1 Foreword

1.1 The Employment Land Availability Assessment (ELAA) is an evidence base and monitoring document which will be published annually as part of Lichfield District Council's suite of monitoring documents. The ELAA has a key role in identifying sites that have the potential for employment development and estimates their potential future capacity in terms of uses, floorspace and number of jobs. The ELAA also considers those sites which are allocated through the Lichfield District Local Plan and/ or have planning permission for employment uses. It is recognised that settlements evolve and land uses may change and therefore additional sites may become available in time. Therefore this is not a one-off document but a 'living' one which will be reviewed and updated.

1.2 This is the second edition of the ELAA for Lichfield District which covers the period from 1st April 2016 to 31st March 2017. The ELAA will be updated annually, alongside the Strategic Housing Land Availability Assessment (SHLAA), Authority Monitoring Report (AMR) and the Five Year Housing Land Supply Paper as part of the District Council's suite of monitoring documents.

1.3 The ELAA forms part of the evidence base for the production of the Local Plan. The policies and proposals within the Local Plan which cover employment development and the economy are based on many considerations, of which this assessment is only one.

ELAA Disclaimer

1.4 The inclusion of a site in this assessment **does not** indicate that it will be allocated or successfully obtain planning permission for any particular use. The ELAA is published with a view that it will be available alongside the Local Plan as part of its supporting evidence base. Similarly, the non-inclusion of a site in this study does not in any way preclude future development, providing it meets the planning policy framework that exists at the time a site comes forward.

2 What is an Employment Land Availability Assessment?

2.1 The National Planning Policy Framework (NPPF) requires local planning authorities to prepare an ELAA to demonstrate that there are sufficient suitable sites to meet the identified needs for employment land within the District (NPPF para 161). The ELAA should be used to establish realistic assumptions about the availability, suitability and likely economic viability of land within the plan period.

2.2 Land availability assessment guidance in relation to both employment and housing land is set out within the National Planning Practice Guidance (PPG). The PPG makes clear that ELAA's are a key component of the evidence base to support the delivery of sufficient land for economic development to meet those targets set out within the adopted Local Plan. The ELAA will be key to monitoring this target and the ongoing supply of land needed to achieve it. As such this ELAA will have the following five core outputs:

1	A list of all sites and broad locations assessed. Cross referenced to maps showing locations and boundaries of specific sites.
2	An assessment of each site or broad location identified for employment uses, in terms of its suitability for development, availability and achievability.
3	The potential type and quantity of employment use(s) that could be delivered on each identified site including an estimation of the number of jobs which could be delivered.
4	Constraints on the delivery of identified sites and any recommendations on how or when these could be overcome.
5	An assessment of the overall availability of employment land supply versus the identified needs.

2.3 The NPPF and PPG advocate the advantages of combining the land availability assessments for both economic and housing development. However, given the size of Lichfield District's SHLAA (over 1000 sites) it was considered that keeping the two documents separate, whilst using shared methodology, would ensure the documents are as user friendly as possible. Where sites are included in both the ELAA and SHLAA this will be cross referenced within the individual site assessments. It is intended that the two land availability assessments will be published alongside each other on an annual basis.

2.4 A thorough review of the SHLAA/ ELAA methodology and format was undertaken in partnership with Cannock Chase District Council. This process has ensured that a broadly consistent methodology (whilst allowing for some local elaborations) is used across the authorities. This meets the requirements of the PPG and has been devised so each authority will share the methodology but still undertake and produce their own ELAA and SHLAA on an annual basis.

2.5 This assessment considers the availability of land for economic development within the 'B' Use Class as defined by the Use Classes Order. These are:

- B1(a) - Offices

- B1(b) - Research and development
- B1(c) - Light industry
- B2 - General Industry
- B8 - Storage and distribution

2.6 A draft version of the 2016 ELAA was made available to the Council's SHLAA/ ELAA Panel for review prior to its wider publication. This Panel includes members of the development industry, local planning authorities and statutory consultees engaged in both housing and employment land developments.

2.7 This ELAA does not make judgements as to what the spatial strategy of the Local Plan should be nor does it allocate land for economic /employment development. It simply provides an indication of the land that could come forward for development and forms an evidence base for the Local Plan. Furthermore, the ELAA identifies land in all areas of the District, not just the main urban areas, in order to consider all potential sources of supply.

Data availability and baseline

2.8 The base date for the ELAA is the current monitoring year of 2016/ 2017. This includes completions from 2008-2017 (for schedule see Appendix C) and sites with extant planning permission up to the end of March 2017. Lichfield District Council has undertaken several consultations related to its emerging Local Plan Allocations (LPA) document within the monitoring year, the most recent closed on 12th May 2017. Any site submissions made through either the Call for Sites exercise or through consultation on the Local Plan up to the close of the consultation on 12th May have been included within this assessment.

2.9 Lichfield District Council published an [Employment Land Capacity Assessment](#) (ELCA) in October 2016 as part of the evidence to support its emerging Local Plan. Information obtained through the ECLA with regards to sites has been considered and factored in to this edition of the document. A key aspect of the ECLA was to consider in detail the deliverability and availability of sites for employment development.

3 Targets & Lichfield District Context

3.1 The Lichfield District Local Plan Strategy was adopted on the 17th February 2015 and the spatial strategy for the District is set out within Core Policy 1 (The Spatial Strategy). In terms of employment the spatial strategy seeks to promote greater opportunities for high value employment within the District by providing a balanced portfolio of employment land to accommodate higher value employment opportunities serving both Lichfield and Burntwood and support for investment and redevelopment of older, well located, existing employment sites. Fradley will continue to be a focus for employment development. Core Policy 7 (Employment & Economic Development) sets out the requirement for 79.1 hectares of land of new and redeveloped employment land plus an additional 10 hectares to ensure flexibility will be provided to 2029. Such provision will aim to create between 7,310 and 9,000 additional jobs to achieve a job balance ratio of 85%. There is an emphasis on providing high-value jobs in business, education and research, those supporting a low carbon economy and other key growth sectors. The production of the ELAA is key to monitoring progress towards this target and the ongoing available supply of land to achieve it. The Lichfield District Local Plan Strategy allocated land for approximately 12 hectares of employment development within the Cricket Lane Strategic Development Allocation (SDA) with further allocations to be defined through the Local Plan Allocations document. There are separate targets for town centre uses (including office provision) which are not the explicit focus of this ELAA.

