Area
4 Will it offer opportunities to bring heritage assets back into active use?	N	There are no DDU historic buildings on site
4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character		
1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?	N	See assumption
2 Does it value and protect diverse and locally distinctive settlement and townscape character?	N	See assumption
3 Does it safeguard historic views and valuable skylines of settlements?	N	It is unlikely that there would be any impact on the historic views or skylines of the city.
4 Is the site within a main settlement or a key rural settlement?	Double -	Separated by railway line and not adjacent to settlement
5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?	+ (?)	There is a clear gap between the settlement of Lichfield and the site which means that services located in Lichfield may be more difficult to access.
5 Maximise the use of previously developed land/ buildings and the efficient use of land		
1 Will it result in the loss of land that has not previously been developed?	Double -	Greenfield
2 Is the site capable of supporting higher density development and/or a mix of uses?	N	See assumption
3 Does the site allow for the re-use of existing buildings?	N	No buildings on site
4 Will it reduce the amount of derelict, degraded and underused land within the District?	N	No duu
6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel		
1 Does the site location encourage the use of existing sustainable modes of travel?	Double -	
2 Will it reduce the overall impact on traffic sensitive areas?	?	Highways England may wish to comment impact on Hillards cross
3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?	?	Will benefit from bus and primary school being delivered by Watery Lane but cannot improve walking access to rail station or access to a GP
7 To reduce, manage and adapt to the impacts of climate change		
1 Will it reduce the causes of climate change?	N	See assumption
2 Will it encourage prudent use of energy?	N	See assumption
3 Will it provide opportunities for additional renewable energy generation capacity within the District?	N	See assumption

	2 Will it increase waste recovery and recycling?	N See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single - No SPZ
	2 Does the site fall within the River Mease SAC?	N Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double - Grade 3 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single - Majority Flood Zone 1 Extreme Western edge of site adjacent to Curborough Brook Flood Zone 2 and 3.
	2 Will there be an opportunity for flood risk reduction?	? See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++ See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++ Approx yield 180
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++ Approx yield 180
	4 Will it meet the needs of the travelling community and show people?	N See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)? See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	N Site is not located within 480m of any area of accessible open space. This does not include sites within 480m where access to these is restricted due to the West Coast Mainline.
	3 Will it provide new accessible green space?	(+)? Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N See assumption
	2 Will it contribute to a safe built environment?	N See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	++ The site is separate from the settlement of Lichfield however it has been assumed that the residents would use facilities within Lichfield Town Centre.
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N Not in or adjacent to a Key Rural Settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our communities?	++ Six individual Neighbourhood Shopping Centres area located within the settlement of Lichfield.
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N See assumption

Site Specific Question	Site Reference	Comment
	FC 269	
<p>1 To promote biodiversity protection, enhancement and management of species and habitats</p> <p>1 Will it conserve protected/priority species?</p> <p>2 Will it conserve protected/ priority habitats and local nature conservation sites?</p> <p>3 Will it protect statutory designated sites?</p> <p>4 Will it encourage ecological connectivity (including green corridors and water courses)?</p>	Double -	Protected and priority species likely to be present on site.
	Double -	Western boundary formed by following Curborough Hall Farm Hedgerows BAS.
	Double -	Within 0-15 CCSAC
	Single -	The site comprises for the majority of arable and improved grassland, potential for impact.
<p>2 To promote and enhance the rich diversity of the natural archaeological/ geological assets, and landscape character of the district</p> <p>1 Does it respect and protect existing landscape character?</p> <p>2 Will it protect sites of geological importance?</p> <p>3 Does it offer the opportunity to improve and promote landscape connectivity sympathetic to the existing District Character?</p> <p>4 Will it lead to the sterilisation of mineral resources?</p> <p>5 Will it improve existing green infrastructure including National Forest, Forest of Mercia and the Central Rivers Initiative?</p> <p>6 Will it result in the loss of historic landscape features?</p> <p>7 Will it safeguard sites of archaeological importance (scheduled or unscheduled) and their settings?</p>	Single -	The Landscape Character for the site is as follows: Cannock Chase and Cankwood Settled Farmlands. Landscape Restoration
	N	No RIGS Site in vicinity
	N	See assumption
	N	Not in a Mineral Consultation Area
	N	Not in FM Not in CRI not in NF
	N	No Historic landscape features on or near to the site.
	N	No Scheduled Ancient Monuments on or near to the site. No non-designated areas of archaeological interest on site.
<p>3 To protect and enhance buildings, features and areas of archaeological, cultural and historic value and their setting</p> <p>1 Will it preserve and enhance buildings and structures and their settings and contribute to the Districts heritage?</p> <p>2 Will it improve and broaden access to, and understanding of, local heritage , historic sites, areas and buildings?</p> <p>3 Will it preserve and enhance conservation areas including their setting?</p> <p>4 Will it offer opportunities to bring heritage assets back into active use?</p>	N	No listed buildings on site or adjacent to the site. No non-designated built heritage assets on site.
	N	There are no heritage assets on site/no scope for the improving access or understanding.
	N	Not in or near to a Conservation Area
	N	There are no DDU historic buildings on site
<p>4 Create places, spaces and buildings that are well designed, integrated effectively with one another, respect significant views and vistas, and enhance the distinctiveness of the local character</p> <p>1 Will it achieve high quality and sustainable design for buildings, spaces and the public realm sensitive to the locality?</p> <p>2 Does it value and protect diverse and locally distinctive settlement and townscape character?</p> <p>3 Does it safe guard historic views and valuable skylines of settlements?</p> <p>4 Is the site within a main settlement or a key rural settlement?</p> <p>5 Is the site within close proximity to key services (e.g. Schools, food shops, public transport, health centres etc.)?</p>	N	See assumption
	N	See assumption
	N	It is unlikely that there would be any impact on the historic views or skylines of the city.
	Double -	Separated by railway line and not adjacent to settlement
	+ (?)	There is a clear gap between the settlement of Lichfield and the site which means that services located in Lichfield may be more difficult to access.
<p>5 Maximise the use of previously developed land/ buildings and the efficient use of land</p> <p>1 Will it result in the loss of land that has not previously been developed?</p> <p>2 Is the site capable of supporting higher density development and/or a mix of uses?</p> <p>3 Does the site allow for the re-use of existing buildings?</p> <p>4 Will it reduce the amount of derelict, degraded and underused land within the District?</p>	Double -	Greenfield
	N	See assumption
	N	No buildings on site
	N	No duu
<p>6 Reduce the need to travel to jobs and services through sustainable integrated patterns of development, efficient use of existing sustainable modes of transport and increased opportunities for non-car travel</p> <p>1 Does the site location encourage the use of existing sustainable modes of travel?</p> <p>2 Will it reduce the overall impact on traffic sensitive areas?</p> <p>3 Will it help develop walking cycling rail and bus networks to enable residents access to employment, services and facilities?</p>	Double -	
	Single + ?	No insurmountable traffic constraints
	?	Will benefit from bus and primary school being delivered by Watery Lane but cannot improve walking access to rail station or access to a GP
<p>7 To reduce, manage and adapt to the impacts of climate change</p> <p>1 Will it reduce the causes of climate change?</p> <p>2 Will it encourage prudent use of energy?</p> <p>3 Will it provide opportunities for additional renewable energy generation capacity within the District?</p>	N	See assumption
	N	See assumption
	N	See assumption