3.2 Policy Lichfield 3 (Lichfield Economy) states that Lichfield City will be the focus for new employment and office development with new employment uses focused close to existing employment sites. Policy Lichfield 3 and Policy Lichfield 6 (South of Lichfield) allocate approximately 12 hectares of land for employment development within the Cricket Lane Strategic Development Allocation (SDA). Policy Burntwood 3 (Burntwood Economy) seeks to maximise employment opportunities within Burntwood but also states that under-performing sites within the town will be considered through the Local Plan Allocations process. Policy Frad3 (Fradley Economy) states that Fradley will remain as a major focus for employment through the implementation of existing commitments and redevelopment of existing employment sites.

3.3 Lichfield District Council has been progressing the Local Plan Allocations document, with Regulation 19 consultation on the draft submission document closing on 12 May 2017. The emerging Local Plan Allocations document identifies proposed employment areas which will provide sufficient employment land to meet the requirements set out in Core Policy 7 with some flexibility which is to assist in the provision of approximately 6.5 hectares of employment land to meet the needs of Tamworth Borough. At the time of writing the Local Plan Allocations document has yet to be submitted for examination whilst the District Council consider the responses to the Regulation 19 consultation.

3.4 The National Planning Policy Framework and National Planning Practice Guidance require local authorities to produce land availability assessments for both economic/employment and housing land as part of the evidence base supporting their local plans. It is required to assess the existing and potential future supply of land to meet the identified needs.

3.5 As sites are completed, they are recorded through the annual monitoring and published within the Authority Monitoring Report (AMR) and recorded within the ELAA database. Completions since 2008 have been included within the assessment in a simple tabulated form at Appendix C and remain plotted on the mapping and detailed in the schedule of all sites (Appendix D) so that it is clear where development has taken place.

4 Methodology

4.1 This section sets out the methodology used for this assessment. The methodology has closely followed the guidance contained within the PPG and the agreed methodology being utilised by Lichfield District and Cannock Chase District Council.

Stage 1- Site/Broad Location Identification

4.2 The area of coverage for this ELAA is Lichfield District to enable monitoring against the Local Plan Strategy requirements. The PPG advocates that land availability assessments be produced to cover the functional economic market area which can be local planning authority areas. As set out at paragraph 2.4 the ELAA methodology will be used across the south-east Staffordshire councils with each authority carrying out the assessment within its own administrative boundaries.

4.3 Due to the 'manageable' number of submissions, there is no minimum threshold for the inclusion of a site in the assessment ⁽ⁱ⁾. However, there is a judgement to be made in terms of the contribution a particular development makes towards employment generation and land supply which may lead to smaller sites ultimately not being included e.g. those involving minor extensions/modifications to existing premises.

4.4 The PPG requires assessments to involve a number of key stakeholders. Both the ELAA and SHLAA use a joint-panel (across the local authorities) which consists of a number of stakeholders including; developers; those with land interests; land promoters; local property agents; partner organisations; Local Enterprise Partnerships; and business and business representative organisations. The Panel is convened each year and asked to consider the draft assessments prior to their publication. The Panel approach which has been adopted conforms with guidance within the PPG which suggests the involvement of a number of stakeholders in the land availability assessment process. Further detail regarding the Panel, including comments received can be found at [Appendix A](#).

4.5 The PPG states that the assessment should identify all sites and broad development locations regardless of the quantum of development needed. The ELAA methodology employed by Lichfield District Council has continued to identify sites from all sources in excess of the employment land requirements identified within the adopted Local Plan Strategy.

4.6 Lichfield District Council has held an ongoing 'Call for Sites' for the emerging Local Plan Allocations. This is an ongoing process which has been used to identify further sites for inclusion within the both the ELAA and SHLAA. The Call for Sites is open throughout the year and new submissions are included within the ELAA inline with the data baseline outlined at paragraph 2.8. In addition to the 'Call for Sites' there have been two formal consultations for the Local Plan Allocations document since the publication of the previous ELAA, any sites submitted through representations to either of these consultations have been included within this assessment.

4.7 All sites and schemes capable of assisting employment generation have therefore been initially considered including:

i The PPG recommends that sites of 0.25ha or developments of 500m² floorspace should be considered, but this is subject to local applicability

- Completions of employment generating development (since April 1st 2008 to 31st March 2017)(Table C.1 'Employment Floor Space Completions 2008-2016');
- New land (previously not employment generating sites) and/or comprehensive redevelopment of previously employment generating sites (i.e. Demolition and rebuild);
- Units brought into employment uses from non-employment uses;
- Extension to existing premises (where these are not considered minor. See paragraph 4.3); and
- Refurbishment (including upgrade works, rebuilding/extensions) where former employment units/sites are being brought back into employment use after being vacant.

4.8 The following key data for sites was collected:

- Location including boundaries and site size (including Developable Area⁽ⁱⁱ⁾);
- Current/Previous land use;
- Likely proposed use;
- Likely number of jobs created⁽ⁱⁱⁱ⁾;
- Potential physical and environmental constraints; and
- Planning status (including information on planning application and current planning policy).

4.9 Table 4.1 sets out the key sources of information used in this assessment and which will be used for future updates when reviewing existing sites and identifying new ones. Sites can be broadly defined within two key groups; 'Sites within the planning process' and 'Sites not currently within the planning process'. Table 4.2 sets out the key data sources for ensuring information on these potential sites is up to date (up to 31st March 2017).

Sources of Information

Sites within the planning process:

- Land allocated (or with permission) for employment land or other land uses which are no longer required for those uses;
- Sites proposed to be allocated through emerging development plan documents;
- Unimplemented/outstanding planning permission for employment use;

ii The standard definition of 'Developable Area' is the amount of land available for development, including on site landscaping and infrastructure. Where information has not been provided the Lichfield District Employment Land Review (ELR) 2012 has been used to provide estimations of the floorspace which could be provided.

iii Where this information was not provided the assumptions in terms of job density have been taken from the Homes & Communities Agency Employment Density Guide (3rd Edition) November 2015

Sources of Information
<ul style="list-style-type: none"> Sites with planning permissions for employment use that are under construction; Sites where planning permission has previously been refused for employment development; and Sites where a planning application has been submitted but is not yet determined.
<p>Sites not currently within the planning process:</p> <ul style="list-style-type: none"> Vacant/derelict land and buildings (of appropriate size for economic/employment development); Surplus public sector land; Additional employment opportunities in established employment areas; Additional sites proposed by stakeholders through 'Call for Sites' process and/or through Local Plan representations; Sites considered within the Lichfield District Employment Land Review (ELR) 2012 where these are considered to be in the 'B' use classes (not including Town centre B uses).

Table 4.1 Source of information

ELAA data sources
<ul style="list-style-type: none"> Planning permissions/applications determined by 31/03/17 (where relevant and available detail will be given of development progress) ; Commencement and completion records to 31/03/17 (site visits and Local Authority Building Control records); National register of Public Sector Land; Local Authority Empty Property Register; Commercial Property Databases; Ongoing site specific representations from stakeholders; Local knowledge from planning and other officers and property agents; and Other desktop sources of information e.g. Property agent websites.

Table 4.2 ELAA data sources

4.10 Upon completion of this stage a refreshed, up to date list of all potential sites was available to then assess further in stage 2.

Stage 2 - Site/broad location assessment

4.11 Site assessment work for economic/employment uses will be undertaken in accordance with the methodology outlined within the PPG. The development potential of sites will be considered according to their suitability, availability and achievability.

4.12 In terms of the developable area of sites (including estimates floorspace), the likely breakdown of uses within a site and the potential number of jobs created the following assumptions will be applied:

- Sites with planning permission will use the permitted floorspace and estimated job creation where provided;
- If the information submitted alongside a site includes a layout, and additional information in terms of floorspace and jobs this will be assessed and used where it is considered appropriate; and
- For other sites the assumptions contained within the Lichfield District Council Employment Land Review (ELR) 2012 for calculating floorspace and the split of uses on site. The CLG Employment Density Guide (3rd Edition) November 2015 will be used to estimate the number of jobs to be created created (see Appendix B 'Site Assumptions').

4.13 It is then necessary to categorise the sites according to their development potential in order to set out a clear picture of the supply. There is no set method for this within the NPPF or PPG in terms of employment land so Lichfield District Council have chosen to use locally determined categories drawn on guidance within the PPG. The NPPF provides clear categories for housing sites (deliverable/developable) and the Lichfield District SHLAA then includes a category for 'Not Developable' sites for those sites falling outside of other categories but does not provide such detail in relation to employment land. Drawing upon this, the Council will categorise sites within the ELAA within two categories. Sites will be categorised as either 'Available' or 'Not Available'. By applying this distinction a clear picture of the type and quantity of land 'available' in the short to medium term will be presented. This category is broadly equivalent to both the deliverable and developable categories within the SHLAA. Land currently identified as 'not available' may be appropriate to meet longer term needs, or if the identified constraints could be overcome they could potentially serve to meet needs in the medium to longer term. The 'Not Available' category will also include sites that are unlikely to be suitable in the longer term (Green Belt designation, isolated sites etc). This category is broadly equivalent to the 'Not Developable' category within the SHLAA.

4.14 'Available' land for employment uses will consist of sites which have been assessed as follows:

- A suitable location for employment development. Suitability can be affected by the a number of factors, for example: development plan policy, market interest, physical problems, infrastructure issues (including proximity to transport nodes), potential impacts and environmental conditions. Where there are no major concerns in relation to the aforementioned factors then a site can be considered suitable. Where a site is proposed

to be allocated through the emerging Local Plan Allocations document it has been considered to represent a suitable location for development. Should changes be made to the emerging plan this could need to be reviewed in future editions of the ELAA.

- Site is available for the type of development being proposed (sites which are being proposed/promoted for changes of use away from employment land would not be considered available) and is in an achievable location for the development. The assessment of availability has been informed by the landowner/agent where they have indicated the site could be developed. Information collected through the ECLA has assisted with this aspect of the ELAA.
- A site is considered to be achievable where there is a reasonable prospect that the site will be developed at a particular point in time. For sites that have outstanding planning permission/allocation it is assumed that the development will be brought forward unless the applicant/owner/agent advises the District Council otherwise. Intelligence from individual applicants/agents/owners will be taken account of where this is available. The PPG requires sites potential viability to be considered as part of its achievability. Given the large number of sites within the ELAA and SHLAA documents it is not possible or practicable to test viability on individual sites. As part of the evidence to support the Community Infrastructure Levy (CIL) the District Council has commissioned a significant body of evidence which has been the subject of independent examination. This evidence concludes that employment development is not currently viable on a speculative nature within the District. However, it is noted that across the plan period it is expected that markets will change and such development may become viable.

4.15 All other sites are then classified as 'Not Available' at present. Sites will be reconsidered on an annual basis and where additional information has been submitted. As such it is possible and indeed likely that sites may move between categories between editions of the ELAA. Where sites are within the Green Belt these will be identified within the same categories but will be highlighted on the maps as being within the Green Belt. It should also be noted that certain sites may be 'uncategorised' within the assessment. Such an assessment will only be used where there are a number of uncertainties about the availability, achievability and deliverability which prevent the assessment from concluding that a site should fall into either of the two categories (Available/Not Available).

4.16 The employment land target is for non town centre B class uses^(iv). As such the focus of this assessment is upon land outside of these centres which are more suited to accommodating other B class uses. However, local planning policy recognises that it will be difficult to accommodate all town centre uses (specifically office provision) within the town centres potentially necessitating the use of out of centre sites. Therefore a category of potential town centre office sites is included within the ELAA. The monitoring of town centre developments more generally is included within the Authority Monitoring Report.

iv The Local Plan Strategy includes policies which identify targets for town centre uses, including office provision, to be located within the identified town centres

Stage 3: Assessment and Final Evidence Base

Please note that this stage corresponds to stages 4 and 5 of the methodology advocated within the PPG. PPG Stage 3 (Windfall Assessment) is not considered appropriate for the ELAA.

4.17 The assessment methodology provides for a review of the findings of the assessment. Its purpose is to consider the refined site assessments and the identified supply being assessed against the requirements of the Local Plan.

4.18 This assessment concludes that there is currently around 113 hectares of available employment land within the District. A large majority of this land is either under construction or has the benefit of an extant planning permission. In addition to this there has been completion of approximately 33 (gross) hectares of employment land since 2008.

4.19 The size of available sites ranges from less than one hectare to those in excess of 24 hectares with the most commonly available sites within a 2-5 hectare range. The largest site at East Hill, Fradley Park (circa 24 hectares) along with other larger available sites would also be capable of being subdivided into separate development parcels which provides even greater flexibility for potential end users within the employment land supply. The available land supply is considered to be flexible with a large majority being available for a range of B1/B2/B8 uses.