Site Specific Question	Site Reference	Comment
	FC 269	
8 To minimise waste and increase the reuse and recycling of waste materials	1 Will it reduce household and commercial waste?	N See assumption
	2 Will it increase waste recovery and recycling?	N See assumption
	3 Will it reduce the proportion of waste sent to landfill?	N See assumption
9 Seek and improve air, soil and water quality	1 Which Source Protection Zone does the development fall within?	Single - No SPZ
	2 Does the site fall within the River Mease SAC?	N Not in SAC
	3 Is the site within or directly connected by road to an AQMA?	N Not in AQMA
	4 Will it result in the loss of quality agricultural land?	Double - Grade 3 Greenfield
10 To reduce and manage flood risk	1 Is the site located outside an area of risk from flooding?	Single - Flood Zone 1 Greenfield
	2 Will there be an opportunity for flood risk reduction?	? See assumption
11 To provide affordable homes that meet local need	1 Will it provide sufficient housing to meet existing and future housing need?	++ See assumption
	2 Will it increase the range and affordability of housing for all social groups?	++ Approx yield 40
	3 Will it reduce the number of households waiting for accommodation or accepted as homeless?	++ Approx yield 40
	4 Will it meet the needs of the travelling community and show people?	N See assumption
12 Improve services and access to services to produce good health and wellbeing and reduce health inequalities	1 Will it improve accessibility to health care for existing residents (including older residents) and provide additional facilities for new residents?	(+)? See assumption
	2 Will it support a healthy life style including opportunities for recreational/physical activity?	N Site is not located within 480m of any area of accessible open space. This does not include sites within 480m where access to these is restricted due to the West Coast Mainline.
	3 Will it provide new accessible green space?	(+)? Provision of open space and play facilities are included on the Regulation 123 List. Some residential site options could offer good opportunities to incorporate new open space on site although this is uncertain until proposals for the site come forward.
13 To promote safe communities, reduce crime and fear of crime	1 Will it reduce crime through design measures?	N See assumption
	2 Will it contribute to a safe built environment?	N See assumption
14 Improve opportunities for prosperity and economic growth	1 Will it encourage higher skilled economic sectors in the District?	N Not in an Existing Industrial Area or currently used for employment use.
	2 Will it encourage new employment that is consistent with local needs?	N Not in an Existing Industrial Area or currently used for employment use.
	3 Will it encourage growth of existing businesses?	N Not in an Existing Industrial Area or currently used for employment use.
	4 Will it encourage small businesses to grow?	N Not in an Existing Industrial Area or currently used for employment use.
15 To enhance the vitality and viability of existing, city, town and village centres within the District	1 Will it improve existing facilities within Lichfield City and Burntwood Town Centre?	++ The site is separate from the settlement of Lichfield however it has been assumed that the residents would use facilities within Lichfield Town Centre.
	2 Will it protect and enhance the ability of our key rural settlements to meet the day to day needs arising with these settlements and from the wider rural areas they serve?	N Not in or adjacent to a Key Rural Settlement
	3 Will it support and protect existing neighbourhood centres serving the local needs of our communities?	++ Six individual Neighbourhood Shopping Centres area located within the settlement of Lichfield.
16 Increase participation and improve access to education, skills-based training, knowledge and information, and lifelong learning	1 Will it increase educational attainment amongst young people?	N See assumption
	2 Will it reduce the number of working age residents who have no, or lower level qualifications?	N See assumption