4.20 There is approximately 163 hectares of land which has been classified as 'not available' at present which consists of 69 hectares of sites located within the Green Belt. In addition to the land assessed as 'Not Available' is the Rugeley Power Station site which is categorised as 'uncertain' within this assessment.

4.21 Section 5 of the document provides the detailed conclusions and summary of the potential provision of employment land. This represents the final evidence base stage of the methodology which has been summarised in the paragraphs above.

Monitor & Review

4.22 The preparation and publication of a ELAA enables a clear base for the future monitoring of employment land provision against the requirements set out within the Local Plan. This is the second edition of the ELAA which is a living document and will be continually updated and published annually. Additional sites (or any changes to sites) will be added to the ELAA database on submission to Lichfield District Council and where such information means the inclusion of a new site assessment or amendments to existing assessments this will be contained within subsequent publications of the document.

4.23 The ELAA will be updated annually (with data complete to the end of the most recently concluded financial year). Previous editions of the ELAA will remain available so that progress of the supply and sites can be viewed across documents.

5 Summary of Potential Provision & Conclusions

ELAA Results (PPG Stage 5: Final Evidence Base)

5.1 In total 114 sites (including completed sites) have been identified and assessed through the process. Table 5.1 summarises the conclusions of the assessment and details the employment land supply position in Lichfield District at 31/03/2017. This shows the completions which have been recorded within the District within the plan period and also the supply of 'Available' sites which includes those sites currently under construction, with the benefit of extant planning permission and those sites outside of the planning process which are assessed as being 'Available' including sites within allocated employment areas. For completeness included in the results is the 'Not Available' sites.

Completions 2016-2017	Uses	Ha (net)	Floorspace (m ²) (net)
Completions 2016-2017 (Appendix C)	Total	2.02 (0.73)	7000 (837)
	B1/B2/B8	1.87 (0.58)	6740 (577)
	B1a (Offices)	0.15 (0.15)	260 (260)
Completions 2008-2017	Uses	Ha (net)	Floorspace (m ²) (net)
Completions 2008-2017 (Appendix C)	Total	33.627 (15.237)	95,244.22 (39,025)
	B1/B2/B8	31.76 (13.37)	81,052.22 (24,833)
	B1a (Offices)	1.867 (1.867)	14,192 (14,192)
'Available' Supply (2016-2029)	Uses	Ha	Floorspace (m ²)
Sites currently under construction (Appendix D Table D.1)	Total	25.27	51,719
	B1/B2/B8	25.15	51,539
	B1a (Offices)	0.12	180
Sites with planning permission (Appendix D Table D.1)	Total	45.45	156,371
	B1/B2/B8	40.66	143,871
	B1a (Offices)	4.79	12,500
Available sites (Appendix D)	Total	42.72	172,069
	B1/B2/B8	42.72	172,069
	B1a (Offices)	0	0
Total 'Available Supply'	Total	113.44	380,159

Completions 2016-2017	Uses	Ha (net)	Floorspace (m ²) (net)
	B1/B2/B8	108.53	367,479
	B1a (Offices)	4.79	12,500

Table 5.1 Employment Land Supply - 'Available' sites

Sites 'Not Available'	Uses	Ha	Floorspace (m ²)
Sites assessed as 'Not Available'	Total	163	668,600
	B1/B2/B8	93.16	323,640
	B1a (Offices)	0.67	3928
	B1/B2/B8 - Sites within Green Belt	69.17	341,032
	B1a (Offices) - Sites within Green Belt	0	0

Table 5.2 Employment Land Supply - 'Not Available' sites

5.2 Table 5.1 demonstrates that there is currently approximately 113 hectares of 'Available' employment land within Lichfield District which includes 4.7 hectares of land specifically available B1a uses. This is alongside the 33 (gross) hectares of land which has already been completed within the District. The ELAA 2017 identifies that there is currently sufficient supply of available employment land to meet the target set within the Local Plan Strategy. Trends indicate that B2 and B8 developments have been the most common place within Lichfield District with a much smaller number of B1 schemes being completed. In terms of B1a offices, these have predominantly been small scale save for two developments during 2008 and 2009, although a large proposal from B1a office development currently has the benefit of planning permission and is likely to be implemented shortly.

5.3 There is a mixture of available sites in terms of size, location and potential employment use. The supply is made up of a range of sites a majority of which are Brownfield sites within the Districts existing industrial areas. The supply should be kept under review to ensure continued availability of sites sufficient to meet the Local Plan targets. If a shortfall in supply is identified then additional sites may need to be identified and brought forward where they are required and appropriate.

Appendices

ELAA Panel

Appendix A ELAA Panel

A.1 The PPG advocates that land availability assessments (ELAA/SHLAA) should be prepared in partnership with key stakeholders. This should include developers, local property agents, local communities and other agencies who should be involved from the outset.

A.2 Cannock Chase District, Lichfield District and Tamworth Borough Councils determined to set up a joint SHLAA/ELAA Panel which built upon the success of earlier panels employed by the Council's. The SHLAA/ELAA Panel were consulted on the draft methodology and will be consulted on each edition of the SHLAA/ELAA. Its remit will be to consider the methodology and the detailed approach to site assessment, as set out within section 4 of this document.

A.3 The Panel comprised representatives from the local authorities, local agents, developers and others with property interest/knowledge within the area. The Panel comprised:

- Representatives from the three south-east Staffordshire authorities: Lichfield District Council, Cannock Chase District Council and Tamworth Borough Council;
- Developers - representatives including St Modwen, Persimmon Homes and Bromford Housing Group;
- Representatives from planning consultants active in the local area including CT Planning, Pegasus Group and Barton Wilmore;
- Representatives from the land promotion sector including First City, Richborough Estates, Jones Lang Lasalle (JLL), Kingstons CPC;
- Representatives from the Statutory Consultees; and
- Representatives from other Local Plan Authorities including South Staffordshire District Council and Stafford Borough Council.

A.4 The specific terms under which the Panel operated were agreed by the panel and defined as:

- To act as an independent panel that is representative of key stakeholders for the sole purpose of the preparation of the ELAA/SHLAA;
- To consider and give advice and opinions on the findings of the initial assessment undertaken by Lichfield District Council on the 'suitability' and 'availability' of potential sites within its administrative area;
- To assess the 'achievability' of potential sites for housing which are being assessed for the purpose of the ELAA/SHLAA. This will essentially be a judgement on the economic viability of each site, and the capacity of a developer to complete a proposed development over a certain period. Each Panel member will have regard to relevant published documents and draw from their own experience in giving a view on the 'achievability' of each potential site;
- To consider and give advice and opinions on the ELAA/SHLAA report(s) prior to its consideration and approval by Lichfield District Council; and
- To undertake any other task identified and agreed with the Council for the purpose of preparing the ELAA/SHLAA report(s).

A.5 Copies of the Panel Terms of Reference and representations received during the panel consultation can be made available on request.

Site Assumptions

Appendix B Site Assumptions

B.1 The following section outlines the assumptions used when calculating the split of uses, total floorspace, and job density for sites within the ELAA. These assumptions are used when such information is not provided for a site (see paragraphs 4.8 and 4.12 of the main body of this report).

B.2 There are three main areas where assumptions are made through this report which utilise two sources of evidence as illustrated in table B.1 below. Please note that the Job Density assumptions within the Lichfield District Council Employment Land Review (ELR) 2012 were based upon the Employment Density Guide (2nd Edition) 2010 which has now been superseded. This ELAA will use the latest data available.

Assumption	Evidence Source
Split of uses on site	Lichfield District Council Employment Land Review (ELR) 2012
Total floorspace	
Job density	Employment Density Guide (3rd Edition) November 2015 - Homes & Communities Agency

Table B.1

Split of land uses

B.3 Table B.2 sets out the assumptions used when determining the split of employment uses on a site. Where an indicative split of land uses is not provided then the assessment considers likely mixture of uses based on a number of factors, such a site size and mix of adjacent uses.

Typology	Split of Land Uses		
	B1	B2	B8
B1 city centre	100%	0%	0%
B1	100%	0%	0%
B1/B2	50%	50%	0%
B1/B8	20%	0%	80%
B1/B2/B8	33%	33%	33%
B1/B2/B8s	10%	45%	45%
B2	0%	100%	10%
B2/B8	0%	50%	50%
B8	0%	0%	100%

Table B.2 Split of land uses (source Lichfield District Council ELR 2012 page 95)

Total floorspace

B.4 Table B.3 provides the plot ratio assumptions used to determine the likely floorspace to be provided where only site size is available.

Land use class	Average plot ratio (m ² per hectare)
B1a/B1b	3,250
B1c/B2	3,500
B8	4,000

Table B.3 Plot ratio assumptions (source Lichfield District Council ELR 2012 page 130)

Employment Density

B.5 Table B.4 provides the assumption used when calculating the likely number of jobs that could be created through the development of a site. This job density is in essence the number of jobs per square metre of development.

Use class	Sub-category	Sub-sector	Density (m ²)	Notes	LDC density assumption (m ²) ^(v)
B1a Offices	General Office	Corporate	13	NIA	12 (unless detail is provided of B1a use it is assumed B1b & b1c)
		Professional Services	12	NIA	
		Public Sector	12	NIA	
		TMT	11	NIA	
		Finance & Insurance	10	NA	
	Call Centres		8	NIA	N/A
B1b	R&D Space		40-60	NIA lower densities will be achieved in units with higher provision of shared or communal spaces.	40
B1c	Light Industrial		47	NIA	
B2	Industrial & Manufacturing		36	GIA	
B8	Storage & Distribution	National Distribution Centre	95	GEA	80
		Regional Distribution Centre	77	GEA	

v used where detail of useclass is not provided

Use class	Sub-category	Sub-sector	Density (m ²)	Notes	LDC density assumption (m ²) ^(v)
		'Final Mile' Distribution Centre	70	GEA	
Mixed B Class	Small Buisness Worksapce	Incubator	30-60	B1a, B1b - the density will relate to balance between spaces, as the share of B1a increases so to will employment densities.	N/A
		Marker Spaces	15-40	B1c, B2, B8 - Differences between 'planned space' density and utilisation due to membership model.	N/A
		Studio	20-40	B1c, B8	N/A
		Co-working	10-15	B1a - Difference between 'planned space' density and utilisation due to membership model.	N/A
		Managed Workspace	12-47	B1a, B1b, B1c	N/A
B8/Sui Generis	Data Centres	Wholesale	200-950		N/A
		Wholesale Dark Site	440-1,400		N/A
		Co-location Facility	10-540		N/A

Table B.4 Employment density matrix (source HCA Employment Density Guide (3rd Edition) November 2015 page 29)

v used where detail of useclass is not provided

Table D.1 Sites with planning permission

D.1 The individual site assessments are provided in numerical order (ELAA ID).

ELAA ID: 1	Location: Land north of Plant Lane, Burntwood Business Park Zone 1		Settlement: Burntwood	Ward: Chase Terrace
SHLAA ID: N/A	ELR site ID: P1	Planning Ref: N/A	Source: Allocated	Proposed use class: B1/B2/B8
Site Area (Ha): 1.7	Floorspace (m²): 6047	FTE Jobs (estimate): 133	ELAA Map Ref (Appendix E): Map 1: Burntwood Business Park	
Suitable? Yes	Suitability Notes: Within Burntwood which is identified as a key sustainable settlement within the adopted Local Plan Strategy. Within allocated employment area. Brownfield site, possibility for contaminated land. Site is within 1km of SSSI. Within Forest of Mercia area. Possible area of Coal Subsidence. Site is within the Cannock Chase SAC zone of influence. Within designated Burntwood Neighbourhood Area. Adjacent to residential area.			
Available? Yes	Availability Notes: Site currently available and is allocated for employment use. Promoted by landowner/agent for employment uses. ELCA notes that land owners confirms site is available for employment development.			
Achievable? Yes	Achievability Notes: No known constraints to achievability.			
ELAA Category: Available				

Table D.2 Land north of Plan Lane, Burntwood Business Park Zone 1

ELAA ID: 2	Location: Land south of Cannock Road, Burntwood Business Park Zone 1		Settlement: Burntwood	Ward: Chase Terrace
SHLAA ID: N/A	ELR site ID: P2	Planning Ref: Planning permission for B1/B2 expired	Source: Allocated	Proposed use class: B1/B2
Site Area (Ha): 0.15	Floorspace (m²): 472	FTE Jobs (estimate): 26	ELAA Map Ref (Appendix E): Map 1: Burntwood Business Park	

ELAA ID: 2	Location: Land south of Cannock Road, Burntwood Business Park Zone 1	Settlement: Burntwood	Ward: Chase Terrace
Suitable? Yes	Suitability Notes: Within Burntwood which is identified as a key sustainable settlement within the adopted Local Plan Strategy. Within allocated employment area. Brownfield site, possibility for contaminated land. Site is within 1km of SSSI. Within Forest of Mercia area. Possible area of Coal Subsidence. Site is within the Cannock Chase SAC zone of influence. Within designated Burntwood Neighbourhood Area. Adjacent to residential area. ELCA notes that land owner confirms site is available for employment development and planning application to be submitted within 5 years.		
Available? Yes	Availability Notes: Site currently available and is allocated for employment use. Promoted by landowner/agent for employment uses.		
Achievable? Yes	Achievability Notes: No known constraints to achievability.		
ELAA Category: Available			

Table D.3 Land south of Cannock Road, Burntwood Business Park Zone 1

ELAA ID: 3	Location: Land east of Miners Way, Burntwood Business Park Zone 1	Settlement: Burntwood	Ward: Chasetown	
SHLAA ID: N/A	ELR site ID: P3	Planning Ref: N/A	Source: Allocated	Proposed use class: B1/B2
Site Area (Ha): 0.2	Floorspace (m²): 675	FTE Jobs (estimate): 37	ELAA Map Ref (Appendix E): Map 1: Burntwood Business Park	
Suitable? Yes	Suitability Notes: Within Burntwood which is identified as a key sustainable settlement within the adopted Local Plan Strategy. Within allocated employment area. Brownfield site, possibility for contaminated land. Site is within 1km of SSSI. Within Forest of Mercia area. Possible area of Coal Subsidence. Site is within the Cannock Chase SAC zone of influence. Within designated Burntwood Neighbourhood Area. Adjacent to residential area.			
Available? Yes	Availability Notes: Site currently available and is allocated for employment use. Promoted by landowner/agent for employment uses.			
Achievable? Yes	Achievability Notes: No known constraints to achievability.			
ELAA Category: Available				

Table D.4 Land east of Miners Way , Burntwood Business Park Zone 1

ELAA ID: 4	Location: Davidson Road (City Wharf), Lichfield	Settlement: Lichfield	Ward: St Johns	
SHLAA ID: 759	ELR site ID: P4	Planning Ref: N/A	Source: Allocated	Proposed use class: B1a
Site Area (Ha): 0.41	Floorspace (m²): 1334	FTE Jobs (estimate): -	ELAA Map Ref (Appendix E): Map 4: Lichfield City (Central)	
Suitable? Yes	Suitability Notes: Recently redeveloped for residential use (Complete SHLAA 2016).			
Available? No	Availability Notes: Recently redeveloped for residential use (Complete SHLAA 2016).			
Achievable? No	Achievability Notes: Recently redeveloped for residential use (Complete SHLAA 2016).			

ELAA ID: 4	Location: Davidson Road (City Wharf), Lichfield	Settlement: Lichfield	Ward: St Johns
ELAA Category: Not Available			

Table D.5 Davidson Road (City Wharf), Lichfield

ELAA ID: 5	Location: Former Revelan Works, Eastern Avenue, Lichfield		Settlement: Lichfield	Ward: Curborough
SHLAA ID: 39	ELR site ID: P5	Planning Ref: -	Source: Allocated	Proposed use class: B1/B2/B8
Site Area (Ha): 3.1	Floorspace (m²): 12080	FTE Jobs (estimate): -	ELAA Map Ref (Appendix E): Map 6: Lichfield City (North)	
Suitable? Yes	Suitability Notes: Within Lichfield which is identified as a key sustainable settlement within the adopted Local Plan Strategy. Within allocated employment area. Brownfield site, possibility for contaminated land. Site is within 1km of BAS. Adjacent to area of flood risk. Site is within the Cannock Chase SAC zone of influence. Within designated Lichfield City Neighbourhood Area. Adjacent to residential areas. Site proposed to be removed from employment area and allocated for residential development through emerging Local Plan Allocations document.			
Available? No	Availability Notes: Site currently under construction for residential development following grant of permission at appeal. ELCA notes site is not available following grant of planning permission for residential development. Site therefore not considered to be available for employment/economic development.			
Achievable? No	Achievability Notes: Not to be developed for employment uses following grant of residential permission which is now under construction.			
ELAA Category: Not Available				

Table D.6 Former Revelan Works, Eastern Avenue, Lichfield

ELAA ID: 6	Location: Land north of Britannia Buisness Park , Lichfield		Settlement: Lichfield	Ward: Boley Park
SHLAA ID: N/A	ELR site ID: P6	Planning Ref: -	Source: Allocated	Proposed use class: B1/B2/B8
Site Area (Ha): 1.17	Floorspace (m²): 4193	FTE Jobs (estimate): 90	ELAA Map Ref (Appendix E): Map 6: Lichfield City (East)	
Suitable? Yes	Suitability Notes: Within Lichfield which is identified as a key sustainable settlement within the adopted Local Plan Strategy. Within allocated employment area. Greenfield site. Grade 2 agricultural land. TPO protected trees adjacent to site. Site is within the Cannock Chase SAC zone of influence. Within designated Lichfield City Neighbourhood Area.			
Available? No	Availability Notes: Site currently available and is allocated for employment use. Adjacent part of site currently under construction for employment use.			
Achievable? No	Achievability Notes: No known constraints to achievability.			
ELAA Category: Available				

Table D.7 Land north of Britannia Business Park, Lichfield

ELAA ID: 7	Location: Land west of Burton Old Road, Lichfield	Settlement: Lichfield	Ward: Boley Park
ELAA Category: Complete (see Appendix C & Map 3: Lichfield City (East))			

Table D.8 Land west of Burton old Road, Lichfield

ELAA ID: 8	Location: Land east of Burton Old Road, Lichfield	Settlement: Lichfield	Ward: Boley Park
ELAA Category: Planning Permission Full (see Table D.1 & Map 3: Lichfield City (East))			

Table D.9 Land east of Burton old Road, Lichfield

ELAA ID: 9	Location: Land at Rugeley Power Station		Settlement: Other Rural	Ward: Armitage with Handsacre
SHLAA ID: 173	ELR site ID: P9	Planning Ref: 03/00624/OUTM	Source: Allocated	Proposed use class: B1/B2/B8 (mixed use)
Site Area (Ha) 3.3	Floorspace (m²): 11,777	FTE Jobs (estimate): -	ELAA Map Ref (Appendix E): Map 10: Armitage with Handsacre	
Suitable? Yes	Suitability Notes: Site is located within the East of Rugeley Strategic Development Allocation (SDA) to provide employment . Part of larger cross boundary site which includes land within Cannock Chase District. Site is adjacent to built up area of Rugeley within Cannock Chase District. Site is adjacent to Rugeley Power Station site which has no closed for power generation. Grade 3 agricultural land classification. Site is within the Cannock Chase SAC zone of influence. Within designated Armitage with Handsacre Neighbourhood Area. Likely site would be part of wider redevelopment of the Power Station site (see ELAA site 109).			
Available? Unsure	Availability Notes: Power station has closed. Decommissioning and demolition/remediation expected to take approximately 4 years from closure of station. Timescales and level of demolition/remediation prior to development currently unknown .Site is likely to come forward as part of wider redevelopment however mix/scale of uses and timescales currently unknown. ELCA assessed site as uncertain. Given information it is unsure as to the potential use/mix of uses to be proposed for the site.			
Achievable? Yes	Achievability Notes: Given uncertainty of the timescales of the site becoming available there is uncertainty over the achievability of the site. It is noted that developers consider the redevelopment of the site within plan period possible.			
ELAA Category: Uncategorised - not enough information currently to categorise site as either 'available' or 'not available'. Site is likely to become available for development within the plan period, however the mix/scale of development and timescales are currently unknown. As such floorspace not included in results of assessment at this stage.				

Table D.10

ELAA ID: 10	Location: Wood End Lane, Fradley park		Settlement: Fradley	Ward: Alrewas & Fradley
SHLAA ID: N/A	ELR site ID: P10	Planning Ref: Planning Permission for B2/B8 expired.	Source: Allocated	Proposed use class: B2/B8
Site Area (Ha): 2.01	Floorspace (m²): 2792	FTE Jobs (estimate): 86	ELAA Map Ref (Appendix E): Map 2: Fradley park	

ELAA ID: 10	Location: Wood End Lane, Fradley park	Settlement: Fradley	Ward: Alrewas & Fradley
Suitable? Yes	Suitability Notes: Within Fradley Park which is adjacent to Fradley identified as a key sustainable settlement within the adopted Local Plan Strategy. Within allocated employment area. Brownfield site, possibility for contaminated land. Grade 3 agricultural land. BAS within 1km. Site is within the Cannock Chase SAC zone of influence. Within designated Fradley Neighbourhood Area.		
Available? Yes	Availability Notes: Site currently available and is allocated for employment use. ELCA noted that a revised planning application was expected to be submitted which has since been submitted and currently in process of determination (Ref: 17/00276/FULM).		
Achievable? Yes	Achievability Notes: No known constraints to achievability.		
ELAA Category: Available			

Table D.11 Wood End Lane, Fradley Park

ELAA ID: 11	Location: Land at East Hill, Fradley	Settlement: Fradley	Ward: Alrewas & Fradley
ELAA Category: Planning Permission Outline (see Table D.1 & Map 2: Fradley Park). Total Floorspace = 81,507m ² of which 51,279m ² is under construction with 30,228m ² remaining to be implemented.			

Table D.12 Land at East Hill, Fradley

ELAA ID: 12	Location: Wellington Crescent, Fradley (1)		Settlement: Fradley	Ward: Alrewas & Fradley
SHLAA ID: N/A	ELR site ID: P12	Planning Ref: -	Source: Allocated	Proposed use class: B1/B2/B8
Site Area (Ha): 2.3	Floorspace (m²): 7475	FTE Jobs (estimate): 120	ELAA Map Ref (Appendix E): Map 2: Fradley park	
Suitable? Yes	Suitability Notes: Within Fradley Park which is adjacent to Fradley identified as a key sustainable settlement within the adopted Local Plan Strategy. Within allocated employment area. Brownfield site, possibility for contaminated land. Grade 3 agricultural land. BAS within 1km. Site is within the Cannock Chase SAC zone of influence. Within designated Fradley Neighbourhood Area.			
Available? Yes	Availability Notes: Site currently available and is allocated for employment use. ELCA notes that land owner confirms site is available for employment development intention to submit planning application.			
Achievable? Yes	Achievability Notes: No known constraints to achievability.			
ELAA Category: Available

Table D.108 Land west of Bonehill Mews, Lichfield Street, Fazeley

ELAA ID: 107	Location: Land north of Armitage Shanks, Armitage		Settlement: Armitage with Handsacre	Ward: Armitage with Handsacre
SHLAA ID: 120	ELR site ID: P53	Planning Ref: N/A	Source: Allocated	Proposed use class: B1/B2/B8
Site Area (Ha) 3.58	Floorspace (m²): 12793	FTE Jobs (estimate): 273	ELAA Map Ref (Appendix E): Map 10: Armitage with Handsacre	
Suitable? Yes	Suitability Notes: Adjacent to Armitage with Handsacre which is identified as a key sustainable settlement within the adopted Local Plan Strategy. Within allocated employment area. Brownfield site, possibility for contaminated land. Possible area of Coal Subsidence. Site is within the Cannock Chase SAC zone of influence. Within designated Armitage with Handsacre Neighbourhood Area. Adjacent to conservation area. TPO protected trees within site. Within 1km of BAS. Site is proposed to be removed from employment area through emerging Local Plan Allocations document.			
Available? Yes	Availability Notes: Site currently available and is allocated for employment use. ECLA notes that site is no longer required for business use and alternative uses have been proposed.			
Achievable? No	Achievability Notes: ECLA notes that there are uncertainties with regards to access to site and suggests removal from employment land capacity.			
ELAA Category: Not Available				

Table D.109 Land north of Armitage Shanks, Armitage

ELAA ID: 108	Location: Land at Cricket Lane, Lichfield		Settlement: Lichfield	Ward: St Johns
SHLAA ID: 32	ELR site ID: P64	Planning Ref: -	Source: Allocated	Proposed use class: B1/B2/B8
Site Area (Ha) 13.2	Floorspace (m²): 47300	FTE Jobs (estimate): 733	ELAA Map Ref (Appendix E): Map 5: Lichfield City (South)	
Suitable? Yes	Suitability Notes: Part of the South Lichfield Cricket Lane Strategic Development Allocation (SDA) within the adopted Local Plan Strategy. Allocated for employment uses. Greenfield site. Grade 2 agricultural land classification. Site is within the Cannock Chase SAC zone of influence. Within designated Lichfield City Neighbourhood Area.			

ELAA ID: 108	Location: Land at Cricket Lane, Lichfield	Settlement: Lichfield	Ward: St Johns
Available? Yes	Availability Notes: Site is allocated for employment uses within the adopted Local Plan Strategy. ECLA notes that agent confirms employment development is to be pursued with planning application being prepared.		
Achievable? Yes	Achievability Notes: No known constraints to achievability		
ELAA Category: Available			

Table D.110 Land at Cricket Lane, Lichfield

ELAA ID: 109	Location: Rugeley Power Station		Settlement: Rural	Ward: Armitage with Handsacre
SHLAA ID: 1031 & 406	ELR site ID: -	Planning Ref: -	Source: Call for Sites submission	Proposed use class: B1/B2/B8 (mixed use)
Site Area (Ha) 83.76	Floorspace (m²): Unknown	FTE Jobs (estimate): -	ELAA Map Ref (Appendix E): Map 10: Armitage with Handsacre	
Suitable? Yes	Suitability Notes: Site is located adjacent to East of Rugeley Strategic Development Allocation (SDA) and incorporates part of SDA allocated for 450 homes within the adopted Local Plan Strategy (see SHLAA site 406). Part of larger cross boundary site which includes land within Cannock Chase District. Site is adjacent to built up area of Rugeley within Cannock Chase District. Majority Brownfield site some Greenfield elements (sports pitches). Majority of site classifies as urban, part grade 3 and 4 agricultural land classification. Site is within the Cannock Chase SAC zone of influence. Within designated Armitage with Handsacre Neighbourhood Area. Likely site would comprise mixed use redevelopment including residential and employment uses, no information available about potential uses or split as As such no floorspace calculation has been made and the Site Area (Ha) will not be included in ELAA 2016 results (Table 5.1)			
Available? Unsure	Availability Notes: Closure of current power station has been announced. Decommissioning and demolition/remediation expected to take approximately 4 years from closure of station. Timescales and level of demolition/remediation prior to development currently unknown.			
Achievable? Unsure	Achievability Notes: Given uncertainty of closure of station and the timescales of the site becoming available there is uncertainty over the achievability of the site,			
ELAA Category: Uncategorised ^(vi) - not enough information currently to categorise site as either 'available' or 'not available'. Site is likely to become available for development within the plan period, however the mix/scale of development and timescales are currently unknown. As such floorspace not included in results of assessment at this stage.				

Table D.111 Rugeley Power Station

ELAA ID: 110	Location: Land south of Fradley South		Settlement: Fradley	Ward: Alrewas & Fradley
SHLAA ID: 132	ELR site ID: -	Planning Ref: -	Source: Call for Sites submission	Proposed use class: B1/B2/B8/Residential
Site Area (Ha) 3.9	Floorspace (m²): 13975	FTE Jobs (estimate): -	ELAA Map Ref (Appendix E): Map 2: Fradley park	

vi Not enough information to assess if 'available' or 'not available' at this stage. Site is likely to become available within plan period however the mix/scale of uses proposed and more definitive timescales are currently unknown. However, it is considered inappropriate to categorise the site as 'not available' given the staged landowner intentions and the generally supportive context for redevelopment of the site (taking into account the adjacent redeveloped site of the former Power Station A)

ELAA ID: 110	Location: Land south of Fradley South	Settlement: Fradley	Ward: Alrewas & Fradley
Suitable? No	Suitability Notes: Within Fradley Park which is adjacent to Fradley identified as a key sustainable settlement within the adopted Local Plan Strategy. Within allocated employment area. Site is allocated as protected open space to provide separation between adjacent employment and residential uses. Brownfield site, possibility for contaminated land. Grade 3 agricultural land. BAS within 1km. Site is within the Cannock Chase SAC zone of influence. Within designated Fradley Neighbourhood Area.		
Available? No	Availability Notes: Site has been promoted for residential development. Unlikely to be available for employment uses. Site is allocated as protected open space.		
Achievable? Yes	Achievability Notes: No known constraints to achievability		
ELAA Category: Not Available			

Table D.112

ELAA ID: 111	Location: Land area of Wellington Crescent, Fradley		Settlement: Fradley	Ward: Alrewas & Fradley
SHLAA ID: N/A	ELR site ID: -	Planning Ref: -	Source: Call for Sites submission	Proposed use class: B2/B8
Site Area (Ha): 7.9	Floorspace (m²): 27,950	FTE Jobs (estimate): 569	ELAA Map Ref (Appendix E): Map 2: Fradley Park	
Suitable? Yes	Suitability Notes: Adjacent to Fradley Park which is adjacent to Fradley identified as a key sustainable settlement within the adopted Local Plan Strategy. Adjacent to allocated employment area. Greenfield site. Grade 3 agricultural land. Site is within the Cannock Chase SAC zone of influence. Within designated Streethay Neighbourhood Area. Site is proposed to be allocated for employment development within emerging Local Plan Allocations document.			
Available? Yes	Availability Notes: Site is not allocated but has been promoted through Call for Sites by landowner/agent for employment uses.			
Achievable? Yes	Achievability Notes: No known constraints to achievability.			
ELAA Category: Available				

Table D.113

ELAA ID: 112	Location: Midlands Go Kart, Wood End Lane, Fradley		Settlement: Fradley	Ward: Alrewas & Fradley
SHLAA ID: N/A	ELR site ID: -	Planning Ref: -	Source: Call for Sites submission	Proposed use class: B1/B2/B8
Site Area (Ha): 0.9	Floorspace (m²): 3128	FTE Jobs (estimate): -	ELAA Map Ref (Appendix E): Map 2: Fradley Park	
Suitable? Yes	Suitability Notes: Adjacent to Fradley Park which is adjacent to Fradley identified as a key sustainable settlement within the adopted Local Plan Strategy. Adjacent to allocated employment area. Brownfield site currently in commercial use (Go Kart track). Site is within the Cannock Chase SAC zone of influence. Within designated Fradley Neighbourhood Area.			

ELAA ID: 112	Location: Midlands Go Kart, Wood End Lane, Fradley	Settlement: Fradley	Ward: Alrewas & Fradley
Available? Yes	Availability Notes: Site is not allocated but has been promoted through Call for Sites and Local Plan Allocations consultation by landowner/agent for employment uses. Site is currently in use for alternative use.		
Achievable? Yes	Achievability Notes: No known constraints to achievability. Access and transport issues would need to be considered.
